The Moderator appointed the following Committee on Article 22: Frank A. Days, Jr., Thomas J. Lopes, Jesse D. Rogers, Charles F. Williams, William W. Taylor.

Article 23. To act upon the reports and recommenda-

tions of town officers and committees.

It was moved and carried to accept the reports of the Town Officers.

To the Citizens of the Town of Provincetown:

Your Committee to whom was referred the acquiring and grading of land suitable for an Athletic Field submit the following report.

Being unable to acquire and grade the land north of Town Hill, without the expenditure of a very large amount of money, your Committee have gone to the next piece of land, which, in our estimation, is the only one suitable, namely, Evans Field.

Your Committee realize that it would be almost impossible to acquire this land, but feel that with a small amount of money, this field could be put in good shape.

A small portable metal building could be erected suitable for a dressing room. A portion of the field could be covered with loam, and a baseball diamond laid out.

Therefore your committee would recommend that an appropriation of \$1,300.00 be made for the improvement of Evans Field, and \$200.00 for improvement on the road leading to the field.

Respectfully,  
SIVERT J. BENSON  
FRANK A. DAYS, JR.  
HORACE S. WATSON.

Moved that the town vote to transfer \$1,500.00 from the Surplus Revenue to improve Evans Field and the road leading to the field, and that same Committee continue to serve; also that money be expended under their direction. Motion carried.

On motion meeting was then dissolved at 8:32 P.M.

GEORGE S. CHAPMAN,  
Town Clerk.

## Note:

Item of \$100 for increase of Clerk's salary by the School Committee is not approved. Item of \$2050 for new desks at the Western School is not approved. It is recommended that this item be referred back to the School Committee and that they be requested to ascertain the cost of resurfacing and refinishing enough desks to equip the school from those now in use there and from the surplus desks now stored in the Bradford School and report their findings to the Finance Committee at least three days before the closing of the Warrant for the next special town meeting. It is believed by the Finance Committee that about \$1400 can be saved by making use of desks now in storage.

Selectmen of Provincetown.

A true copy, Attest:

IRVING L. ROSENTHAL  
Constable of Town of Provincetown

Commonwealth of Massachusetts

Barnstable, ss.

March 29, 1930

In pursuance of the within precept I have this day notified and warned the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs to meet at the Town Hall at the time and place and for the purpose herein named by posting up attested copies thereof at each of the following places: Stores of Marion Perry, George Rogers, Joseph Amber, B. H. Dyer & Co., Jackson Cabral, Allen & Allen, Albert Enos, Joseph Marshall, John D. Adams, Antone Francis, Charles F. Williams, J. D. Hilliard Co., Clarence Burch, John A. Francis, Board of Trade and Post Office in said Town, seven days at least before the time of holding said meeting.

IRVING L. ROSENTHAL,  
Constable of the Town of Provincetown

Attest:

GEORGE S. CHAPMAN, Town Clerk.

In pursuance of the foregoing Warrant the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs met at the Town Hall on Monday the seventh day of April 1930, and were called to order at 7:30 o'clock in the evening by George S. Chapman, Town Clerk.

Article 1. To choose a Moderator to preside at said meeting.

Walter Welsh was chosen Moderator.

Article 2. To hear the reports of Committees and act fully thereon.

To the Citizens of the Town of Provincetown:

Your committee to whom was referred Article 16, at the last Annual Town Meeting, in regards to the erection of a comfort station, recommend that no action be taken at the present time.

WILLIAM F. SILVA  
SIVERT J. BENSON  
FRED H. DEARBORN  
HORACE S. WATSON.

It was moved by Mr. Benson that committee's report be accepted and committee discharged. Motion carried.

#### Report of Committee on New School Building

Shortly after the Annual Meeting your committee met to consider the report of Mr. Burr Jones as printed in the town report. After giving this report careful thought it was voted to recommend its acceptance and lay the same upon the table.

On March 28th, the committee again met. It was voted to reconsider the former vote and recommend the erection of a new building. Whether this will be a senior or junior-senior is for the citizens to decide. This committee has had several plans and sketches presented by different architects and the following is a summary of what we have learned.

The buildings vary in size from 120 ft. x 66 ft. for a senior to 170 ft. x 88 ft. for a junior-senior high school.

Some architects recommend a combination auditorium and gymnasium, while others say they should be separate rooms. They all, however, recommend an auditorium or assembly hall. The estimated cost of these buildings vary with the size and architect.

Senior high school costs vary from \$90,000.00 to \$140,000.00 and junior-senior high from \$150,000.00 to \$200,000.00. These figures are for the buildings fully equipped.

The committee recommend that there be a committee of seven appointed enabling the town to borrow beyond the debt limit, to select plans to present at a future meeting for the approval of the citizens at which time they will be given authority to proceed with the construction of the new building. This committee recommends that the cost of the building be limited to \$150,000.00.

It is further recommended that there be the sum of \$500.00 appropriated for the use of the building committee.

Respectfully submitted,

#### Report of Finance Committee

To the Citizens of Provincetown:

At a meeting of your Finance Committee, held on the above date, the following recommendations were adopted, covering the various articles in the warrant for the Special Town Meeting to be held on April 7th.

Article 3. Not recommended.

Article 4. Recommended that the town take action to purchase a pumper and appropriate money for the same.

Article 5. Recommended that the committee be appointed and investigation made.

Article 6. Recommended

Article 7. Recommended

Article 8. It was the unanimous opinion of the members present at the meeting that \$250,000 was a very high figure. The majority of the members present felt that a building suitable for our needs could be built for \$125,000. The minority favored \$150,000 as the limit. The Committee, therefore, by a majority vote, recommended that the sum of \$125,000 be appropriated for a new high school.

Respectfully submitted,

E. D. CROWELL, Chairman

Finance Committee.

Moved that the Finance Committee's report be accepted and considered as each article is taken up.

Moved that report of Committee on New School be accepted.

Moved that School Committee's report be laid on the table and taken up in conjunction with Article 8.

Motions carried.

Moved that the town raise and appropriate the sum of \$800.00 for an Old Home Week Celebration in conjunction with the Massachusetts Bay Tercentenary Celebration of 1930. Motion carried.

An oral report of the Committee on Rubbish and Garbage was given by Mr. Cook, outlining their work and investigation into the question of an incinerator, and work

done by other towns; later expect to present better report.

Article 3. To see if the town will vote to raise and appropriate the sum of \$200.00 for a Christmas Tree.

Moved that the town raise and appropriate the sum of \$200.00 for a Christmas Tree. Motion carried.

Article 4. To see what action the town will take towards the purchasing of new fire apparatus and appropriate money for the same.

Moved that a committee of three be appointed to act with the Chief of the Fire Department and the Chairman of the Board of Selectmen in the purchase of a triple combination fire truck and equipment and that seven thousand dollars (\$7,000.) be appropriated for the same, said money to be taken from the surplus revenue.

Substitute motion under Article 4: Moved that \$17,000 be appropriated for a new apparatus and equipment for Fire Department, same to be taken from the surplus revenue, this to be left to Board of Engineers.

