FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

10 Freeman is a 1 1/2 story, 3/4 cottage. The side gable roof includes a central brick corbelled chimney and shed roof dormer on front. Building faces east, not toward street. (The primary entrance was not visible from the street for survey.) A secondary entry with pane and panel door and wood storm door is located in the southwest elevation of the ell. Fenestration includes 2/2 wood DHS with storms and simple surrounds. A 1-story setback side ell extends northward.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

As per Tom Boland (1994): This house is clearly shown on the 1836 map and the 1858 atlas of Provincetown. In 1880, it was owned by E. Ryder. By 1907 the ownership had changed to a M. Lopes. Freeman Street is one of Provincetown's earliest streets and was closely linked to the activity at Hilliard's Wharf.
