Foreword

THIS year's twentieth annual exhibition marks the close of the second decade in the history of the Provincetown Art Association.

It is of interest to remember that the first ten years was a time of united effort and of co-operation toward a desired end, the building of a suitable gallery which was accomplished.

While the second decade marked a period of upheaval and diversity of opinion, the additional little gallery was built, and a program of two exhibitions instead of one, was arranged and has been in effect for eight summers.

This annual exhibition opens at a time of readjustment to a different era which many believe will result in the development of a distinctive American Art.

That progress is being made toward this end will be evident it is hoped, to observant visitors to the exhibition.
