December 14, 1870:

"Three new houses are building on Pleasant street and many more near Franklin street, and so, in fact in many parts of the town. It is worth any body's while who has not recently travelled about the back streets to take a walk and see the changes. Many of the localities he would scarcely recognize."

Located on Montello St - About 1910
 This house has been torn down, and now - 1945 - the oldest
 house is on the corner of Soper Street, after Lancy's
 Corner
