Miss Thelma M. Given,
Hotel Netherland,
Fifth Avenue at 59th,
New York City.

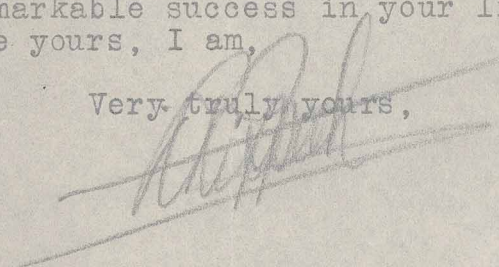

My dear Miss Given:

In accordance with the promise given you at Mr. Williams' supper at the Hotel Vail sometime ago, I am herewith enclosing your character analysis by means of numerology.

There is an old saying that figures never lie, but of course, they can be made to lie. However, I assure you that this analysis is absolutely authentic and confirms my personal opinion of you which I was able to get in the short time in which I was in your company. After all is said and done, it is rather a nice analysis and I hope that it is not only true but meets with your approval.

Don't forget that when you want to spend that vacation, the mountains of Pueblo welcome you with open arms and I am sure there are a number of eligible young men who will endeavor to contribute to your happiness and good time.

With best wishes for a remarkable success in your line of work, which I know will be yours, I am,

Very truly yours,