Considerable discussion about the purchase of fire apparatus for and against it. Substitute motion was then voted on and defeated.

The original motion on Article 4 was then taken up and was defeated by vote of Yes 89, No 127.

Article 5. To see if the town will appoint a Committee of five together with the Water Commissioners to investigate the pumping of water by the Provincetown Light and Power Co., and report at the next Special Town Meeting.

Moved that the town appoint a Committee of five together with the Water Commissioners to investigate the pumping of Water by Provincetown Light and Power Co., and report at the next Special Town Meeting. Motion defeated.

Article 6. To see if the town will vote to raise and ap-

appropriate the sum of \$6,000.00 for High school Supplies.

Moved that the town raise and appropriate the sum of \$6,000.00 for High School Supplies. Motion carried.

Article 7. To see if the town will vote to raise and appropriate the sum of \$500.00 for New Hose.

Moved that the town raise and appropriate the sum of \$500.00 for New Hose. Motion carried.

Article 8. To see if the town will vote to raise and appropriate the sum of \$250,000.00 for the erection and equipping a new junior-senior high school, and take the necessary steps to finance the same.

Moved that a committee of seven be appointed to secure the necessary legislation for the Town of Provincetown, to borrow beyond the debt limit, to select plans to present at a future meeting for the approval of the citizens, at which time they will be given authority to proceed with the construction of the new building. This committee recommends that the cost of the building be limited to \$150,000.00 and that \$500.00 be appropriated for expenses of the Committee.

Motion carried and the Moderator appointed the following Committee on New School: Emanuel A. DeWager, Jesse D. Rogers, Manuel Silva, Robert A. Welsh, William F. Silva, Charles A. Harris, Edgar D. Crowell.

Moved that the Selectmen be authorized and instructed to make a taking of land for school purposes of a sufficiently large area of the land, which now lies on westerly side of the present High School lot, so as to enlarge said

lot to make it suitable for a new school building and yard to adjoin and surround said building and there be raised and appropriated the sum of \$1,000.00 to pay for damages for any land taken.

Vote: Yes 79, No. 51. Motion defeated as it was not a two-thirds vote.

Motion for reconsidering motion on taking of land for new school. Vote: Yes 67, No 56. Motion carried but defeated as lacks necessary two-thirds vote.

Meeting dissolved at 9:55 P.M.

GEORGE S. CHAPMAN,  
Town Clerk.

#### **Report of the Building Committee for the Proposed**

#### **Provincetown Junior-Senior High School**

To the Citizens of the Town of Provincetown:

Pursuant to a vote of the Town of Provincetown under Article 8, of a special town meeting held on April 7, 1930, the following were appointed to act as a committee and report, investigate and submit plans for the purpose of erecting a new Junior-Senior High School: E. A. DeWager, Robert A. Welsh, Edgard D. Crowell, Manuel E. Silva, Jesse D. Rogers, William F. Silva and Charles A. Harris.

Before deciding on any architect for the proposed building it was agreed to visit schools for the purpose of getting a definite idea of the type of building desired. The following schools were visited by your committee: Morrisville, Vt.; Vineyard Haven, Fall River, New Bedford, Whitman, Hanover, Rockland and Needham.

Following the inspection to the various schools mentioned several architects were interviewed and we finally decided on William H. McLean of Boston who submitted a plan which was finally adopted with several minor changes sug-

gested by the committee to suit the needs here in Provincetown.

The plan offered by your committee is a Junior-Senior High School copied after the school visited by your committee at Morrisville, Vt. The architect has guaranteed that the proposed building can be erected for approximately \$125,000.00 plus architect's fees of six per cent and cost of equipping the same, which complete would cost under \$150,000.00. To insure the cost of this building will not exceed the last mentioned amount we desire to state that after complete plans were approved by the members of the building committee bids were received from various contractors from all over New England which show that the amount arrived at and the money to be asked for will be sufficient. As soon as the money is appropriated work on the building can be started immediately.

The following is a brief description of the Junior-Senior High School, according to plans advocated by the committee:

The building shall be of Georgian, or Colonial type of Architecture which, we believe, to be one of the best types of architecture known and especially adapted to the historical importance of Provincetown.

The exterior walls shall be of tapestry brick. The proposed building will be placed on the old High School site and it is planned to put the building seventy feet from the street line approximately in line with the old high school.

The dimensions of the building will be 137 ft. x 80 ft. At this time your committee recommend and believe it advisable that additional land should be procured at the rear of the old lot thus giving a greater amount of land for play purposes as well as giving a more uniform site for a building as the one recommended. Your committee feel

that if 100 feet were taken west of the old location it would be sufficient for all future needs.

The proposed building will also have an auditorium which can seat 410 persons on the main floor and 130 in the gallery. On the first floor there will be six classrooms. The corridors are to be lined with lockers for each pupil.

The second floor accommodations are a business department for 21 pupils, a science department, a library, study hall and four class rooms.

In the basement spaces are planned for manual training and domestic science rooms. A gymnasium 60 x 38 feet has been planned for. It will be flanked with the usual locker and shower rooms. All basement walls under grade are to be built of concrete.

In conclusion your committee wish to state that a great deal of time has been spent in deliberation and comparison of various plans submitted to us by numerous architects and we earnestly feel and believe that of all the schools visited and plans submitted the one offered is the best for the money. Also we believe the building recommended will take care of our needs here for many years to come and at the same time stand out as a school of which we may all be justly proud.

Committee on New School.

Moved that the report of the Committee on New School be accepted.

Motion carried by vote, Yes 144; No 108.

Article 3. To see if the town will vote to raise and appropriate the sum of one hundred and fifty thousand dollars for the purpose of constructing and equipping a school building.

Moved that the sum of one hundred and fifty thousand dollars be raised for the construction and equipment of a school building; that \$16,300 be appropriated from the "Surplus Revenue"; \$28,700 from the "Special Fund" received for the High School Insurance and the remaining \$105,000 so as to be spread over a term of fifteen years; that a series of bonds or notes bearing interest payable semi-annually be issued and entitled "School Loan of Provincetown"; that said notes or bonds to the amount of \$7,000.00 shall mature within one year from the date of issue and \$7,000.00 each succeeding year thereafter until the whole of the indebtedness authorized by this vote is paid in full.

Moved and carried that when vote is taken on Article 3, that it be taken by a Yea and Nay ballot.

The Yea and Nay ballots were passed out by the police officers, the list of the registered voters of the Town was used and checked by the Tellers. The following result of the ballot was announced by the Moderator: Yes 192, No 170.

Motion was defeated as it required a two-thirds vote.

Moved that the vote under Article 3 be reconsidered, and

this meeting be adjourned to 7:30 P.M. June 30, 1930. Motion not carried.

Motion that Committee on School be discharged. Motion carried.

Article 4. To see if the Town will vote to instruct and authorize the Selectmen to purchase or take by eminent domain for school purposes a parcel of land, one hundred feet in width, bordering on and parallel to the present High School lot, and appropriate a sum of money for the same.

Moved and carried that Article 4 be indefinitely postponed.

