The Finance Committee, recommended the adoption of the following motions:

That the School Committee is hereby directed to notify the proper and necessary persons or officials of the Town of Truro (and elsewhere if required) that from and after the end of the present school year, that the Provincetown High School, will no longer receive students who are not residents of Provincetown.

It was moved to amend this to read as follows:

That it is the sense of this meeting that the School Committee is hereby requested to notify the proper and necessary persons or officials of the Town of Truro (and elsewhere if required) that from and after the end of the present school year, that the Provincetown High School, will no longer receive students who are not residents of Provincetown.

Motion was carried.

Second: That hereafter no Town Auditor shall be elected, as proper Auditing will be done by the State.

This motion was indefinitely postponed.

Third: That hereafter caring for Veterans' graves shall be done under the direction of the Cemetery Commissioners.

Motion was carried.

Fourth: To correct a possible wrong impression which has prevailed so that in some cases interest has been paid by the Town on amounts deposited in the Cemetery Trust Funds; the Finance Committee recommends the adoption of the following motion.

Moved that sums made over to the Town for the care of Cemetery lots be placed at interest, and the interest used only for the care of the particular lots for which it is deposited. All legal provisions and rules to apply to said funds and the interest thereof.

Motion was carried.

Fifth: The Committee calls your attention to what it considers may be an unnecessary expense for telephone service; in some cases each member of a Department or Board, is listed

in the telephone directory under "Town of Provincetown." It would seem to your Committee that in most cases only one telephone is necessary for each Department, except for the Water Department where it is imperative that the Superintendent and the Pumping Station, may be called at any time.

This motion was over ruled and no action taken.

No further business meeting was dissolved.

GEORGE S. CHAPMAN,
Town Clerk.

SPECIAL TOWN MEETING

Commonwealth of Massachusetts

Barnstable, ss. To either of the Constables of the Town of Provincetown, in the County of Barnstable. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said town, qualified to vote in elections and in Town affairs, to meet at the TOWN HALL, in said town on

MONDAY, THE 27th DAY OF APRIL NEXT, AT
7:00 O'CLOCK IN THE AFTERNOON,

then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To hear the Reports of Committees and act fully thereon.

Article 3. To see if the Town will Raise and Appropriate the sum of Three Hundred and Fifty Dollars in addition to the amount appropriated at the annual meeting for the purpose of extending the Water Main on Court Street.

Article 4. To see if the Town will vote to build a Wooden Bulkhead and Fence on the premises of Smith House and Appropriate the sum of One Hundred and Fifty Dollars for the same.

And you are directed to serve this Warrant, by posting up attested copies thereof at William Tarvis, Joseph Perry, Joseph Correiro, George Rogers, B. H. Dyer & Co., Allen and Allen, John W. Small, John D. Adams, Antone Francis, Charles F. Williams, J. D. Hilliard Co., Inc., George W. Hudson, Clarence L. Burch & Son, John V. Morris, and John A. Francis, also at the Board of Trade and Post Office in said Town, seven days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting as aforesaid.

Given under our hands this sixteenth day of April in the year of our Lord one thousand nine hundred and twenty-five.

JOHN R. MANTA,
FRANK H. BARNETT,
JESSE D. ROGERS,

Selectmen of Provincetown.

A true copy. Attest:

IRVING L. ROSENTHAL,

Constable.

Provincetown, April 18, 1925.

Barnstable, ss.

In pursuance of the within precept, I have notified and warned the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs, to meet at the Town Hall at the time and place and for the purpose herein named by posting up attested copies thereof at each of the following places: Stores

of William Tarvis, Joseph Perry, Joseph Correiro, George Rogers, B. H. Dyer & Co., Allen & Allen, John W. Small, John D. Adams, Antone Francis, Charles F. Williams, J. D. Hilliard Co., Inc., George W. Hudson, Clarence L. Burch & Son, John V. Morris, and John A. Francis, also at the Board of Trade and Post Office, in said town seven days at least before the time of holding said meeting.

IRVING L. ROSENTHAL,

Constable of Provincetown.

Attest: GEORGE S. CHAPMAN, Town Clerk.

In pursuance of the foregoing Warrant the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs met at the Town Hall on Monday, the twenty-seventh day of April, 1925, at 7:30 o'clock in the afternoon, and were called to order by George S. Chapman, Town Clerk.

Article One: To choose a Moderator to preside at said meeting. George F. Miller was chosen Moderator.

Article Two. To hear the reports of Committees and act fully thereon. The Committee on the World War Memorial made the following report:

To the citizens of the Town of Provincetown.

Your committee appointed at the Annual Town Meeting held in February 1925, to consider the advisability of erecting a memorial to commemorate the services of the soldiers, sailors and marines, who served the country in the World War submit the following report for your consideration:—

It is the unanimous opinion of your committee that the Town in recognition of the service rendered by its citizens who served the country in the World War, should make a public declaration of the kindly regard and grateful appreciation of that service and this can best be expressed by the erection of a permanent memorial.

At the present time your committee have designs and estimates for a memorial in the form of an ornamental Memorial Arch, to be placed at the entrance of the Town Hall near the sidewalk. Your committee estimate that it will cost approximately \$3000.00 to erect a memorial of this nature and feel that this is a very modest sum for this object.

We recommend that the sum of \$3000.00 be raised and appropriated for this purpose, \$1888.07 to be appropriated from the war bonus surplus returned to the Town, and the balance, namely \$1111.93 be raised and appropriated by taxation or from any other money that has been previously appropriated for this purpose.

