## TOWN MANAGER'S REPORT

Honorable Board of Selectmen  
Provincetown, Massachusetts

### In General

The fulfillment of the duties and responsibilities of our office requires activities that fall into three basic categories, (1) implementation of daily services, (2) the installation of improvement projects and (3) the encouragement of special matters vital to community progress. We shall undertake to briefly summarize the efforts in these categories which occurred in 1966.

#### Implementation of Daily Services

Examples of the daily services outside of Town Hall are, highway maintenance, water maintenance and pumping, care of patients at the Manor, Library services, police patrols, etc.

Inside regular services include such things as assessing, the issuance of tax and water bills and others, collections, the keeping of Town records, and Welfare services. These activities require meetings with the Board of Selectmen, conferences with Department Heads, Department Head Meetings for discussion of policies, rules and regulations, etc.; advertising and receiving bids on materials; acquisition of new equipment, such as the police cruiser; the 4-wheel drive loader for the Highway Department; the compressor for the Water Department; preparation of the Budgets and meeting with the Finance Committee in relation thereto; and general personnel administration.

#### Installation of Improvement Projects

These are capital outlay projects for which the citizens at Town Meeting authorized the necessary funds to accomplish. Examples of this category of activity would be the building of stretches of new sidewalks; constructing retaining walls, Chapter 90 road construction; water main extensions; exploration and testing for additional water supply. Also included would be the three emergency projects, namely, installation of the steel bulkhead which supports the Wharf Parking Lot; repairs to the expansion joints at MacMillan Wharf; and rebuilding the pumps at the Freeman Street draining pumping station. These matters require the preparation of specifications, advertisement and receipt of bids and awarding of contracts, and scheduling and generally supervising the projects.

#### The Encouragement of Special Matters Vital to Community Progress

During 1966 there occurred considerable activity relating to matters in this category:

(a) The Harbor of Refuge. Met with the Harbor of Refuge Committee and Corps of Engineers several times to assist in developing an acceptable plan for a breakwater which would, upon its installation, create the Harbor of Refuge for Provincetown. Such a plan had to be acceptable not only

to the fishermen and citizens of Provincetown, but also to the Corps of Engineers from a standpoint of the cost-benefit ratio, as well as meeting desirable design criteria. Such a plan was evolved and at year's end the Corps of Engineers was ready to report the plan favorably to Washington.

(b) With the aid of the Master Plan Consultants a brochure was developed stating Provincetown's case for consideration by the Federal Selection Committee with regard to the establishment of the **Federal Oceanographic Institute**, and we made a presentation of the facts and available facilities to the Site Inspection Team which visited Provincetown relative to this matter. One hundred and fourteen (114) towns and cities on the East coast are vying to be selected as a site for this highly desirable installation. We attended the Governor's presentation on behalf of all the interested Massachusetts cities and towns.

(c) A Compromise Congressional Bill authorized the establishment of two **Marine Protein Concentrate** plants in the United States, one to be a newly built plant and the other to be leased. The Master Plan Consultants (Community Planning Services, Inc., Mr. John Atwood, President) are working with us now to develop the best possible brochure to justify the locating of such a plant here in Provincetown which could have a tremendously beneficial economic impact on our community. We shall leave no stone unturned in our efforts to secure one of these plants for Provincetown.

#### (d) National Seashore Matters.

1. An agreement was executed with the National Seashore which provides that the Department of the Interior will pay the town \$1,750.00 annually on account of our willingness to supply our fire equipment in emergencies.

2. We have opened negotiations which would permit us to develop sources of water supply at specified locations within the National Seashore.

3. Together with Provincetown's representative to the Advisory Council, (Mr. Nathan Malchman) and with the Governor's representative to the Advisory Council, (Mr. Josiah Child) we have urged the Department of the Interior to develop a topnotch 18-hole golf course at the environs of the present 9-hole course at Highland Light. At present the National Seashore has agreed to extend the leasing of the present course for a period of two additional years after 1967 so as to allow time for future consideration for the development requested.

4. After conferences relating to the subject, the National Seashore secured for Provincetown from Government Surplus a 22-ton bulldozer in excellent condition which they have leased to us for \$1.00 to be used in maintaining the Town Dump.

