FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

10 Court Street is a 2-story cottage on raised brick basement. The front-gable roof has partial returns and a brick chimney at the ridge. Trim is wrapped in aluminum. A 1-story canted bay, topped by a 1-story square bay, dominate the main facade. A 1-story square addition on the north facade contains the main pane and panel entry door with storm. Fenestration includes 2/2 wood DHS with storms; 6-light and sliding windows are located in the basement level. A 3-light triangular window is located in the peak of the eastern gable end. A square bay is located on the south facade.

Work is currently ongoing for a 2-story rear addition with shed roof wall dormers and 2/2 wood DHS. Some upper story windows in the main section are also being replaced with 6-light windows.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