We further recommend that a committee of five (5) be appointed and authorized to erect a memorial of such material and design as they may consider appropriate.

Respectfully submitted,

CHARLES N. ROGERS,
JAMES F. BRENNAN,
WILLIAM W. TAYLOR,
CLARENCE P. CURLEY,
JOHN ADAMS,

Committee.

It was moved and carried that the sum of \$3000.00, be appropriated for the World War Memorial; \$1888.07 to be appropriated from the War Bonus Surplus Fund, and the balance \$1111.93, be raised and appropriated by taxation or from any other money that has been previously appropriated.

The same Committee was re-appointed to act on this matter of procuring a suitable memorial.

The Committee appointed to consider the matter of Motorizing the Fire Department, made the following report:
To the citizens of Provincetown:

The Committee appointed at the regular town meeting to consider the matter of motorizing the fire department, present the following report:

Realizing that the intent of the article in the warrant is to motorize the present apparatus and not to acquire any additional equipment, the Committee would recommend the purchase of two (2) Ford 1 ton trucks suitable for carrying hose, one for Hose Co. No. 1, and the other for Hose Co. No. 2. The purchase of a Ford Chassis for the Chemical No. 4 and the present Chemical body mounted thereon, and the purchase of a new Ford Chassis for the Hook and Ladder Truck and that the new body be purchased from the Company and mounted on the new Chassis.

To comply with the law, each of the houses containing a motor must be provided with a cement floor. It will also be necessary to install a heater in the Chemical house.

The committee would recommend that \$4500.00 be appropriated to carry this motorization into effect.

Respectfully submitted,

FRANK A. DAYS, Jr.
J. H. BARNETT,
T. J. LEWIS,
L. M. SNOW,

Chairmen.

It was moved and carried by a vote of 30 Yes, 12 No, that the sum of \$4500.00 be appropriated to motorize the Fire Department, and carry out the Committee's recommendations.

The same Committee was re-appointed to act on this matter.

The Committee on re-surfacing Commercial Street, was not prepared to make any recommendations or report on this matter at this time, and requested further time, and to report at the next town meeting.

It was moved and carried that this Committee be granted further time.

The Committee appointed relative to the observance of June 14, 1927 the two hundredth anniversary of the incorporation of the town, wished for further time, and to file their report at the Annual Town Meeting in February 1927.

It was moved and carried that this same Committee continue to serve and also to enlarge this Committee as they deemed necessary to act on the observance of June 14, 1927, and report at the Annual Town Meeting in February, 1927.

Article Three. To see if the Town will raise and appropriate the sum of three hundred and fifty dollars, in addition to the amount appropriated at the annual meeting, for the purpose of extending the Water main on Court Street.

It was moved and carried that the town raise and appropriate the sum of \$350.00, for extending the Water main on Court Street, in addition to appropriation made at the Annual Town Meeting.

Article Four. To see if the Town will vote to build a Wooden Bulkhead and Fence, on the premises of Smith House, and appropriate the sum of one hundred and fifty dollars for the same.

Moved that the sum of \$150.00, be appropriated to build a Fence and Wooden Bulkhead, on the premises of the Smith House.

Motion carried.

The meeting was then dissolved.

GEORGE S. CHAPMAN, Town Clerk.

SPECIAL TOWN MEETING

Commonwealth of Massachusetts

Barnstable, ss. To either of the Constables of the Town of Provincetown in the County of Barnstable, GREETING:

IN THE NAME OF THE COMMONWEALTH OF MASSACHUSETTS, you are hereby directed to notify and

Article Second. To see if the Town will raise and appropriate a sum of money sufficient to defray the current expenses of the School Department for the remainder of the year ending December 31, 1925.

The Finance Committee made the following motion:

To the Voters of the Town of Provincetown.

Your Finance Committee have been advised by the School Committee that the amount appropriated for Schools, has been practically all expended, and that they will require \$5,000. additional appropriation to finish the fiscal year.

As the Town is obliged to pay all necessary expenses contracted for its Schools, your Committee recommends that \$5,000. be raised and appropriated for this purpose.

Respectfully submitted

Town Clerk.

Report of Finance Committee

TO THE TAXPAYERS OF PROVINCETOWN :

Your Finance Committee has taken up and examined the various matters for which it was appointed and submits its report as follows :

In the list covering the "amounts asked for," the "amounts appropriated last year" and the amounts "recommended by the Finance Committee" it will be noticed that in some cases there were no appropriations last year and there are also other differences in the figures. This is particularly noticeable in items No. 1, 2, 3, 4, 5, 9, 13, 15, 19, 25, 29, 30, 39.

The reason for these differences is because of the new system of accounting with its new classifications or names for the accounts and is also due to the fact that many expenditures have heretofore been cared for from the so-called "Miscellaneous" account. Again it has been the custom to appropriate sums for an account "plus fees" or some particular form of income.

To comply with the law of the State and with the new accounting system, specific sums must be appropriated. All income from fees, licenses, rents, etc. will be placed in a "Miscellaneous Receipts" account and then used to reduce the amount it is necessary to raise in taxes to meet the total amount appropriated by this meeting and to meet State and County taxes, etc.

This change has made the work of your Committee particularly hard this year and in the figures submitted it has not always been possible to give figures that are comparable with those furnished under the old system.