(e) Have collaborated with the Parking Study Committee in their efforts to find solutions to the pressing need for additional parking facilities. Progress has been made and the Committee will make recommendations at the up-coming Annual Town Meeting.

(f) Worked with the Manor Addition Committee and the architects (Walter M. Gaffney Associates Inc.) and the proper State officials in the development of plans for a new Cape End Manor facility.

(g) The Trustees of the Library, a Library Planning Consultant (required for grant purposes), and the architects have cooperatively worked to develop plans for an addition to that facility. Funds provided through a bequest to the Library made this preliminary planning possible.

(h) Reorganization of the Cemetery Department occurred in the fall of 1966 when our office assumed the duties and responsibilities of the Cemetery Commission. It is planned to begin in 1967 billing owners of non-perpetual care lots for annual care. Up until now the people who have provided perpetual care are also paying taxes, a portion of which is used to defray the cost of paying for the care of the non-perpetual care lots. For this reason and for the further reason that a reasonable lot care charge to the non-perpetual care lot owners, would help to make the cemetery operation more nearly self-sustaining, we feel compelled to start this new program.

(i) During the summer of 1966 an obnoxious odor in the Beach Point area created serious problems there for property owners of both Provincetown and Truro. A concerted effort on the part of citizens of the area, the Selectmen of Truro and Provincetown, and yours truly was launched to acquaint the Governor, the Massachusetts Division of Waterways, the United States Senators and Representatives and other public officials with the facts and to request consideration. Emergency Dredging was provided by the State, at no cost to either Provincetown or Truro.

(j) Upon the recommendation of our Planning Board at the March Annual Town Meeting, the citizens authorized and provided money for the acquisition of the Railroad right-of-way from Conwell Street to Howland Street. This matter has been fruitfully pursued and we expect to receive the deed to this property shortly.

(k) The State Legislature passed the so-called Mandatory Collective Bargaining Law which became effective February 15, 1966. Since then, in compliance with the provisions of that law, we have engaged in several collective bargaining sessions with the Committee representing our Town employees, and at year's end substantial progress had been made.

(l) The Town's future water supply is a matter which has commanded our serious attention. During 1966 exploration and testing revealed three sites believed to be capable of producing approximately 3,000,000 gallons per day. Two of the sites are within the National Seashore and are presently the subject of negotiations previously referred to. The third site is located on private property which we will recommend that the Town acquire. Other recommendations will be forthcoming in the future so as to assure adequate water supply for the Town for many years to come.

(m) We have been actively interested in the sustained effort of the many citizens who envisioned and brought into being PALA (Province-

town Academy of the Living Arts). During 1966 PALA became incorporated and now enjoys an ever-increasing membership. Its ultimate goals of a summer festival of the performing arts, together with a school or college which would major in the teaching of the performing arts, when realized, will contribute much to both the cultural and economic well-being of Provincetown.

(n) Chairmanship of the OEDP (Overall Economic Development Program) Committee of Provincetown-Truro has offered stimulating challenge and required substantial effort. The OEDP organization and functioning is a requirement of the former ARA (Area Redevelopment Administration), presently the EDA (Economic Development Administration), and their consideration relating to Federal grants. For example, OEDP Committee approval was required in connection with the Federal participating grant which enabled us to build the new standpipe and to install other improvements to the water distribution system. One of the Federal requirements for continued classification as an area eligible for EDA assistance grants is that the OEDP reports be updated and approved annually. Provincetown-Truro's annual OEDP Report was prepared by us early in the year 1966 and was approved by the EDA. Therefore, we are eligible for EDA grants up to 80%.

In its meetings throughout the year the OEDP Committee has discussed, considered, and approved most of the foregoing matters of community interest and concern, especially those projects for which future Federal grants may be desired.

(o) Our office has conscientiously maintained amiable working relations with State and Federal officers, departments, agencies and organizations, such as the United States Senators and Congressmen, the State Senator and Congressman, Barnstable County officials and Selectmen's Association, Massachusetts Department of Public Works, the U. S. Corps of Engineers, Massachusetts League of Cities and Towns, and the National Seashore.