Article 5. To see if the Town will accept the parcels of land conveyed to it by the Commonwealth of Massachusetts, and described in a deed from the Commonwealth to the Town of Provincetown, dated March 11, 1930, and recorded in Barnstable County Registry of Deeds, Book 472, Page 563.

Article 6. To see if the Town will indemnify the abutters against any and all claims for land, grade and drainage damages which may be caused by or result from the laying out and construction of a Highway known as the Bradford Street Extension, to the New State Highway,

known as the road through the Province Lands, or any section or relocation thereof and will authorize the Board of Selectmen to sign an indemnity agreement therefor in behalf of the Town, and make an appropriation therefor or to take any other action with respect thereto.

Moved that the Town will indemnify the abutters against any and all claims for land, grade and drainage damages which may be caused by or result from the laying out and construction of a Highway known as the Bradford Street Extension to the New State Highway, known as the road through the Province Lands, or any section or relocation thereof and will authorize the Board of Selectmen to sign an indemnity agreement therefor in behalf of the town and appropriate \$500.00 for the same. Motion carried.

A true copy, Attest:

IRVING L. ROSENTHAL  
Constable of Town of Provincetown

Commonwealth of Massachusetts

Barnstable, ss.

June 28, 1930

In pursuance of the within precept I have this day notified and warned the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs to meet at the Town Hall in said Town on Monday the seventh day of July next at the time and place, and for the purpose herein named by posting up attested copies thereof at the stores of;—Marion Perry, George Rogers, Joseph Amber, Jackson Cabral, B. H. Dyer & Co., Allen & Allen, John D. Adams, Antone Francis,

Charles F. Williams, J. D. Hilliard Co., Clarence Burch, John A. Francis, Board of Trade and Post Office in said Town, seven days at least before the time of holding said meeting.

IRVING L. ROSENTHAL,  
Constable of the Town of Provincetown

Attest:

GEORGE S. CHAPMAN, Town Clerk.

In pursuance of the foregoing Warrant the inhabitants of the Town of Provincetown, qualified to vote in elections and town affairs, met at the Town Hall on Monday the seventh day of July, 1930, and were called to order by the Town Clerk.

Article 1. To choose a Moderator to preside at said meeting.

Walter Welsh was elected Moderator.

Article 2. To hear the reports of Committees and act fully thereon.

No Committees to report.

Article 3. To see if the Town will vote to raise and appropriate the sum of one hundred and fifty thousand dollars for the purpose of constructing and equipping a school building.

Moved that the sum of one hundred and fifty thousand dollars be raised for the construction and equipment of a school building; that \$31,300 be appropriated from the "Surplus Revenue", \$28,700 from the "Special Fund" received for the High School Insurance and the remaining \$90,000.00 so as to be spread over a term of fifteen years; that a series of bonds or notes bearing interest payable semi-annually be issued and entitled "School Loan of Provincetown"; that said notes or bonds to the amount of

\$6,000.00 shall mature within one year from the date of issue and \$6,000.00 each succeeding year thereafter until the whole of the indebtedness authorized by this vote is paid in full.

Mr. Robert A. Welsh spoke regarding the work done by the Committee on school in securing plans and looking over schools in different towns.

Mr. Percival J. Eaton in his remarks stated that the town needed a school; also the finances of the town in regards to way payments could be made for the school, and that proposed school was a credit to the town, and considered it not too much of a price for a building of this kind; also hoped that the same Committee would be appointed and reinstated and continue on with this work.

Mr. George Hoke spoke on the subject: that the High School was a very important matter that should bear deep discussion; also that he wanted to see a good school building as Provincetown could afford, and the best that could be afforded.

The motion on Article 3 was put to a vote, the count was taken and the motion was carried by a two-thirds vote as follows: Yes 240, No 114.

Moved that the Committee appointed agreeably to a vote of the Town Meeting dated April 7, 1930, be appointed as a Building Committee with full authority to build and equip a building for a Junior-Senior High School and make the necessary contracts and purchases for the same.

Motion carried and same Committee was re-appointed.

Article 4. To see if the Town will vote to instruct and

authorize the Selectmen to purchase or take by eminent domain for school purposes a parcel of land, one hundred feet in width, bordering on and parallel to the present High School lot, and appropriate a sum of money for the same.

Moved that the Selectmen purchase or take by eminent domain for school purposes a parcel of land one hundred feet in width, bordering on and parallel to the present High School lot, and appropriate the sum of \$500.00 for the same.

Motion was carried by following vote: Yes 179, No 30.

Meeting dissolved at 8:20 P.M.

GEORGE S. CHAPMAN,  
Town Clerk.

## STATE ELECTION Warrant

Commonwealth of Massachusetts

Barnstable, ss.

To either of the Constables of the Town of Provincetown  
in the County of Barnstable, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the Town Hall, in said Town, on Tuesday the Fourth day of November next, at 12 o'clock noon, then and there to act on the following purposes:

To bring in their votes for the Election of Candidates of Political Parties for the following offices: Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Senator in Congress, Congressman, Councillor, Senator for the Cape Senatorial District, Representative in the General Court for the Second Barnstable District, District Attorney for the Southern District, Register of Probate and Insolvency for Barnstable County, County Commissioner (1), Associate Commissioners (2), County Treasurer for Barnstable County.

Also to vote "Yes or "No", on the following questions:

### QUESTION NO. 1.

#### PROPOSED AMENDMENT TO THE CONSTITUTION.

Shall an amendment to the constitution relative to the apportionment of senatorial, representative and councillor districts, further described as follows:

The proposed amendment of the Constitution provides

for the annulment of Article XXI of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXI, and for the annulment of Article XXII of the Articles of Amendment of the Constitution and the substitution therefor of a new Article XXII. The proposed amendment embodies in substance the following changes in and additions to said Articles XXI and XXII:

1. In proposed Article XXI, towns of twelve thousand inhabitants or more may be divided in forming representative districts. No precincts, however, in such towns may be divided. In taking the census the special enumeration of legal voters shall specify the number residing in each precinct of such towns. Under existing Amendment XXI no town may be divided and no specification of the number of voters in a precinct is required.

2. The division of a county into representative districts and the apportionment of representatives to districts therein is to be made by "The county commissioners or other body acting as such or, in lieu thereof, such board of special commissioners in each county as may for that purpose be provided by law." Under Article XXI as it now stands the division and apportionment is made by "The mayor and aldermen of the city of Boston, the county commissioners of other counties than Suffolk, —or in lieu of the mayor and aldermen of the city of Boston, or of the county commissioners in each county other than Suffolk, such board of special commissioners in each county, to be elected by the people of the county, or of the towns therein, as may for that purpose be provided by law." The time for assembling of such commissioners, board or body for the purpose of making such division and apportionment is also changed, from the first Tuesday of August next after each assignment

by the Legislature of the number of representatives to each county, to a time within thirty days after certification by the Secretary of the Commonwealth to such commissioners, board or body of the number so assigned, or within such other period as the General Court may by law provide.