Subject to the above explanation the following is a comparative statement of appropriations voted in 1924; requested for 1925 by the various departments, and recommended by your Committee:

In further explanation of the above appropriations recommended the Committee wishes to say:

No. 3 & 4. Salary of Town Clerk and Treasurer. While the Committee does not feel that it is its duty to suggest salaries or increases in salaries, yet in view of the totally inadequate sums paid the present Clerk and Treasurer and the increased duties imposed by the new system of Town accounts, it feels that an exception to this rule is advisable. The Committee has therefore recommended a salary of \$600.00 for the Clerk and \$600.00 for the Treasurer. As both offices are held by the same man this will in effect provide a salary of \$100.00 per month.

No. 5. The Assessors have asked for \$3192. for salaries, or \$3.50 per day per assessor for each working day of the

year. The Committee feels as stated in the previous item that it is not its duty to recommend salary increases and has therefore recommended the same salaries as last year, being \$40.00 per month per assessor, this not to be in addition to but instead of any per diem or other payment.

No. 8. The sum of \$300. has been asked for by the Assessors for legal expense in a suit pending in Court and the Committee has recommended the appropriation of this sum.

No. 11. There is recommended in the item of Police Protection an increase of \$1,000. over last year. This is to care for an increase in the salary of the Chief, over that of his predecessor and to provide for one patrolman for 12 months and one patrolman for 6 months and for other necessary expenses of department.

No. 12. There is an increase in the appropriation recommended for the Fire Department of \$700. This is made up of \$500. for new hose and \$200. for painting fire houses.

No. 15. The sum of \$5.00 is recommended for salary of Tree Warden. This is done in order to comply with the laws requiring an appropriation if any salary is to be paid.

No. 16. Board of Health—last year the Board of Health did not need or spend the amount it asked for and your Committee has therefore reduced the amount recommended. In case of need the Board has power to obtain money by transfer or otherwise.

No. 17. No recommendation is made for Rubbish Disposal. Last year \$1,000. was appropriated. The Committee feels that this collection may be eliminated as there was much objection to the manner of handling this work.

No. 20. The increase of \$280. in the item of Highways, Administration, is recommended as the Committee feels that a suitable superintendent will not be obtainable for less than \$100.00 per month.

No. 23. A small increase in appropriation for Street Lights is due to additional lights.

No. 27. The appropriation for Alms House was exceeded last year. The Committee therefore recommends a slight increase, \$200. this year.

No. 31. The appropriation recommended for Soldiers' Relief is substantially increased. The expenditures under this item are controlled by State Law and this Town is required to make the payments called for.

No. 32. For Maintenance of Schools, the School Committee requested an appropriation of \$49,700. The Finance Committee, after careful consideration, recommends an appropriation of \$43,500. The difference is mainly caused by an increase in salaries asked for, which, as stated before in this report, the Committee feels is not part of its duty as a general rule. Of the 1924 appropriations \$1828.23 remained unexpended at the end of the year. The Committee feels that a savings could also be made in the matter of Truro scholars which is covered later in this report.

No. 33. In the amount of fire insurance carried on your school buildings the Finance Committee feels that you are assuming entirely too much liability and has therefore recommended that the appropriation be increased from \$400.00 to \$800.00.

No. 34. The Committee has recommended an appropriation of \$1200. for the Library with all fees from dog taxes and visitors' fund to be paid into the Town Treasury. This is in order that a specific amount may be designated to comply with the law or the spirit of it and to make uniformity and to make transaction of the Town's business. The Trustees of the Library have requested an appropriation of \$800. with the dog tax and the visitors' fund. These amounted in round numbers to \$1200. last year and is the amount recommended above.

No. 41 & 42. Your Committee feels that \$500. expended under the direction of the Cemetery Commissioners should be

sufficient to care for both cemeteries and veterans' graves as the total amount expended for both last year was only \$469.57.

ARTICLES IN THE WARRANT

On the Articles in the Warrant your Committee reports as follows on those of which it is its duty to make recommendations and not already taken up:

Article No. 8. Your Committee does not recommend reimbursing Rescue Hook and Ladder Co. \$700. for its expense in motorizing its apparatus. Our reason is that the chassis used is doubly second-hand and in our opinion should not have been used. Your Committee visited the Truck House and was unable to start the motor and members of the Company were also unable to start the engine. It was later towed to a garage for examination, which at this writing is not yet completed.

Your Committee recommends that if Rescue Hook & Ladder Company will mount the body of the truck on a new chassis, that the Town purchase such new chassis, appropriating \$425. for such chassis and the painting thereof and if this is done that the Town reimburse Rescue Hook & Ladder Company and appropriate therefor the sum of \$452.29, being its expenditure on the body as per statement filed with the Committee.

Article No. 9. Recommended.

Article No. 10. Recommended.

Article No. 11. Recommended, as these claims have been pending for several years and should be paid.

Article No. 13. The Committee recommends that a Committee of six be appointed by the Moderator, three of whom shall be the Selectmen, to consider this matter and report by or before March 15, at which time a special Town Meeting be called to take definite action, the Committee to ascertain if the State will assist the Town financially and otherwise in this work.

Article No. 14. Recommended.

Article No. 15. The Committee recommends that such a Committee be appointed and that \$100. be appropriated for its expenses.

Article No. 16. Your Committee recommends that such a light be erected and that the sum of \$25.00 be raised and appropriated for same.

Article No. 17. The Committee recommends that a Committee of three be appointed by the Moderator to consider this matter and report to the special Town Meeting above mentioned.

Article No. 18. Not recommended as requested, as this would light only two properties. Your Committee would recommend, however, that a light be erected at the corner of the properties of Frank N. Atwood and Mrs. Heman N. Smith, at which point it would light all of the avenue not already lighted, and that the sum of \$25.00 be raised and appropriated for same.