#### Appreciation

I wish to extend my thanks to the Board of Selectmen, the Town Officials, the Department Heads, the Town Employees, and the Citizens whose cooperation and help have made possible the accomplishments of 1966.

ROBERT A. HANCOCK  
Town Manager

# REPORT OF THE POLICE DEPARTMENT

Mr. Robert A. Hancock  
Town Manager  
Town of Provincetown

Attention: Honorable Board of Selectmen and Finance Committee

Gentlemen:

We are pleased and privileged to present the Annual Report of the Police Department for the year ending December 31, 1966.

It is particularly gratifying to direct your attention to the low traffic accident rate which has kept the Town in the low insurance zone as set by the Commissioner of Insurance. This has resulted in the savings of many dollars to every automobile owner in our community.

I am quite proud to be the head of a department which has kept Provincetown free from any serious crimes. I point with pride to our statistics which reveal no known murderers or serious sex offenders.

Our Town has grown; traffic is an ever increasing problem; society seems to depend more and more on the Uniformed Officer for assistance to enable us to live in harmony in today's complex existence. However, we are not overly apprehensive, with intelligent planning and cooperation from the citizens of our community, we look with confidence toward the future.

Respectfully submitted,

FRANCIS H. MARSHALL  
Chief of Police

## CRIMES PROSECUTED

Veteran's Hospital	1
Total	150

#### ANALYSIS OF WORK SCHEDULE

During the past year, the total number of working hours for the department was as follows:—

Working Hours	25,853½
Special Detail (overtime)	760
Court Room Time	1,100½
Total	27,714

Each member of the department works a 48 hour week and is entitled to a two week vacation, 10 holidays and 12 days sick leave.

When an officer has served on the department for a period of 10 years or more, he is entitled to a three week vacation.

#### ANALYSIS OF EXPENDITURES

	1965	1966
1. Salaries and Wages	\$46,610.00	\$48,926.78
2. Outside Services	9,282.11	10,164.08
3. Travel commitments (Prosecutions, conferences, etc.)	2,089.19	1,902.43
4. Radio Maintenance	55.72	42.58
5. Telephone	661.36	824.94
6. Food for Prisoners	181.95	268.15
7. Office Supplies	498.54	504.61
8. Equipment	402.05	377.74
9. Gasoline (now have town pump)	69.64	
10. Service and Repairs	587.57	777.15
11. Tires and Tubes	121.21	96.80
12. Photography	240.32	103.21
13. Education	372.20	637.83
14. Uniform Allowance	424.93	543.65
15. New Cruiser and Utilities	2,295.00	2,000.00
16. Riot Control Equipment	588.05	
Total	\$64,479.84	\$67,169.95

The following monies were turned over to the Town Treasurer:

Worker Identification Fees	\$705.00
Police Report Fees	170.40
Parking Meter Collections	21,021.50
Pistol Permit Fees	16.00
Dealer Permit Fees	10.00
Fines, Second District Court	2,467.00
Total	\$24,389.90

## REPORT OF THE FIRE DEPARTMENT

To the Citizens of Provincetown:

I hereby submit my annual report of the Fire Department for the year ending December 31, 1966.

There were a total of 58 fire alarms during the year, as follows:

	Full Alarms	Still Alarms
Dwellings	8	8
Restaurants, clubs	1	1
Motels, Inns	3	
Dump	6	5
Grass-woods	5	2
(1 Mutual Aid to Truro)		
Automobiles	3	2
Boats		1
Stores	1	1
Plants	1	
Wash gas spills		4
False alarms	2	5
Cause of fires:		
Sparks from chimneys, rubbish etc.		14
Overheated cooking or heating units		9
Matches and smoking		5
Defective wiring, short circuits		4
Incendiarism, vandalism		4
Explosion		1
Spontaneous combustion		1
Undetermined or suspicious origin		9

Estimated property damage for the year is \$124,387.00. The reason for this high figure is that there were two big fires which together caused approximately \$100,000 damage.

Fire drills at schools and inspections of Nursing Homes and the Manor were held periodically.

In May all units of the department participated in a Civil Defense practice alert, and responded to simulated fires and rescue calls at various points in town.

