Dear Miss Given:

We received your special delivery from Omaha and were so glad to know that you made such an overwhelming success there. AMO is still snowed under with the Chicago Opera sale and until that is over it is useless to expect anything else from him. He will undoubtedly write you sometime in the near future, though.

Mrs. Walmsley, of Pueblo, wrote us the most wonderful letter about you and sent the enclosed clipping. You probably have seen it but thought an extra copy would not come amiss so am sending it along. I sent you some other papers, etc., several days ago and hope they reached you OK. You certainly got marvelous write-ups everywhere- and deservedly, too. AMO was greatly impressed with your playing and he knows enough about artists to take into consideration that you were playing under numerous disadvantages at the Denver Athletic Club. You do not need to worry about that in the least.

Indeed we will follow up the Omaha lead and thank you for sending it to us.

I so much enjoyed the two short visits I had with you and hope that next time you come out we can see more of you and also show you more of Denver.

My sister joins me in sending you regards and all good wishes,-

Sincerely,

Mary H. Evans