Article No. 20. The Committee is in sympathy with this proposal but does not feel that any appropriation should be made so far in advance.

Article No. 21. Not recommended.

Article No. 22. Not recommended.

Article No. 23. Your Committee feels that this step should be taken and recommends that a committee of three be appointed by the Moderator to consider the matter and report at the special Town Meeting suggested heretofore.

In addition to the various items of appropriations covered above, your Committee submits the following matters for your consideration:

First: For several years past students from the town of Truro have been received at the High School for instruction on the same basis as Provincetown students. For this service the Town of Truro pays the Town of Provincetown. The amount paid last year was \$1976.50. The attendance has increased from time to time until at present there are about thirty Truro students being taught in the Provincetown High School.

In the opinion of your Finance Committee and in the opinion of the School Committee of your Town this arrangement is undesirable and should be abandoned. If this is done it will not be necessary to maintain the present two session system forced on the High School by the crowded condition. The teaching staff may be reduced by at least one teacher. Incidental expenses will be reduced. The Committee feels also that if the action outlined below is not taken that it will only be a short time before a new High School building will be required.

Afer careful consideration your Finance Committee recommends the adoption of the following motion:

That the School Committee is hereby directed to notify the proper and necessary persons or officials of the Town of Truro (and elsewhere if required) that from and after the end of the present school year that the Provincetown High School will no longer receive students who are not residents of Provincetown.

That the School Committee is hereby directed not to receive students from other towns as indicated above.

Second: That hereafter no Town Auditor shall be elected as proper auditing will be done by the State.

Third: That hereafter caring for Veterans' graves shall be done under the direction of the Cemetery Commissioners.

Fourth: To correct a possible wrong impression which has prevailed so that in some cases interest has been paid by the Town on accounts deposited in the Cemetery Trust Funds the Finance Committee recommends the adoption of the following motion:

That sums made over to the Town for the care of cemetery lots be placed at interest and this interest used only for the care of the particular lots for which it is deposited. All legal provisions and rules to apply to said funds and the interest thereof.

Fifth: The Committee calls your attention to what it considers may be an unnecessary expense for telephone service. In

some cases each member of a Department or Board is listed in the telephone directory under "Town of Provincetown." It would seem to your Committee that in most cases only one telephone is necessary for each department except for the Water Department where it is imperative that the Superintendent and the Pumping Station may be called at any time.

All of which is respectfully submitted.

FIRE ALARM

The Town has been divided into three Fire Districts:

First: From West End to Court Street.

Second: From Court Street to Johnson Street.

Third: From Johnson Street to East End.

The Fire Alarm whistles will blow the regular fire alarm of four blasts followed by one for the first district, two for the second district and three for the third district.

HOUSES

During the year the house of No. 1 has been painted, the houses of Nos. 1, 2 and 4 and the Hook and Ladder House have had cement floors. The houses will need painting in the near future.

Apparatus

We try to keep the apparatus in good condition and ready for use. At present it consists of the following: One Steam Fire Engine, one Auto Combination Truck, one Auto Double Tank Chemical Truck, one Auto Ladder Truck, two Auto Hose Trucks, one Hose Wagon, and three Hose Reels, also two Hand Engines in reserve.

HOSE

We have now on hand 8,850 feet of two and one half inch cotton rubber lined hose, 1,700 feet of which is comparatively new, 6,150 feet is good but 1,000 feet of it is very poor.

Report of School Committee

FOR YEAR ENDING DEC. 31, 1925

To the Citizens of Provincetown, the School Committee
submit the following report:

First, we wish to make mention of the fine feeling of
co-operation that has existed throughout our schools dur-
ing the entire year. Superintendent, teachers, and commit-
tee have worked together in harmony, with the result—
good work on the part of all. In this way a high standard
has been reached.

The lack of a gymnasium in our schools has for many
years been deplored, but though handicapped in this re-
spect, outdoor sports are not neglected. The Principal of
the High School has given his time willingly to these
activities. The result has been very gratifying and our
boys have played their many and various games in a manly
fashion, which could not help but call forth praise from all
interested citizens of our town.

Through lack of funds the Evening School has been
closed. The closing of this school is to be keenly regretted
as it was composed of a body of citizens eager to learn
what earlier deprivations had denied them. After a fair
trial, it was thought best to close the Retarded School.
By placing these pupils in the respective schools of our
town, teachers are giving them special and individual in-
struction.

During the School Year the committee has made a per-
sonal inspection of every school building, and although
finding each and every one well cared for by janitors and

teachers, we could not fail to notice the extensive repairs needed in some of the buildings.

It would be a matter of economy to reshingle the Western and Center Buildings, as they are sadly in need of it. The ceilings in the upper rooms are discolored and defaced by the wettings of many rains. The cupola of the Gov. Bradford School needs to be rebuilt, or else entirely removed from the building and some of the slate shingles should be reset, for at present writing, they are a danger and a menace to children playing on the School Grounds.

The School Committee recommend new and up-to-date text books in all the rooms and buildings. At the present time there is a lack of books, in some instances not enough to supply the entire class, and many of these are soiled and worn.

Summing up the year's work, we know the teachers have been faithful and competent, our school system good, the appropriation carefully and advantageously spent, and there is reason to be proud of the work and advancement made in the Schools of our town.

F. A. DEWAGER,
Chairman.

Report of Superintendent of Schools

FOR YEAR ENDING DEC. 31, 1925

To the School Committee and Citizens of Provincetown:

I submit herewith my fifth annual report regarding the schools of Provincetown including the reports of the Principal of the High School, the Music Supervisor, Attendance Officer and the School Physician and Nurse.