During Fire Prevention week drills and demonstrations were held, and pamphlets and posters were distributed to schools.

Numerous complaints and smoke scares were received and checked out.

Fifty-three permits were issued for open air fires.

Some of the major purchases made during the year include:

- 1 Scott Air Sling
- 1 3,000 watt alternator generating plant

- 11 pairs firemen's boots
- 3 5-gallon containers of high expansion foam liquid
- 1 Vari-a-fog playpie
- 2 CB band 2-way portable radios (For Rescue Squad use)

We also purchased 2 portable 2-way fire-band radios and 10 Instalerts with the \$2,500 appropriation voted at last year's Town meeting.

Renovations and repairs to the Johnson Street firehouse are continuing, and the Panel-Utility truck has been painted.

We are presenting an Article this year requesting appropriation of funds to purchase a new fire truck. The truck presently housed at Number 3 Firehouse is just about worn out. It broke down several times during the past year, once at a bad East End fire.

In conclusion we wish to thank the Town Manager, Selectmen, all Town Departments, Red Cross and Civil Defense units and the citizens of Provincetown for their cooperation throughout the year. We also thank Police Chief Marshall and the members of his department for their assistance and cooperation at fires and other emergencies.

Respectfully submitted,

BOARD OF FIRE ENGINEERS  
 JAMES RODERICK, Chief  
 FRANK CARREIRO, Deputy Chief  
 WILLIAM PIERCE  
 HERMAN RIVARD  
 JOSEPH ANDREWS  
 JOHN ALEXANDER  
 WARREN COSTA (resigned 12/31/66)

## REPORT OF THE RESCUE SQUAD

Board of Fire Engineers  
 Provincetown, Mass.

Gentlemen:

I hereby submit my annual report of the Rescue Squad for 1966.

Oxygen calls	46
Home Accidents	18
Auto Accidents	15
Unnecessary calls	15
Beach Accidents	4
Near Drownings	2
Motorcycle Accidents	2
Calls to Cape End Manor	6
Hospital beds set up	3

### Extra Duty

Football games	5
Horse Show	1
Standby—Fourth of July and Labor Day	5
Sunday standby	4
	<hr/>
	126

Respectfully submitted,

LEO J. MORRIS, Captain

## REPORT OF THE HIGHWAY DEPARTMENT

Mr. Robert A. Hancock  
Town Manager  
Provincetown, Mass.

Dear Mr. Hancock:

I herewith submit my report as Superintendent of the Highway Department for the year 1966.

A new parking lot on Town owned property, on the easterly side of Shankpainter Road was completed by Public Works.

Chapter 90 funds were expended on Jerome Road.

Under Chapter 679, resurfacing of Bradford Street, from Nickerson Street to Franklin Street was completed. Cemetery Road under the same chapter, was also completed.

Approximately one thousand feet of new sidewalk was completed by Public Works from Cook Street to Bangs, Whorf's Court to Franklin and from Cottage to West Vine Street.

Various streets throughout the town were seal coated.

Litter baskets were installed on Parking meter posts to help alleviate the litter problem and more will be bought this coming year.

Repairs on the Johnson Street Fire House were done by Public Works with supervision.

I wish to thank all for the cooperation and assistance I have received and to state that your continued support of our programs will result in better streets and lower maintenance.

Respectfully submitted,

PETER PERRY  
Superintendent, Highway Department

## REPORT OF THE LIBRARY TRUSTEES

Upon the retirement of Mrs. Marion B. Haymaker, the Trustees recommended that Mrs. Natalie Patrick who was Assistant Librarian, and Mrs. Alice Joseph be appointed Librarian and Assistant Librarian respectively. Mrs. Joseph had been Assistant Librarian several years ago.

The remainder of the bequest of Miss Frances Gifford was received, \$5,721.01. Last year, \$10,500 was received.

The Bartlett Tree Experts continued their care of the Library trees by sprayings in May and June.

