FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

6 Winthrop Street is a 1-1/2-story, 3-bay sidehall entry building with a brick chimney at the rear gable end, 2 gabled dormers on the south slope and 1 on the north slope. Main entry is recessed panel door with storm and sidelights. The heavy surround includes pilasters and entablature. The gable end is fully pedimented. Windows are 6/6 wood DHS with wood trim and operable louvered shutters. The gable end window (top) has paired end brackets. Two 2-story rear additions; the rear-most is clad in wood shingles and has exterior steps leading to 2nd story deck and entry. Skylight in 1st rear addition.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

According to a plaque on the building, this is a "floated-over" house from the mid-19th century.