TEACHERS

The usual changes in the teaching force took place when schools opened in September, 1925. Mr. Ralieg B. Bubar, Principal of the High School, resigned to accept a position at Holden, Mass. After three years of hard work and faithful service in all phases of secondary school problems, Mr. Bubar decided to leave us. His resignation was regretted by all. Mr. Webster Hall is filling this position very acceptably. Entering the work here last September, Mr. Hall has proven himself a young man of fine educational and athletic value to the school. With a sound educational preparation and six years experience in public school problems Mr. Hall is an asset to the town. The Commercial Department vacancy, caused by the resignation of Miss Marion Hunt to accept a better position, was filled by Miss Eva Huntress. Miss Elizabeth Colley took the place of Miss Viola Hobson, who resigned last April because of illness, and is creditably conducting classes in English and History. The High School pupils and the town in general appreciate the loyalty of the teachers in the High School who have remained for the second year. Only

two new teachers were engaged for the High School this school year.

Miss Sara A. Cavanagh, Principal of the Grammar School for many years—in fact one who has given her whole career to Provincetown as a teacher—resigned her position last June. It is impossible for me to find words fittingly appropriate in commendation and praise for this public servant. After so many years of notably faithful and efficient service Miss Cavanagh seeks rest most highly deserved.

The resignation of Miss Carrie A. Cowing, Principal of the Western School, coming at the same time as Miss Cavanagh's means a double loss to the schools and of the same nature in every respect.

Miss Katherine I. MacIntyre was appointed Principal of the Grammar School. Miss Katherine B. Jason takes the principalship of the Western School. Mrs. Mary A. O'Neil was transferred from the Special Room (closed) to the seventh grade at the Grammar School. The Misses Williams and Kelly are now first and second assistants in the Grammar School respectively. Miss Annabelle MacQuarrie was elected sixth grade teacher at the Conant Street School. Miss Angie Prada was elected School Nurse in place of Miss Edith Holmes—resigned.

SCHOOL PROGRESS

Pupils entering the first grade at the regular age should, under normal conditions, graduate from Grammar School at the age of thirteen years and six months and from the High School at the age of seventeen years and six months. It is pleasing to note that the schools of Provincetown are becoming standardized in age and grade efficiency. A steady, normal progression of pupils is now taking place

in these schools, from grade to grade, as may be noted by people interested enough to visit the schools.

Certain chronic handicaps exist in our schools and will exist for some time to come. There is a "static" condition that hampers and affects and does not tend to eliminate the vital and fundamental defects now present in our system. The constant change of teachers in the High School, lack of proper text books, the lack of concrete hand training and, at least partial study of the natural phenomena in all schools, the out-of-date school plant as a whole, lack of a Physical Director and Gymnasium for the youth of the town enrolled in the schools, are some of the "static" influences tending to retard proper progression of the system. Some influences have been removed recently but many still abide.

The quality of instruction in grades and High School is of a high order and is steadily improving. Especially in the High School is this true as evidenced by the increased interest and co-operation by teacher and pupil. I think it is not saying too much when I state that the school population of Provincetown now "like" to attend the sessions of the public school. All schools have a "pleasang atmosphere." It may be wise, however, to study the words of a prominent educator.

Dr. Nicholas Murray Butler, of Columbia University, speaking on modern education is worth quoting. A few of his sentences follow:

The present-day mocking appeal to an *infant* that he give expression to himself, represents the abdication of education. This appeal might just as well be directed to a physical vacuum."

"The state of good manners, which are the instinctive mark of good breeding and sound discipline, may be observed and estimated in any public place."

"Views as to all sorts of things have displaced accurate knowledge of fundamental things. If these be hard words, let him who so thinks, look about him."

It is generally known that co-operative effort by all concerned, is necessary for the successful outcome of any community or national project. The problems of the day, in school and out of school, seem to be the proper mental, moral and religious education of the youth of the world. Three problems to be solved, therefore, are morality, health, and education. Perhaps this is what Dr. Butler criticizes in the above sentences—that the public school cannot "fill the bill" entirely. There is a limit to the "load" that any institution may carry and modern business must not expect the public school to function as an industrial plant. The true aim of public elementary and secondary education is to teach youth the fundamentals of a general education in preparation for later specialization in any field of endeavor.

THE HIGH SCHOOL

Owing to the large growth of the enrollment in the High School during the last four years the school board voted that the Truro pupils could not be members of the school after the close of the sessions last June. Although regretting this action it seemed absolutely necessary. The building cannot house nearly two hundred high school students and one hundred fifty-eight grammar school pupils. The High School enrollment at present, without the Truro group, is one hundred fifty-four, nearly double that of a few years ago. If the Truro group had attended the Provincetown High School at the opening of the building last September, one-half of the present grade eight of our grammar school would have been forced to attend only afternoon sessions, as the whole seventh grade is now doing. Such a condition is never desirable. The taking

of another room from the seventh and eighth grades for High School use would have severely disorganized the efficient conduction of these lower grades.

The High School organization regarding the number of pupils per teacher does not agree with the standardization required by the State Educational authorities. Another instructor is necessary in the school if we are to regain our past standing as a Standard A. High School. In order to conduct efficient departmental instruction another teacher is absolutely necessary for the good of the students now attending the courses and their future educational advancement. To-day the specialist in any line is most successful in particular work. This applies to educational matters. A teacher cannot instruct in several different subjects efficiently as in one in which she has suitable preparation and experience.