3. Under the proposed Articles, each special enumeration shall be the basis for determining the districts, senatorial, representative and councillor, for the ten-year period beginning in the fourth January following said special enumeration and the present division of districts is to remain in effect until January, 1939. Under the existing amendments the ten-year period is the period between the taking of each census. (Thus, the next redivision based upon the next census in 1935 would, under the proposed Articles, affect those elected in 1938 to hold office beginning in January, 1939, instead of affecting those elected in 1936 to hold office beginning in January, 1937. Under existing amendments representation of newly created districts begins in January of the second year after each ten-year census, whereas under the proposed article it would begin in January of the fourth year thereafter.) The number of representatives (240), senators (40), and councillors (8) is not changed.

4. The Legislature may limit the time within which a division of representative, councillor or senatorial districts may be questioned by judicial proceedings. The

existing amendments contain no provision that itself limits or authorizes the Legislature to limit such time.

which received in a joint session of the two Houses held May 17, 1928, 182 votes in the affirmative and 48 in the negative, and at a joint session of the two Houses held May 26, 1930, received 155 votes in the affirmative and 88 in the negative, be approved?

YES	
NO	

### QUESTION NO. 2.

#### LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which amends the General Laws by striking out chapter 138, section 2A, which section provides that, "No person shall manufacture, transport by air craft, water craft or vehicle, import or export spirituous or intoxicating liquor as defined by section three, or certain non-intoxicating beverages as defined by section one, unless in each instance he shall have obtained the permit or other authority required therefor by the laws of the United States and the regulations made thereunder," which law was disapproved in the House of Representatives by a vote of 110 in the affirmative and 123 in the negative and in the Senate by a vote of 11 in the affirmative and 26 in the negative, be approved?

YES	
NO	

### QUESTION NO. 3.

#### LAW PROPOSED BY INITIATIVE PETITION

Shall the proposed law which amends General Laws, chapter 131, by inserting therein a new section number 59A, which in substance makes it a misdemeanor punishable by a fine of fifty dollars for any person to use, set or maintain any trap or other device for the capture of fur-bearing animals which is likely to cause continued

suffering to an animal caught therein and which is not designed to kill the animal at once or take it alive un-hurt, except traps or other devices for protection against vermin, set or maintained within fifty yards of any building or cultivated plot of land, to the use of which the presence of vermin may be detrimental, which law was disapproved in the Senate by a vote of 12 in the affirmative and 24 in the negative, and in the House of Representatives by a vote of 48 in the affirmative and 167 in the negative, be approved?

YES	
NO	

And you are directed to serve this Warrant, by posting up attested copies thereof at the stores of: Marion Perry, George Rogers, Joseph Amber, Jackson Cabral, B. H. Dyer & Co, Allen & Allen, Albert Enos, John D. Adams, Antone Francis, Charles F. Williams, J. D. Hilliard Co., Joseph Marshall, Richard Woods, C. L. Burch Sons, John A. Francis, also at the Board of Trade and Post Office, in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this twenty-fifth day of October, in the year of our Lord one thousand nine hundred and thirty.

### Record of Fires for 1930

January 30, 1930

A false alarm of fire was sounded at 10:25 A.M. William Newcomb was fixing his nets in his building at 67 Commercial Street and lighted a fire in his stove, which was filled with rubbish. A passerby seeing smoke coming from the building thought it was on fire and gave the alarm.

February 23, 1930

An alarm was sounded at 4:05 A.M. for a fire in a building owned by Camilla Cook, at No. 4 Conwell Street. The fire was caused by William S. Smith, its occupant, smoking a cigarette in bed. The Department responded and extinguished the fire with streams from the Chemical and a Hose. Value of the building \$3,000.00. Value of contents \$1,000.00. Damage to building \$60.00. Damage to contents \$52.00. Insurance on building \$3,000.00; on contents \$1,000.00. Chemical used 45 gallons. Hose used 250 feet. Water used 1,875 gal.

March 21, 1930

An alarm was sounded at 6:10 P.M. for a fire in a house owned by Evelyn Hutching's and occupied by Manuel Martin, at No. 40 Pleasant Street. The fire was caused by a defective chimney. The department responded and ex-

tinguished the fire with streams from the chemical and a hydrant. Value of building \$2,000.00. Value of contents \$500.00. Damage to building \$75.00; to contents none. Insurance on building \$800.00; on contents \$200.00. Chemical used 35 gallons. Hose used 200 feet. Water used 1,875 gallons.

March 23, 1930

A still alarm was given for a fire in the brush, near the home of Dr. H. L. B. Stalker, caused by the burning of rubbish. Chemicals No. 4 and No. 5 responded promptly and put out the blaze. There was no damage.

March 23, 1930

A still alarm was given for a fire in a house owned by John Morris, at 262 Bradford Street, caused by sparks from the chimney setting fire to the roof. Water from Hose No. 1 quickly extinguished the blaze. Damage to building \$75.00; to contents, none. Insurance on building \$1,700.00. Hose used 600 feet. Water used 3,750 gallons.

March 24, 1930

An alarm was sounded at 2:40 P.M. for a fire on the roof of the Church of the Pilgrims, at No. 256 Commercial Street. The fire was caused by sparks from a neighboring chimney. The department responded, using three pieces of apparatus: Truck 5, Hose 1 and Hose 2. Value of the building \$20,000.00. Value of contents \$4,000.00. Damage to building \$50.00. Insurance on building \$1,500.00; on contents, none. Hose used 400 feet. Water used 3,750 gallons.

March 26, 1930

An alarm was sounded at 10:30 P.M. for a fire in the

High School building, at No. 10 Winslow Street, and owned by the Town of Provincetown. The fire was caused by design. The department worked against tremendous odds. The building was all ablaze inside before it was discovered, the high wind carried the sparks to other buildings and many roofs were blazing at once, looking for a time as if it would be a conflagration. Help was summoned from nearby towns and engines were sent from Hyannis, Chatham, Harwich and Orleans but the fires were under control before they arrived. The house of John King, next to the School House caught fire and was badly damaged; also the roof of the Center Methodist Church, caught from flying sparks in a number of places and the church was saved only after a stiff fight.

The School Building and contents were a total loss. Value of building \$60,000.00; of contents, \$11,000.00. Insurance on building \$28,000.00; on contents, none.

Damage to the house of John King \$3,066.00. Damage to contents \$900.00. Insurance on building \$7,000.00; on contents \$1,000.00. Value of building \$10,000.00; of contents, \$2,000.00.

Damage to Center M. E. Church building \$3,450.00; to contents, \$1,000.00. Value of building \$40,000.00; of contents, \$5,000.00. Insurance on building \$15,000.00; on contents, \$5,000.00.

Hose used 2,750 feet. Water used 172,500 gallons. Chemical used 400 gallons.

April 28, 1930

An alarm was sounded at 3:05 P.M. for a fire in a house owned by Mrs. Harriet A. Small on Commercial Street. The fire, caused by sparks from a fireplace, did a damage of \$310.00 to the building, and contents. Value of building \$1,200.00. Value of contents \$700.00. Insurance on

Amount of loss by fire during the year	\$67,635.00
Amount of insurance on same	97,333.00

#### Fire Alarm

The town has been divided into three Fire Districts:

First: From West End to Court Street.

