## FORM B - BUILDING

--	--	--	--

### ARCHITECTURAL DESCRIPTION

see continuation sheet

*Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.*

3 Conant Street is a 2-story, 5-bay building, facing southward toward Commercial Street. The cross gable roof is clad in asphalt shingles; partial cornice returns; frieze below eaves. The building has double primary entrances, with exterior modern storms; flat shallow hoods and wood surrounds. The entrances are not directly adjacent - a window is located between the two doors. A secondary entrance with storm door faces Conant Street. Fenestration includes 6/6 wood DHS throughout with inoperable shutters and storms. A 1-story, flat roof addition is located on the northeast corner. An addition at the east end of the building is setback slightly.

### HISTORICAL NARRATIVE

see continuation sheet

*Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.*

### BIBLIOGRAPHY and/or REFERENCES

see continuation sheet

Recommended for listing in the National Register of Historic Places. *If checked, you must attach a completed National Register Criteria Statement form.*