The athletic teams representing the High School are a credit to the coach and to the players. True sportsmanship is shown in victory or defeat. Several very strong teams were played in football, particularly, and the result was very gratifying. This winter basketball is to be played, after a lapse of several years. We wish to thank the Selectmen of the town for the use of the Town Hall afternoons for practice in this sport. The girls are playing basketball also and have made a creditable showing. There is no "break" in our school athletic program now. Healthy bodies make healthy minds and good, clean sports assist the aim of school authorities in great measure.

There is a pronounced improvement in the use of our language by High School folk as evidenced in theme and oral activity in the classroom, not only in the English groups, but in all courses. In Science and Mathematics a sound foundation is being laid and pupils are not so "bored" as is often the case in these subjects. Their preparation is

better in the lower grades. Pupils are equally showing much real interest in the Romance Languages and in History. These latter courses are excellently taught and well arranged.

A series of general high school subject tests given last winter, and to be repeated this school year, showed that our "Medians" were in nearly every subject above the national average. The tests included grades seven and eight of the lower school. The results in these two grades were far above the average standardized results for these pupils.

All national days have been celebrated by appropriate exercises. American Education Week in the High School was enjoyed by students and visitors, each day bringing new thoughts and ideas to all. One of the fine slogans of the week was, "Visit Your Schools To-day."

The social life of the school during the past year has been successful. Several fine public 'affairs' were given by the young people who showed considerable talent and fine coaching. The invitation dances of the Senior Class were delightful occasions.

A number of "talks" were given by townspeople and "outside" friends to the boys and girls and were appreciated and the advice and instruction noted.

Many of last year's Senior Class are now in higher institutions—over fifty per cent of this group. In my "follow-up" work I find that they are all "making good." Twenty-four pupils graduated last year.

THE ELEMENTARY GRADES

The year has been exceptionally free from "educational hitches" in the lower grades. Though sadly lacking some textbooks and other general school material, the teachers have been consistently faithful and school advancement has been steady and result-getting, as shown in the progress

of the ninth grade in the High School. The former Principal of the High School, Mr. Bubar, stated that each year this class (the class entering the High School) "showed improvement and a better foundation in elementary grade studies." My own observation bears witness to his assertion. The factors responsible for this improvement are undoubtedly the following: a concise Outline of Study, the Correlation of Subjects, flexible and informal teaching, fine co-operation of all school workers, adequate preparation of lessons on part of teachers, and the conscientious interest of the teacher in her children.

Many parents visited the grade buildings during American Education Week and listened to their children, in youthful efforts, tell what the Week stands for.

The Special Room for Retarded Children in the grades was not reopened in September because of financial difficulty. The pupils attending this room have been sent back to the regular grade rooms. Such a room is a necessity in any school system, not only for the special help given these retarded little ones but because these pupils when placed in a regular grade room are a serious detriment in every way to the advancement of the normal pupils. And since the room teacher, with a large group of children to instruct cannot specialize on any one or two children in individual help, these retarded pupils just "sit" or get into mischief. They are unfortunately—not true in every case, however—a source of continual trouble and annoyance to the teacher of any regular grade room.

A "Mother Craft" club for older girls is being organized and is in charge of the school nurse. A successful joint meeting of parents and children was held in October and helpful advice was given by the leaders of this project in the state. Nearly every child from grade four through the High School saw the film "Mother Craft." The courtesy of our friends and the owner of the theater is appreciated.

Last year the pupils in the High School building were privileged in hearing the famous explorer, Dr. Donald B. MacMillan talk for over an hour about his experience in the far North. The lecture at that time was not illustrated. In April the famous Provincetown son gave his great lecture, illustrated by moving pictures at the theater, to all school children in the town. An eventful day! School teachers, children, committee and superintendent, thank Dr. MacMillan for his generosity in this gift to us. He has not forgotten his boyhood days in the old town. Mrs. E. A. DeWager arranged matters and we appreciate the courtesy highly.

The Home Economics class under the leadership of Miss Erhart of the County Bureau assisted by interested older girls and women, has functioned in a creditable manner. Nutrition instruction is in charge of Miss Prada, School Nurse, who is carrying on the work so ably started two years ago by Miss Holmes. The resignation of Miss Holmes as School Nurse is deeply regretted by all.

Besides the regular examinations of school children during the past year by Dr. Cass, School Physician, under his direction a clinic for the detection of Thyroid Gland ailment was held in December at the High School. Grades eight through the twelfth, boys and girls, were examined by a State Specialist and very little evidence of Thyroid trouble was found.

We wish to thank the Helping Hand Society of the town and a generous friend who by financial aid have made it possible for the School Nurse to continue serving milk and Graham crackers at cost to the children in the grades. The value of this service to the little ones is appreciated by those in position to observe results. The milk is pasteurized, served in sanitary bottles and drunk through straws. Twenty-five cents a week is a small investment in this case, all things considered.

The health of the pupils in the schools of Provincetown is ably supervised by the School Physician and Nurse. During the last five years the duties of the School Physician have increased a hundredfold as have those of the nurse in small towns. The School Physician's job has become a steady routine affair instead of the haphazard supervision of years past. Both nurse and physician are daily serving the community in this very important activity.

A clinic for retarded grade pupils will be held under the direction of Dr. Green, Superintendent of Waverly State School, during April of 1926. The mental age and physical condition of these pupils will be investigated.