Second: From Court Street to Johnson Street.

Third: From Johnson Street to East End.

The Fire Alarm whistles will blow the regular fire alarm of four blasts, followed by one for the first district, two for the second district and three for the third district.

#### Houses

During the year only necessary repairs have been done. No. 2 house needs painting and some repairing, which will have to be done soon. The sills of Hook and Ladder House are in bad condition and need replacing.

#### Apparatus

We try to keep the apparatus in good condition and ready for use. At present it consists of the following: One Steam Fire Engine, One Auto Combination Truck, One Double Tank Chemical Truck, One Auto Ladder Truck, Two Auto Hose Trucks, One Hose Wagon, and Three Hose Reels; also Two Hand Engines in reserve. At this time we would recommend the purchase of a new 500-gallon Combination Pumper.

#### Hose

We have now on hand 10,000 feet of two and one-half inch cotton rubber lined hose; 750 feet are new, 7,250 feet are good and 2,000 feet are very poor. We would recommend an appropriation of \$500.00 for new hose.

## Report of Garbage Committee

To the Board of Selectmen, Provincetown, Mass.:  
Gentlemen;

The Committee to investigate the collection and disposal of garbage, appointed at the annual town meeting in February, 1930, submits the following report.

Your Committee has sought and received information from the Boards of Health of several communities and from the State Board of Health. The State Board, in a report to the General Court, recommends for small cities and towns, disposal to piggeries, where possible. When this cannot be done, as in Provincetown, it is agreed that incineration is the only feasible process at the present time. We have communicated with several builders of such plants, have received no reply from some; general statements but no definite figures from others and from one reliable concern, which has built many plants for towns about the size of Provincetown, complete drawings, specifications and contract price for the erection of the plant, complete, ready to operate. The Company gave references and your Committee went to Hull and saw one of their plants in operation. We were most courteously received, shown all over the plant, our questions fully answered and we were assured that the plant gave complete satisfaction. We then visited New Bedford, where a different plant, but of the same type, is used. It is, of course, much larger than our needs would require, but the principle is the same and we received much valuable information from the Superintendent, who was anxious to help us in every possible way. We also visited Falmouth, but found the incinerator there a home-made affair not at all suitable for Provincetown. In Hull and New Bedford, the rubbish and garbage are collected together, the garbage being drained as much as possible and

wrapped in paper by the householder and placed in the rubbish. This method should be used in Provincetown. When dumped into the incinerator, the rubbish supplies a hot fire which consumes the garbage. Collections should be made every other day at least, and, in the summer, daily. Two methods are available: by letting out on contract or collection by the town. Your Committee favors having it done by the town for various reasons, which we will be glad to give. Both collection and operation of the plant would be under the direction of the Board of Health and subject to such rules as it may find necessary to make. The representative of the Company has visited Provincetown, has been shown about the town and pronounces the land adjoining the present dump, northwest of the town, as ideal for the location of the incinerator, which is guaranteed to be odorless and not objectionable in any way.

We, therefore, recommend that the plans and contract price of \$8,495, submitted by the Morse Boulger Destructor Co. be accepted.

That a piece of land of sufficient size for the plant, directly east of, and adjoining the dump, be acquired by the town.

That the Water Department and Electric Light Co., be requested to extend their services to the plant, when completed.

That the sum of ten thousand (\$10,000) dollars be raised and appropriated to carry out the above recommendations.

Respectfully submitted,

JOHN A. COOK, Chairman,  
ANTONE M. DENNIS.  
PERCIVAL J. EATON,

JOHN J. LEONARD,  
 JOSEPH A. DAYS,  
 FRANK S. ALVES, Jr.,  
 Water Commissioners.

January 24, 1931.

Board of Water Commissioners,  
 Provincetown, Mass.  
 Gentlemen:

Acting under instructions from your Board, I have made an investigation and a series of tests of the distribution system of the Provincetown Water Works, and submit the following report.

I was advised by your Board that the pipe system had lost efficiency, that the service rendered during recent fires had been unsatisfactory, and that in the period of high demand during the summer it was difficult to pump enough water into the standpipe at Provincetown to maintain a satisfactory quantity and ample fire pressure, and you instructed me to determine the cause of the failure of the system in these respects and to advise you of the remedy.

Investigation was begun by me on September 12th, 1930, and levels taken to determine the elevation of standpipe, pumping station and other important points.

It was found that no record of the system was in existence except the tracing furnished by Lewis Hawes, dated 1892-1893, which was a map of the village of Provincetown, showing the original system, presumably, corrected to show all details as actually constructed.

The second, a tracing of Blake & Symonds, dated 1908, showed the pipe line from the North Truro pumping station to Provincetown Village. Several new blue-prints were immediately taken to insure against the loss of these records.

Elevations were taken of practically all hydrants over Provincetown Village, and distance measured from

the pumping station by way of Bradford Street and Winslow Street to the standpipe; also, the lengths of several cross streets between Bradford Street and Commercial Street.

On October 9th, a flow test was made to determine the present capacity of the mains to deliver water for fire purposes. These tests were made at the following points:

North Truro pumping station  
 Bradford at Atherton  
 Bradford at Grove St.  
 Commercial east of Bangs St.  
 Bradford at Center St.  
 Commercial at Freeman St.  
 Bradford at Winslow  
 Commercial at Carver  
 Bradford at Franklin  
 Commercial at Mechanics  
 Winslow at New High School  
 Commercial at Inn, west of Provincetown.

The results of all the tests were comparatively uniform and showed a loss of head and delivery far in excess that would be expected of pipe of this age, and raised a question if there were not gates closed on the line.

Careful tests were made of the gates on the principle lines, but all were found wide open.

The test at the pumping station showed a friction loss between 50 and 60 lbs., equal to from 115 to 138 ft. head, with the pumps running at 28 revolutions per minute, which with the pumps in good order, should deliver about 312 gallons per minute. The rated capacity of the pumps is each 700 gallons per minute, or

1,000,000 gallons per twenty-four hours.

The theoretical loss of head for the combination of pipe between the pumping station and the standpipe delivering 312 gallons per minute is not over 50 feet, and the fact that the test showed a loss of head over twice this amount indicated some serious obstruction in the mains.

Having found the gates in working order and open, the pipe line was broken into at six points. This work killed two birds with one stone by giving the opportunity to replace the old gates, which were so badly corroded as to be practically useless, with new ones, and furnished information as to the condition of the mains in various parts of Provincetown.

The larger mains were found to have a brown scale over the lower half of the pipe, which was in some cases more than an inch in thickness, the surface being extremely rough. The upper half of the pipe was moderately tuberculated, but not in serious condition. In the smaller pipe, the choking effect was much more serious, and some of the 3 inch mains were found to be practically closed.

The scale does not seem to be tuberculation or rust of the cast iron pipe, but is formed to a certain extent over the tar coating, and there is evidence of the original coating after the scale is removed, there being little adhesion between the scale and the pipe itself. The scale taken from the mains in Provincetown Village, which were laid in 1892, has a different appearance from that in the force main which was laid in 1907 from North Truro.