The Trustees with Mr. Hancock, Town Manager, went on with the plans for an addition to the Library. The Trustees hope that a grant from the Federal government will help in this fulfillment of a hope of many years. It is necessary that this be administered through the Division of Library Extension, Massachusetts Department of Education. Mr. Kenneth Shaffer, Director of Library Science, Simmons College is the Library Planning Consultant who is working with Mr. Albert Niemi, architect of Gaffney Associates, Inc. and the Trustees in carrying out the requirements of the Massachusetts Department of Education.

JOSEPH LEMA, Chairman of the Trustees  
VIRGINIA W. ANDREWS

## REPORT OF THE LIBRARIAN

The last year at the library went by quietly and quickly. I think the most pleasant of the townspeople come to the library.

Mrs. Marion Haymaker, who served the library so well for the past years, resigned in the latter part of June. She is missed a great deal, especially by our out-of-townners who missed her this past summer.

I took over the librarian's desk on July 1st and Mrs. Alice Joseph took the assistant's desk upstairs. Together we made a count of the books on both floors and found there were 18,254 volumes.

We bought 478 books this past year—new ones from the Library Book House in West Springfield and replacements from the Nathaniel Dame Co. in Medford.

There were many gift books. Among them was a great quantity given us by Judith Smeraldo. We already have 42 processed and on the shelves. The Encyclopedia Americana is donated in memory of Gloria Marrianna. There were also gifts from Mr. and Mrs. William Knoles, Professor

John Spaulding, Miss Anne DeGuichard, Mrs. Hope Pfeiffer, Mrs. John McCoy, Munro Moore, Mrs. William Watts, one from the Nautilus Club and three in memory of Andrea Brown.

The publishers of The Diario de Noticias, America's only daily newspaper published in Portuguese sent us a subscription to their paper.

Our new books have Plastikleer covers which make our books much more attractive and enticing.

In November, Mrs. Joseph, Mrs. Virginia Andrews and myself attended the Children's Book Fair in Boston and chose a number of children's books from their selection.

NATALIE PATRICK, Librarian

## ASSESSORS' REPORT

### VALUATION OF ASSESSED ESTATE

January 1, 1966

Value of Assessed Personal Estate

## REPORT OF THE SHELLFISH CONSTABLE

Mr. Robert A. Hancock  
 Town Manager

Dear Mr. Hancock:

I hereby submit my annual report as Shellfish Constable of Provincetown for the year 1966.

In the months of September of this year twenty-five bushels of quahogs were planted by me at the east side of the West End breakwater. In addition to this, the Shellfish Committee also planted a large amount of shellfish.

During the six-month period in 1966 when the clam flats were open to the public, two hundred seven 10-qt. buckets of quahogs and three hundred eighty-five 10-qt. buckets of soft-shell clams were harvested by the citizens of Provincetown.

I wish to take this opportunity to thank our Town Manager, Mr. Hancock, and all other Town officials and citizens who have cooperated with me in my duties as Shellfish Constable.

Respectfully submitted,

JOSEPH S. VENTURA  
 Shellfish Constable

# REPORT OF THE WATER DEPARTMENT

Mr. Robert A. Hancock  
Town Manager

Dear Mr. Hancock:

I hereby submit my annual report of the Provincetown Water Department for the year 1966.

I am happy to report that most of the work pertaining to Article 22, Water Mains, passed by the voters of Provincetown, has been completed.

In the past year we have had several complaints about rusty water. At the present time we are in the process of installing equipment at the pumping stations for the prevention of rusty water. We hope to put this into effect this spring. Until his project is completed, of course for a while we will still have rusty water until it is flushed out of the system. Eventually the water should clear and stay that way.

The work done by the Water Department is as follows:

Installed 6" transite water main with fittings and services, including one hydrant, Pleasant Street Extension to Franklin Street Extension.

Installed 6" x 6" tee and valve off Pleasant Street. Mrs. Mary King's water main to take care of new house and house lots.

Installed 12" x 8" tapping sleeve and valve on Shankpainter Road, water to take care of lots to be developed.

Installed 8" transite water main and service, including hydrant at the end of Webster Place.

Put in new 6" transite water main and services on Freeman Street from Standish Street to Commercial, not completed, to be tied into 10" main on Commercial Street.

Relocated hydrant on corner of Commercial and Freeman Streets.