The Evening School classes were held as usual during the months of November through April of last school year. As is the case in nearly all such classes the attendance decreased as the months passed. The Ungraded Room at the close of the session had an average attendance of eighteen and the English Class for adults an average attendance of twelve. The Evening School was a highly successful project and it is to be regretted that insufficient funds forced the school committee to discontinue these schools this year.

BUILDINGS

Only minor repairs absolutely necessary for the health of children and teachers were made during the past summer vacation. The systematic program for making definite improvement of conditions now existing, in and about these school buildings, could not be carried on because of lack of money. Advancement has been retarded in this work.

With the exception of the Western and Center yards and part of the High and Eastern, every school area needs new fences. Roofs need immediate attention—the Gov. Bradford slate roof is a menace to the pupils attending the school.

The yards need hardening also. A raised walk or proper drainage of yards is necessary in several cases. The inside of most of the school rooms is in good condition for buildings as old and of the type as the ones in use. Some need outside painting. The Bradford School Building should be painted inside and out and needs extensive repairs in general.

What really is needed in Provincetown is a centralized school plant, housing all the pupils from the first through the last grade in the High School. During my four years service in the district I have often informally advocated the construction of a modern school plant but finding public opinion so much against such a project I have not formally pressed the matter. And knowing the financial condition of the community I have hesitated in advocating the above. Let me say in all frankness, however, that I believe the outlay of money on the present buildings, though possibly of present value in-so-far as the buildings are concerned, is in reality a waste of funds. However, these buildings must be kept in a safe and livable condition under the law. The matter is a question for the citizens of the town to decide.

SUGGESTIONS

The suggestions, or recommendations to be made at this time are as follows:

1. The procuring of another High School instructor for proper organization of the high school curriculum and to conform with State requirements for Standard A high schools. Service to begin at once.
2. The reopening of the Special Room for retarded grade pupils.

3. The reopening of Evening Schools.
4. A separate appropriation for the purchase of text books for the grades.
5. Serious consideration for the construction of a centralized modern school plant to house all the public school pupils of the town.
6. Construction of an ordinary building to be used as a gymnasium by school pupils where basketball, etc., may be played. In my opinion this building could be made self-supporting and could be used as a community center. This would improve the present school plant.

As in former years the citizens have supported the high school in athletics by generous gifts of money and in transporting the various teams in private cars. Without this help the school sports would be seriously hindered. These men are thanked sincerely by students and teachers.

All teachers and other school workers have co-operated splendidly in my supervision of the schools. This is appreciated.

The School Committee has done all in its power to co-operate and advise me in my work. I thank them and the citizens of the town for their attitude towards me.

Respectfully submitted,

JEROME P. FOGWELL,
Superintendent of Schools.

Report of Principal of High School

Mr. Jerome P. Fogwell
Superintendent of Schools
Provincetown, Massachusetts

Dear Sir:

I am pleased to submit my report as Principal of the Provincetown High School.

I wish, first of all, to express my appreciation of the splendid, efficient support given me by the members of the school faculty. The school was completely organized on my arrival this fall and everything ready for the opening bell. The citizens of Provincetown are indeed fortunate to have an educational system so splendidly organized and so ably supervised. A further sample of the stability and efficiency of the organization is seen in the ease with which Miss Hamilton could take up the work in the English Department during the enforced absence of Mrs. Foss.

The work of the teachers, both intra and extra-curricular, is highly integrated, leading to a very efficient, well-balanced system.

Miss Freeman has charge of records and office detail in addition to her classes; Mrs. Foss, aided by Miss Colley, supervises drama and all extra-curricular activities of that sort; Miss Curtis has had charge of girl's athletics; and Miss Huntress as senior advisor, supervises the activities of the seniors.

I wish to express to you, sir, my thanks for having provided such an efficient corps of teachers, and to the town, my congratulations on having such a group serving them in their public schools.

This is my sixth year in school work and I assure you I have never had a janitor who kept the rooms, office and corridors so clean as Mr. Nickerson. His lawn at the high school is easily the best on the Cape. He is ever ready to do anything that will help in any way and does his work in a thoroughly efficient manner.

The school has in preparation Arthur Pinero's famous play "The Magistrate" which we hope to produce soon after Christmas. We are deeply indebted to Mr. Green, who from the wealth of his experience is giving so generously of his time and energy, to make the production a success. We also plan to produce Gilbert and Sullivan's well known opera "H. M. S. Pinafore" in the spring, if time will permit.

The school will be represented by a basket ball team this fall for the first time in years and I wish to include here a copy of the league schedule.

January 9—Wellfleet at Wellfleet
 January 22—Orleans at Provincetown
 January 29—Harwich at Provincetown
 February 12—Orleans at Orleans
 February 19—Wellfleet at Provincetown
 February 26—Harwich at Harwich

Academically, the school still holds the certification privilege from the New England College Examination Board, which permits our graduates to enter certain colleges and universities on the recommendation of the Principal.

I wish to express my sincere appreciation to the many citizens of Provincetown who have shown by their assistance in so many ways and their gifts, their interest in the schools.

Respectfully submitted,

WEBSTER HALL

Report of Music Supervisor

Provincetown, Mass., Dec. 10, 1925

Mr. Jerome P. Fogwell, Superintendent of Schools,
Provincetown, Mass.

Dear Sir:

At your request I herewith submit my first annual report concerning the Music Department of the Provincetown Public Schools.

The pupils of the Provincetown Schools show much interest in the study of music and the grade teachers, as a whole, are doing most excellent work.

As a result of voice tests given in September it was found that 98% of the 657 pupils above the first grade sing tunefully in chorus.