The original water pumped into Provincetown was from a well, containing a very excessive amount of iron,

and it is probable that this scale in Provincetown Village is largely a deposit of iron from this source.

The scale formed on the force main seems to be somewhat different in character. It is harder and does not show the dark brown iron contents. It may be found to be made up of considerable very fine sand, cemented together by the small iron contents of the North Truro water.

These samples are now being studied by the chemists of the State Laboratory, and the report of their findings will be made as soon as they are available.

The vast body of rough scale found in the pipe seems to give conclusive proof of the cause of the trouble.

When the main was first laid from North Truro, it was comparatively smooth and the pumps were able to operate at full capacity, but the loss of head in a 10 inch pipe of this length is rather large even when the pipe is new, and with the increasing demand of water in Provincetown, it seems evident that a new force main should be laid between Provincetown and the standpipe by way of Bradford Street as far as Winslow Street. A second 10 inch pipe to supplement the original main would accomplish the purpose, but the Insurance Exchange strongly urge that a 12inch main be laid, and in view of the fact that there is high cost in pumping against the head caused by friction, it will probably be economical to lay a 12 inch main after which the original 10 inch can be temporarily taken out of service and cleaned of all scale.

This cleaning process is not permanent, due to leaving more or less of the metal clean and exposed to rapid corrosion. However, it is estimated by high

authorities that a great benefit would be felt for a period of ten years with a double line between the pumping station and Provincetown. Cleaning could be done at will and should prove a small expense compared with the benefits to be derived.

Estimates indicate that the saving in pumping costs would pay the interest on the proposed pipe line.

I am advised by your department that the present well system can be depended on for a much greater yield than the present and can probably supply the full capacity of a pump.

Much of the pipe being laid today is cement lined, and I believe it will pay to have this pipe lined with cement or a similar protective coating. This will not however, eliminate deposits on the surface, but it should not be large from the North Truro water.

The second and equally important advantage from the proposed new force main would be the free delivery of fire streams over the Village.

Most of the cross lines between Commercial and Bradford Streets are of small pipe, and it will be desirable to lay a few cross lines of 10 inch pipe to develop the efficiency on the fire service on Commercial Street to the greatest extent. I suggest cross lines on Cottage Street, Central Street, Johnson Street, Bangs Street and lane near Atherton Street.

During recent summers, it has been found impossible to keep satisfactory storage in the standpipe. The capacity of the present tank of 367,000 gallons is less than a day's supply, and is inadequate for Provincetown

Your Board reports to me that the inside of the standpipe has been inspected twice recently and is believed to be near the end of its life.

If this is the case, it is advisable to install a new tank of capacity not less than two days maximum supply for the Town, adjoining the site of the old tank, and estimates are shown in this report of the cost of such a tank.

If it is possible that the present material of the tank is wrought iron, which was used most commonly at the date the present tank was built, a careful expert inspection may show there is considerable length of life remaining. In which case, it would be desirable to erect a second standpipe at some other high point in Provincetown so as to bring more of the Village between the two tanks thereby practically doubling the efficiency of the service. The placing of two tanks side by side will give greater margin of storage to meet unusual demands, but will not increase the efficiency of fire streams and will not effect the pressure; while if the tanks were separated the area between will be fed from two directions, and, therefore, the delivery will be much greater.

Several possible sites have been investigated, and provision can be made for using one of these sites if it seems advisable after a complete investigation of the condition of the present tank is made.

After conditions are made safe, I recommend that the principle old mains be cleaned, as it will, for a time at least, bring the efficiency back to near that of a new system. A new main should be laid on Alden Street from Bradford Street to the old 10 inch main from standpipe to old pumping station, which will then give direct 12 inch and direct 10 inch connections from the standpipes to Bradford Street. It will then make it practicable to clean either one while using the other.

Below is an estimate of cost of the principle items mentioned in this report.

#### Estimate of Costs of Proposed Improvements

Standpipe—1,200,000 gallons capacity	\$31,000.00
Standpipe Foundation	6,800.00
Piping:	
(a) Standpipe Branch	1,150.00
(b) Force Main. Pumping Station to Atherton St. 12 inch cement lined pipe	57,800.00
(c) Atherton St. to Winslow St., 12 inch cement lined pipe	23,500.00
(d) Alden St. Bradford St. to old 10 inch pipe, 10 inch cement lined pipe	1,800.00
(e) Cross pipe-lines Bradford St. to Commercial St., 10 inch cement lined pipe	7,238.00

The above estimate of proposed pipe lines includes items for cost of cast iron pipe, laying, gates, gate boxes and special castings; also, 10% to cover unforeseen contingent items and engineering charges.

It does not include allowance for any land damage.

The prices used are as low as it seems safe, for estimates, but they are slightly above the going prices of 1930, and it is probable that actual contracts can be let under these figures.

If the standpipe is to be built at once, the standpipe branch (Item a) must, of course, be included, as men-

tioned earlier in this report.

Item (b) is much needed, and I recommend that provision be made for it in the near future.

Item (c), which is that part of the force main on Bradford Street within the Village of Provincetown, should be taken care of at once. This section of the old system is probably in worse condition than any other part of the force main, and a new pipe will relieve the pressure on pumps, and will also greatly improve the fire service. From Winslow Street westerly provision should be made at an early date for cleaning the principle mains, and reinforcing the system by such additional mains as may be found necessary after the above described developments have been completed.

Item (d) is very important, and should be done as soon as weather permits.

Very truly yours,

HENRY A. SYMONDS

Consulting Engineer.

## Report of the Visiting Nurse Association

## Report of Board of Health

---

To the Citizens of Provincetown:

The Board of Health submits its annual report for the year ending December 31, 1930.

The following is the number of contagious disease cases as received by this department and is due chiefly to the co-operation of the citizens with the Board of Health.

Whooping Cough	5
German Measles	52
Chicken Pox	10
Measles	209
Mumps	29
Scarlet Fever	3
Tuberculosis	4
Typhoid Fever	4
Infection of Eye	1

Any suggestion will be welcomed by the department, whereby it may be able to keep the town in a better sanitary condition, all complaints will be thoroughly investigated so far as our authority may allow.

GEORGE W. CASHMAN, Chairman  
EDWIN W. SMITH, Inspector  
EDWIN A. WHELDEN, Secretary

Sec. School Committee.

## Report of Superintendent of Schools

To the School Committee of Provincetown:

I herewith submit for your consideration my fifth annual report

### Changes in the Teaching Corps

The teaching staff is never permanent. Fewer changes, however, have taken place this year than in the previous one. Miss Lucinda Anthony was appointed to the position held by Miss Mary Martin who was transferred from the second grade, Western building, to a sixth grade, Center building. This vacancy which Miss Martin was called upon to fill was occasioned by the transfer of Miss Josephine Jacobs to the Grammar school. Mr. Donald B. MacDonald was elected to the principalship of the Grammar school due to the fact that Miss Katherine MacIntyre had asked for a year's leave of absence. Miss Mary Duarte was appointed to the position held by Miss Mary Perry who resigned.

