We again express our gratitude to the Restoration Fund Committee for their generous work over the past two years to raise sufficient funds to restore the Provincetown Universalist Church. The magnificent frescoes by Wendte and the simple eloquent exterior of the building itself will eventually be restored to their original state, thus keeping for Provincetown and the nation this beautiful and historic shrine.

The impressive work has been done by a committee that represents not one, but all churches; not a single group of citizens, but all the citizens of Provincetown. This is as it should be. For in a sense Provincetown belongs not to itself but to the nation and the parish of the Provincetown Universalist Church extends to all parts of the country. Contributions to this important work have been made by people from all walks of life and from communities far removed from the Cape tip.

As art is universal, so has been the outpourings of those who have made this venture such a success.

As minister of this church, I want to express my sense of gratitude to all of you not only on behalf of thousands of people whom I have met briefly when they visited the church during a summer holiday but on behalf of those who have been in close association with this work from its inception. We are building a permanent and original work that will be appreciated for generations to come as it has been for nearly two hundred years appreciated by generations past. Thank you.

Charles Harrell, Minister
The Provincetown Universalist Church
