Escape into Fall

September is brimming with things to do . . .

by MARJORY HALL

SOME YEARS AGO THE CAPE CODDERS stirred up a storm when they took all of September and October and genially called it Indian Summer.irate gentlemen wrote indignant letters to the press in an attempt to compress Indian Summer into those weeks where they considered it rightfully belonged. Now several Indian Summers later, Cape Cod (the photograph, on these

two pages shows the famous Pilgrim Monument in Provincetown) is still calling attention to the beauties of the season, and the season still runs for two whole months, and somehow it doesn't seem to make much difference! 'Indian Summer,' no matter how you slice it, is a wonderful time on Cape Cod.