At the High school two new teachers were appointed: Mr. David Murphy, who has charge of the science department, and Miss Ellen Hourihane, instructor in French, the latter taking the place of Miss Marguerite McDermott who resigned.

### School Work in General

The work at the Western, Center and Eastern schools, under the principalship of Mrs. Enos, Miss Jason and Miss Barton respectively, places our elementary schools in a

very favorable light. The Special schools, under the principalship of Mrs. Collinson, meet all State requirements. The Grammar and the High school have been seriously handicapped by the short sessions, but, due to a vote of the town, our school system is destined to become one of the most efficient in the State.

### Two Plans

With the withdrawal of the seventh and the eighth grades from the Governor Bradford building four rooms will be available for elementary school work. There will be, at the beginning of the next school year, unless consolidation takes place in some instances, eighteen schools or classes in the elementary system. These may be housed in either of two ways. The first plan follows:—

School	Grades
Center	1, 1, 2, 2, 3, 3, 4.
Western	1, 2, 3, 4, 4.
Governor Bradford	5, 5, 6, 6.
Conant Street	Two Special Classes.

The foregoing plan provides for the abandonment of the Eastern building. In that event the school department will have two rooms, at the Western building, unoccupied.

The second arrangement retains the Eastern building and abandons the Conant Street building. The second plan follows:

School	Grades
Center	1, 2, 3, 4, 4.
Western	1, 2, 3, 4, 5.
Eastern	1, 2, 3, 5.
Gov. Bradford	6, 6, Two Special Classes.

By the foregoing arrangement all classes may be housed and there will remain four available rooms. As far as

school organization is concerned both plans have merits and defects. The voters, who support the schools, have the power to decide which building, if any, they care to abandon.

### A Modern School System

Beginning with the school year 1931-1932, the school system will be thoroughly modernized in respect to organization. The Elementary school, comprising the first six grades, will remain practically the same, save a possible departmentalized program in the upper grades. The Grammar school, combined with our Four-Year High School, will emerge as part of a brand-new institution of learning. The Grammar school as such will vanish forever in name, and will be incorporated into a veritable Six-Year High School, "The Provincetown High School," under one principal.

The change from our former organization will result in a much needed improvement in the educational facilities of Provincetown. It marks the largest forward educational step that has been taken within the memory of this generation.

The new building will be adequate in size to house our high school pupils for years. In fact, tuition pupils from other towns could be admitted without any detriment to the interests of our children. This school will possess the chief features of a modern high school. Besides general, college-preparatory and commercial courses there will be added those in Household Arts for the girls and Manual Training for the boys. The Household Arts department will be substantially aided by State funds.

Physical Education will henceforth receive its due attention, not merely through the usual games of the gymnasium, but by regular and systematic class exercises under

specially qualified leaders.

Attention is directed to the reports of the principal of the high school, the school physician and the school nurse, the music supervisor, and the supervisor of attendance.

Respectfully submitted,

CHARLES A. HARRIS,

Provincetown, Jan. 5, 1931.

Supt. of Schools.

## Report of Principal of High School

January 8, 1931

Mr. Charles A. Harris  
Superintendent of Schools  
Provincetown, Mass.

Dear Sir:

In submitting my fifth annual report, it is with the realization that a report of this sort is bound to be of a dull and uninteresting nature unless it deals with problems of vital interest to the majority. In accordance with this viewpoint, it is my intention to dwell but briefly on the accomplishments of the past and turn to the future, touching on a few points which should have importance to both school officials and citizens alike.

**THE FIRE:** At the beginning of 1930 our building was occupied after extensive alterations and improvements had been made. New floors were laid, upstairs and down; new desks and chairs were installed; a new science work table and new cabinet were built and placed in service; our laboratory equipment was augmented; new typewriting machines were added to meet the ever increasing needs of our commercial department; hundreds of volumes had been added to our school library. With all these advantages at our disposal it was natural that pupils and teachers should look forward to a pleasant and profitable year. We were destined, however, to spend but a few months in the building, for, on the night of March 27, 1930, the stunning news came that P. H. S. was on fire. Shortly after the fire was discovered it became apparent that the building which we had left only a few hours previous, without a

suspicion of impending disaster, was doomed to complete annihilation. So passed a building held high in the esteem of the countless graduates who have passed through its doors.

The day following found the Committee and you faced with a tremendous task—reorganization and choice of temporary quarters. The rest is a matter of history, but I wish to express my appreciation of the efficient way in which the Committee and you handled the situation, enabling us to carry on with the loss of only two days. Although conditions in our temporary quarters are not ideal, we were very fortunate to have the Governor Bradford school to go to. It is a matter of extreme pleasure to me to have the school functioning so well under the adverse conditions. I want to thank my teachers for their splendid and unselfish work from the time of the fire to the present day, the spirit which has made the school function so efficiently. I wish to commend, especially, Miss Phoebe E. Freeman, of the faculty, for her ceaseless energy in replacing the record cards, all of which were destroyed by fire. We were indeed fortunate to have such a loyal staff of teachers and no uncertain praise is due them.

**ATTENDANCE:** In a previous report I made mention of the losses sustained by the pupils because of absence and tardiness. I wish to stress this point once again, and to show that the condition is not exaggerated. I wish to offer a few statistics.

Following is the record of absence and tardiness for the four months just completed in the present school year.

	Absences	Tardinesses
September	124	57
October	333	165
November	262	78
December	230	132

Again it is necessary to sound a warning note to pupils and parents who do not take the business of school attendance and study seriously. It is quite probable that the new school with its enrichment of courses of study will hold and motivate these pupils, but it is highly probable, too, that parents do not realize the actual situation and the reasons for this waste of time. I urge parents to interview the teachers when they receive notification of such irregularities, because I feel sure that such interviews will be productive.

**THE LIBRARY:** Since last September our library has grown from a few volumes until it now approximates 800 volumes. A library, needless to say, is a very important adjunct to the ordinary classroom textbook and it is gratifying to know that the pupils of our high school have available for their use the best of literature, science, history and other branches of learning. It is our aim that these books shall stimulate an interest for good and wholesome reading. During a period from October 23, 1930 to January 7, 1931, 1,364 volumes have been borrowed from the library.

I wish to acknowledge with thanks the receipt of a set of "Library of Universal Knowledge" consisting of sixteen volumes from Mrs. Louis A. Law. These books were donated to us immediately after the fire and came at a time when they were sorely needed. I wish to thank the Provincetown Public Library, through Miss Abbie A. Putnam, for a complete set of "Library of the World's Best Literature" in forty-six volumes. This is a very excellent set of books and we are highly appreciative.

**HEALTH EDUCATION:** Provincetown will soon have an excellent opportunity for adequate health education in the high school, a thing which has been lacking for the most part. I have heard some criticism of this idea and it

would seem that to many, health is a negative idea—the lack of sickness, a freedom from disease. Others think it means athletic powers or the development of a fine physical body. On the contrary, physical education has a direct contribution to make to citizenship building. It will bring good health, will act as a foundation for personal efficiency and success, and will enable a pupil to make wise and wholesome use of leisure time. Briefly, it will develop that quality of life which will enable the pupil to render his best service—and isn't that what we want?

