FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

Atwood Avenue is a private way; the building is only partially visible from West Vine Street. This building is a 1 1/2-story; 4 bay structure with two rear additions. The side gable roof has partial cornice returns and is clad in asphalt roof shingles. An exterior brick chimney is located on the west façade. Primary façade not visible during survey, so main entry type is unknown. Fenestration includes 2/2, 6/1, and 1/1 wood DHS; single-pane wood awning windows; inoperable shutters on north façade. corner boards. A 1-story, side-gable roof ell on the south side has a rooftop deck on the east slope and an exterior brick chimney at the gable end. A smaller 1-story gable roof section to the rear of the ell has a secondary entry accessed by an enclosed vestibule under the main roof slope, facing south, at the west side.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

Formerly known as 28 Tremont Street (see NR Nomination).
