Dear Sus:

For the past 8 years, I have spent my summer vacations in your town and I'm afraid this will be my last.

After seeing the Gestapo tactics used to keep Commercial Street open to traffic, I could never feel comfortable there again.

I will certainly urge my friends both in Jersey and New York to find another spot to gather in you over next year.

Whom started this fiasco, especially  
so late in the season, obviously  
has lost sight there are many  
other spots up and down the coast  
to spend your vacation.

If this incident had happened  
anywhere else I would not  
have been as shocked; it goes  
against everything about P. Town  
that draws people to it time  
and time again.

Sincerely,  
Pat Palovcak