**ATHLETICS:** As a result of the fire every bit of athletic equipment was entirely destroyed. We have had to eliminate football from our list of sports this year for lack of equipment. Football is a hard game and an expensive one because suits and equipment are so costly, but it is dangerous to allow a boy to play without adequate protection. Therefore we thought it wise to eliminate the sport for this year at least. We have outfitted, however, a boy's basketball team and at present we are in the midst of our schedule. There remains baseball in the spring and while we will be able to buy bats, balls and other necessary equipment, it is doubtful if we can afford suits for the boys.

Due to the geographic location of the town, traveling expenses are high, averaging about twenty dollars a trip. To meet this expense we must rely on the gate receipts from our home games which average between five and ten dollars a game. Even here we operate at a loss. During the year we have magazine drives, a sale of one kind or another and perhaps a few dances, but even then it is a source of worry as to how to make both ends meet.

I wish to commend Mr. Leyden, our capable coach, for the excellent work he has done and the good results he has attained in his regime as coach; also Miss Finnell, who volunteered her services as coach of the girl's basketball team.

**PRACTICAL ARTS:** One of the most important of the seven aims of education is "Worthy Home Membership," and it is gratifying to realize that in the near future we will be able to offer courses which will give training in the processes of homemaking, a greater appreciation of the home and understanding of its function. Furthermore, since homemaking is a family job, not a one-person affair, certainly it is reasonable to suggest that boys as well as girls receive training along these lines. This is a new venture, but an important one, and will undoubtedly take some time for its complete organization. Provincetown citizens have always been interested in its schools, and it is our hope and desire that every citizen will take even greater interest in all matters pertaining to the welfare of the pupils.

Once again we thank you and the School Committee for your wholehearted interest in our work. It has been an inspiration to us at all times and one which has left its mark for good upon our school.

Respectfully submitted,

HUBERT F. GILGAN.

## Report of School Physician and School Nurse

---

Mr. Charles A. Harris  
Superintendent of Schools  
Provincetown, Mass.

Dear Sir:

Herewith we have the honor to submit the annual report of the School Physician and School Nurse for 1930. It is pleasing to state that each year more attention is being given by parents to the physical condition of their children and in most cases everything possible within their means is being done to obviate the defects brought to their attention by the school doctor and nurse. During the past year many have had tonsils removed and teeth treated yet it is a deplorable fact that about one-third of the pupils in the schools are in need of treatment for tonsils and teeth, many of these owing to the fact that the parents have not the means to obtain the proper treatment. The health program is supervised by the school nurse and is efficiently conducted by our teachers, not only in nutrition but also in physical education; several regular periods daily with open windows are devoted to physical exercises. These aid in improving posture and physical wellbeing of each individual. The lunch period daily, not only for the underweights but all other pupils, is conducted by the teachers and through these efforts remarkable results have been obtained in weight and health standards; also the importance of proper diet being taught such pupils.

There is a complete weekly inspection and a daily inspec-

tion for contagion with follow up work in schools and home. During the fall months, there was a very serious epidemic of measles; over 200 children were out of school because of this disease during the height of the epidemic. All means for preventing the spread of contagion were employed by exclusion from schools of suspected cases and those who had come in contact with the disease in homes or elsewhere and as a result there were no serious complications or deaths, owing largely to the untiring efforts of the nurse to obtain coöperation from parents in giving proper care in such cases. Consultations were frequently held with State, County and local health authorities to assist in control of this situation. At the close of 1930 two of the pupils are suffering from typhoid fever and several with scabies and pediculosis. These latter cases are easily cleaned up and should be done, otherwise it shows lack of cleanliness on the part of the child and indifference as to condition on the part of the parents.

Provincetown's Child Health Day was recognized in all grades from first to sixth on May 23rd and a fine program rendered in such a manner as to receive credit from the State Department for all our activities in this respect with 413 pupils taking part.

Award tags were given those found physically fit, teeth tags to those with clean mouths and from an enrollment of 413 pupils, 225 produced certificates from their family dentist, certifying that all necessary dental work had been done. All meetings pertaining to child health and school nursing, the Cape Cod Health Club (monthly), and the State meetings in Boston and Bridgewater were attended by the nurse.

All cases of child neglect were reported to the M. S. P. C. C. and frequent consultations held with their agent during her visits in town. The annual census of seven cripp-

pled children was taken and histories sent to Mass. Dept. of Education and Child Welfare.

The Travelling Mental Clinic from Waverly was here during the week of September 10th; 42 histories of children three years "retarded" were taken previous to the arrival of the Clinic, requiring much additional work on the part of the nurse in obtaining these records.

A psychiatric test was given these children and the diagnosis made from these examinations will be of material assistance in their future welfare.

A summary of the physical defects found by the School Physician is as follows:—

Number enrolled	733
Number examined	701
Defective tonsils	281
Defective teeth	214
Defective hearts	14
Anemia	6
Acne	5
Defective lungs	2

Activities of School Nurse are as follows:—

At this time it seems proper to express our appreciation for the assistance rendered in the interests of good health, by State, County, local health authorities, the School Committee, Superintendent of Schools, teachers and parents; also to thank the teachers for their very efficient and courteous assistance given during the annual physical examinations.

Respectfully submitted,

C. P. CURLEY, M. D.,  
School Physician.

## Report of Music Supervisor

---

Provincetown, Mass.  
January 15, 1931

Mr. Charles A. Harris  
Superintendent of Schools  
Provincetown, Massachusetts

Dear Sir:

I herewith submit my annual report as Supervisor of Music. The children have shown a decided increase in interest in their music study the past year and rapidly increasing efficiency has resulted. Rhythmic Orchestras have been organized as in previous years and the children are most enthusiastic. Instrumental classes in piano and violin are being formed in the schools. Not less than ten and not more than fifteen will form a class.

Children desiring to take violin lessons must purchase their own instrument. The fee for these class lessons in piano or violin will be twenty-five cents for a lesson.

Children interested in piano study may take these lessons even though they haven't a piano in their home. Each child pays the small sum of two dollars for music and materials which includes a pasteboard keyboard. Children who haven't pianos practice on the silent keyboards when they are at home.

The piano is the most widely used instrument in the

home. Children who learn to play the piano find the knowledge gained thereby to be of great benefit in the study of other instruments. The piano class helps to locate talent. It gives the child an opportunity to compare his work with others. While one or two pupils play at the piano, the others pretend to play on their silent keyboards; each child, however, having a turn to play at the piano each lesson. In these piano classes, the children learn practical harmony and transposition from the start. These classes will be held after school hours.

In closing, I wish to thank the Superintendent, School Committee, and teachers for their coöperation.

Respectfully submitted,  
BEATRICE M. WELSH.

**Class Ode**

The turning point has come  
 We change our course, relying  
 On fate to bring us to our goal.  
 But fate itself, severe, misguiding,  
 Will bear the influence of our work.  
 A stalwart spirit ever striving,  
 Working, with faith untiring,  
 Will terminate our efforts; and arriving  
 We will find that these attempts  
 Have brought us failure or success.