A large majority of the first grade pupils do not sing on entering school, and are taught to sing during the year.

Unless a child has a defective throat or hearing, he usually learns to sing with others by the end of the third year. In the first grade much attention is given to rhythm work with the phonograph; as rhythm is, in reality, melody for the mind.

The work of the grades has been handicapped by lack of up-to-date music books. The Progressive System of Music has been introduced into the lower grades, and will be continued in the upper grades when proper material can be procured.

The pupils of the eighth grade are working on an operetta, "Polished Pebbles" by Carrington which they plan to give during the winter term.

The High School is well supplied with Parson's High School Song Book; the Senior-Junior division of the chorus is practicing Gilbert and Sullivan's Comic Opera "Pinafore."

A Girls' Glee Club was organized in March, and this year has nineteen members, they have sung at several school affairs, and are now working on a program of Christmas Carols.

A course of Music Appreciation should be introduced in both the grades and the High School.

The mere ability to read music no more insures a real love of good music than the ability to read our language insures a love for English Literature. The cultivation of a fine sensitiveness to good music involves more than a love for beautiful sounds.

Music is tonal discourse and to follow it one must understand its form, proportion, history and the characteristics of its composers, only until these are understood can our pupils become intelligent lovers of good music.

In closing I wish to thank the School Committee, Superintendent of Schools, and teachers for the hearty co-operation they have given me.

Very respectfully,

(Miss) ETHEL LOVLEY,
Supervisor of Music.

Report of School Physician and School Nurse

Mr. Jerome P. Fogwell, Superintendent of Schools,
Provincetown, Mass.

Dear Sir:

We wish to submit the fourth annual report of the School Physician and the School Nurse.

Follow up work, school visits, hygiene talks, nutrition work and cases of child neglectare carried out by the school nurse under the direction of the school physician.

Milk and Graham crackers were again put into the schools, after being taken away last Spring, without expense to the school committee. This milk and crackers is of great benefit to the school children when we find one-fifth of them to be from seven per cent to fifteen per cent under weight at present.

In a few of the school rooms underweight and under-nourished children drink milk twice daily. This is affected with the good co-operation of teachers in nutrition work. We see marked improvement because of this activity and children learn the importance of personal good health.

Fortnightly inspections of all pupils are carried out and during epidemics children are inspected every other day. When occasion demands daily inspections are made to prevent the possible spread of disease.

Oral hygiene work and talks along this line are needed in our schools when it is ascertained that one-half of the

elementary school children have dental defects. Tooth brushes were purchased by all pupils who were in need of a tooth brush at a cost of five cents each.

New health posters, games, songs and plays, have been put in our schools from the first to the seventh grade. Songs and plays were sung and presented in the schools during Educational Week.

When school opened in September we had one hundred sixty-two cases of pediculosis. This number is very small now due to the use of Derbac soap and combs. These may now be obtained at the local pharmacies. Exclusions for pediculosis are very few at present.

The school inspection this year showed the following:

Defective teeth	363 cases
Defective tonsils	169 cases
Adenoids	68 cases
Enlarged glands	87 cases
Defective hearts	8 cases
Defective skin conditions	16 cases

At the request of Doctor Bigelow of the State Department of Health each member of the High School was examined for Goitre. Later Doctor Olsen, who has covered nearly every state of the United States in his quest of Goitre localities, came down with Doctor MacKnight of the State Health Department and checked up each pupil. At the conclusion of his examination Doctor Olsen remarked that we were more free from Thyroid Enlargement than any other school he had visited.

This fact may be due to the intake of Iodine thru the eating of fish. It is a known truth that Iodine comes from Sea Weed and fish contains four hundred times more Iodine than meat. Iodine is the Goitre preventive when taken in small doses.

The following visits were made by the School Nurse:

Number of room visits	610
Number of home visits	300
Children brought to Doctor	2
Treatments in school	67
Children brought to Dentist	4
Children referred to S. P. C. C.	5
Pediculosis inspections	1854
Tuberculosis visits	8

The following were excluded for contagion:

For Impitigo	102
Chicken Pox	4
Pediculosis	162
Sore throat-temperature	43
Number of Hygiene talks in schools	61
Number of Hygiene talks in homes	9

Respectfully submitted,

FRANK O. CASS, M. D.,
School Physician.

ANGIE C. PRADA,
School Nurse.

Report of Attendance Officer

Mr. Jerome P. Fogwell, Superintendent of Schools,
Provincetown, Mass.

Dear Sir:

I wish to submit my second annual report as Attendance Officer for the schools of this town for the school year 1925.

Number of Investigations	178
Number of Truants Returned	63
Number of Truants Not Returned	4
Number of Cases no shoes nor clothes	39
Cases with other good reasons for absence	25
Cases out of town	2
Absent on account of sickness	41
Cases leaving school	1
Total	175

Respectfully submitted,

RAUL MATTA,
Attendance Officer.

	CLASS SONG	
	Tune: How Can I Leave Thee?	
	Classmates we gather	
	To leave our friends so dear,	
	Thru storm and pleasant days	
	They've been sincere	
	New life awaits us	
	In the forth coming years,	
	The skies are bright o'er us	
	Undimmed by tears.	

But we must onward start
 On life's stern doubtful way,
 We'll try to do our part
 As best we may
 Pathways will not be clear
 And we may have to fight
 But we will work with cheer
 And do what's right.

Good-bye, dear classmates
 We're parting here to-night
 The future holds our fate
 Which we must fight,
 May we e'er cherish
 These happy days gone past,
 Ne'er let them perish
 Until the last.
