

Thursday nite

My Darling -

You have only been gone a little more than 24 hrs. but darling how we miss you - & how we worry - you stood in the rain so long waiting for the bus - are you sick today? How are you honey? Him didn't get sick - in fact is fine - has been outdoors whole day as it was just gorgeous again!

Am enclosing the prize specimen gathered from the Southland - we must forgive Donnie all, as he has really sent the prize find of the year -

Last nite on the radio was broadcast that the "Lillian B" of Ptown was missing 24 hrs. & the Coastguard was looking for her with crew of 3!!! And such a bad storm - Today I have heard nothing further - so perhaps they got in safely - will let you know.

Painted all the bookcase last nite & closet door, after shellacking motholes in the p.m. Couldn't do the bathroom floor as it rained like hell

✓ water came in around the chimney
pipe + all over - many - will do it
tonite - also front door - inside + out.

I lined some of the garden
this morning + planted 2 rows
each onion sets + peas - + lettuce.
I was wrong about the beans, they
don't go in til may 1st, so no hurry -
This p.m. we went for a walk then came
home + opened the crate, as the blinds
were all wet from rain - so have
moved them into the studio - they
really look terrific - Little love just
watches + follows all over + does
very well -

My new iron came + it is
divine - like Pauline's - "big + hot +
very easy to handle" -

Come home soon so we
can play honey - I loathe sleeping
alone - Hope all is ok. with you +
the show + all else + don't get sick
my darling, I worry so much -
It is a beautiful calm evening +
time to love the little man so I close
with much love from us both + plenty
of hugs + kisses + more love. I can't
