

Dearest Family — Since my departure  
a week ago certain news has  
accumulated — First and most  
important his Majesty has a  
tooth — without much trouble or  
pain here there it was — a jagged  
little thing — on time and no  
trouble. Second his Majesty had to  
have what amounted to a  
second circumcision — something  
must have been wrong with the  
first as Jeanne and I noticed what  
we thought were small cysts  
around the head of his prepuce —  
Dr. A. said they were "adhesions"  
and had to open around the  
entire head to remove quite a  
mass of white accumulation.

Needless to say there was a loud outcry but once back in Papa's arms all was quiet - That was two days ago - Jeanne says today everything is healed - Otherwise he is very happy and now to his simple pleasures is added his swing from which that he enjoys greatly.

My trip back was a huge fiasco - the train I took makes as a rule comfortable connections both in Boston + Providence but we were running  $\frac{1}{2}$  hour late - and were advised to make the connection in Providence

which is a bus & probably would  
wait — well needless to say it  
didn't & that was the last bus  
to P'town — fortunately being  
Friday — there was a bus to Hyannis  
at 8:30 reaching H at almost 11 —  
I called My & had her have the  
taxi meet me all of which cost  
20<sup>00</sup> but after all I had that  
was that I could let spoil —  
Oh well —

Speaking of meat — there is none  
in town — also no butter —  
everything else there is including  
oat flakes but no meat —  
however if you bring some  
you can store it in the

cold room at our butchers -  
I would appreciate an extra ham  
that we could put in the cooler  
until later in the summer when  
we need it -

By the way "dede" loves to look  
at the African masks + he laughs  
+ laughs - so we call it Allie or  
Malinda and he laughs more.

At the moment Leanne is at  
church and I am playing nurse -  
"we" were in our swing for a while  
and now are on Daddys lap - looking  
at Daddy writing - soon we will  
have orange juice - The motor toy  
for a little one is great but we  
try to break it up.

I will say good day now as "we" are  
getting restless - All of us, Jeanne  
I and "one tooth" send our love -  
"we" loved our rabbit that dances  
and prances -

Peter says the place will be ready -  
(It has to be painted for the season)  
on the first - possibly a little  
before - so if you want to chance  
it - There is always the colonial inn for  
a few days -  
Our garden is coming along fine -

All love  
Jeanne + Fitz  
&

1 tooth
