

Dear Fritz & Jeanne. July 21 - 46 -
Sorry you didn't write me at
once about your being in trouble with the
Mass. law. Glad you have Ball. You should
defend your self. After this ^{is} over you should
join good Gov't. politics and fight for Ptown
or - you should sell & quit. Billie McLaughlin
our old Carriage driver who's brother Jim
drove me to be Baptized. Married & almost buried
said: - "N.O. is the Ass hole of America" - He
should have tried visiting Ptown - for a better
location of Americas, "Ass hole." Its Ptown.
What the hell have they got up there? No sidewalks
to walk on ^{no} Car to ride in - no streets to
drive on - No (place) to Bathe in. - No beaches
that anyone can get to. - then, poor trash like
you, who cant ride in an auto ^(to and fro) goes to jail
for trying to kid himself that he is having
fun bathing in Cape Cod - Cape Cod stinks
like the fish! You either quit or work for
something that is worth while - - You can
never get Pauline or I to put a dollar in a hole
like that. All I can see is the natives laying
low for the rush of Summer - sucker - two good
months of such - is enough to satisfy them &
that is the extent of their interest. I wish I was
there to go to the Court with you on the 25th I
will pay Ball to defend you -

The man who owns & publishes the Advocate
is a sane - good man. I like his paper
& his common sense! - The town is on
the Fritz, - as for, as good planning is concerned.
Interestingly - "Danton Walker N.Y. Columnist"
had had some past experience. He like Alvin
Belden (Prof Belden N.Y. University) says Ptown
is what Belle Mc L. Day's No. 0. is - He used
to say that when he was drunk & when they
talked about putting a ban on racing in No. 0.
otherwise, No. 0. was a great town. - Anyway
Walker's news items just came out. - I cut them ^{out}
Send to you, when your letter arrived. - I sent the
clippings on to Muriel for her perusal & then she
will send them on to you for you & your
files - Don't be afraid! Go to court with a
Real Chip on your shoulder, tell them that
you are a property holder, - not a bum or
a passerby. or a summer visitor! - Bell
should stress that. - Mother says she is sure
you got that Poison ivy infection in the thubs
trying to dress, or change on the beaches!
I would not be too concerned about it, but
the time wasted & the expense is something.
Give me name & particulars concerning. - I am too
far away & too late to do anything except to
say: - fight it, & I pay the cost.

³ I dont think I'd get involved in renting
a N.Y.C. Apt on Sept 1-1/46 hoping or planning
on the Murray job. - If you take the Murray
job, - You will love a job that calls for
organization. - You cannot do it alone. It's
too big & you are not Experienced Enough. You
will need a manager. You will need money &
you will have to have people working, - so as
to do it quickly & efficiently. You cannot
say: I'll do it tomorrow! - I am not inclined
to work today! My mood is not good. Etc. etc.
It needs execution, "Snap and Go!" My advice
to you is, to forget it. You & James come
to W.O. as soon as possible. - I am not
going to N.Y.C. or Ptown this Sept. or
Oct. I have work at home. - I got a job that
will need me. & I am going to Chicago for
the convention stay a week or 10 days & return
to W.O. I sent you a huge food box only
yesterday July 20/46. It's worked. (Food ^{perishes})
try to get it to you, " pronto." Margarine
3 lbs etc. etc. - So, be on the look out
for it. We were overjoyed with the report on
the baby box. My how we wish he was here
Had Frank Sharp & wife in the other evening for
drinks. - The Cases were here also. They are fine

Business has been quiet - but I keep busy
but dont seem to accomplish much. The
weather has not ^{BEEN} too hot. - Overcast skies
& plenty of rain has kept the temperature
low. & the nights cool. The glass room
with the fans are perfect. We live out there.
Since you want to do work for your self
why clutter up your life with the Murray
job just now. But if you come to N.O.
You must work for self - I dont let anything
interfere with your work. - Perhaps, if you
got Organized - with Jeanne Sister in N.O.
You may both want to stay in N.O. next
Summer. and rent out your Apto. - You will
at least keep out of jail. - We love good tabs
in 1525 Labr. 4 of them, so what? I am glad
that Han Miz went with you. - If I recall you
were never in jail - before Except the Ptown incident
You told us of (same as Walter) You should have
Ball bring that out, plus your being married &
Reopening a family & a property holder. - makes
for the dismissal of the case. (I may write the ^{document}
Miz Hoffman can testify for you & so can Han's
they have, one or the other, been with you for the past
11 years. - Dont keep your tongue in your cheek
Tell Em to go to hell. & Why in hell dont you put a
place to change clothes etc etc. Tell Em! Go ahead

Line me & I will quit the damn
neighborhood - The bayou country is
best anyway. - - I think that brings us up
to date. I read your letter Jeanne about the
interested subjects - Do hope that P. Hunt was
satisfied - I wrote him, but heard nothing.
Leola is back again - She & Malinda could
not get along - She went home - Sick for a
week - but is back again - Life goes on -
The Gaus were up last evening - Had a man
from Shanghai China & a man from Portland
Oregon last Sunday. visiting us - stopping
in to get data on our business & general interest
How are the folks across the road - Give Helen
our best wishes & remembers us to others.
I wish it was time to have the baby come
visit us. He would be very happy with
him around - The Dyers are in Calif - most
of the family - daughter Katherine & son-in-law
come in tomorrow for dinner - Everyone here
send you best wishes - all ask about you
& the fine baby - bay. Do take of de dee for
us. He too love him - Do write us at once
the outcome of the trial - Tell Ball to stand up
for you. We await with interest & love the
word about you & your doing - now and
always Love from us here to all those of you
there in Ptown love Bob xx