Installed 10" x 8" tapping sleeve and valve at Clifton Nelson's property, State Road, for house lots.

Painted Water Department Garage and made several repairs to building which were needed.

Joe Smith and men have been doing the same to Old Pumping Station.

## Recommendations:

Standpipe at Veterans School needs a paint job this year.

Soper Street, at the West End of Town is very much in need of a water main and should be taken care of before the summer arrives.

Central Street is another, with the same problem.

My sincere thanks to all, including all departments for their help and for being so kind and understanding. This makes my job so much easier.

Respectfully submitted,

ARTHUR E. MEDEIROS  
Superintendent of Water Department

## 1966 TOTAL PUMPAGE OLD STATION — NORTH TRURO

**REPORT OF THE TOWN HALL CUSTODIAN**

Mr. Robert Hancock  
Town Hall  
Provincetown, Massachusetts

Dear Mr. Hancock:

At the end of my fifth year as custodian of the Provincetown Town Hall, I herewith submit my 1966 annual report.

On the first floor are located Town Offices, Court of the Second Barnstable District, and Probation office.

On the second floor of this 80-year old building is the largest auditorium on Cape Cod with a capacity of more than 700 persons. Here are held Town Meetings and many other public and private gatherings.

The offices in the Welfare Department were all completely painted. The cement floors in the basement were painted, with Mr. Joseph Crowley assisting me.

The auditorium walls, trim and finish work and floors, including the hallways and rest rooms, were completely painted with Joseph Crowley, Water Department and Cemetery Department assisting.

The outside fire escape was given a first coat of black paint.

The septic tank in the back of the Police Station was completely overhauled and new parts installed.

Respectfully submitted,

**ROBERT K. SOUZA**  
Town Hall Custodian

**REPORT OF THE WELFARE DEPARTMENT**

The year 1966 has been a year of change in the Welfare Department. After nearly fourteen years as Agent or Director, Irving Rogers retired in October to take a position as Administrator of a new extended-care facility in Arizona. Since his retirement, the author of this Report has been appointed Director and Mrs. Ann Phelps has taken her place as Social Worker. We are glad to note that Miss Frances Peters remains as Clerk and Mr. Anthony Travers as Social Worker.

In addition to these changes in local personnel there have been noteworthy changes in the State's Welfare programs and administration. In September, 1966, the category known as Medical Assistance for the Aged was discontinued and its functions assumed by a new program known simply as Medical Assistance. This MA program, commonly called Medicaid, provides medical assistance to certain other persons in addition to the aged and replaces the provisions for medical care in the programs known as Old Age Assistance (OAA), Disability Assistance (DA) and Aid to Families with Dependent Children (AFDC). Now the OAA, DA and AFDC programs provide for financial needs of recipients, while MA provides for medical needs. With this in mind, it will be easy to understand the decreases in 1967 budgets for OAA, DA and AFDC and the increase in the Medical Assistance budget.

	1966 Total Expense	1967 Total Estimated Expense	1967 Estimated Town Share
OAA	\$87,239.79	\$78,000.00	\$36,000.00
DA	25,888.79	15,200.00	7,700.00
AFDC	18,143.96	17,500.00	11,000.00
MA (A)	94,793.78	133,400.00	68,400.00

The Medical Assistance program has been set up in accordance with the provisions of Title XIX of the Social Security Act. In effect, it is an extension of Medicare, paying for the aged those medical bills not covered by Medicare and paying medical bills for medically indigent persons under the Medicare minimum age of sixty-five. Application for MA must be made with the Welfare Department in the city or town where the applicant resides.

The following people are eligible for the MA program, provided they meet the financial eligibility requirements of MA:

1. All persons who are already receiving OAA, AFDC or DA.
2. All persons who are eligible for OAA, AFDC or DA but have not yet applied for one of these programs.
3. All persons who are eligible for OAA, AFDC or DA except for the residence requirement inherent in these programs or the income or personal property requirements of said programs.

Financial eligibility requirements for MA, less stringent than those of other categories, are as follows:

1. An individual is allowed **personal property** up to \$2,000. A married couple or family of two is allowed personal property up to \$3,000, with an additional \$100 for each additional dependent member of the family. (**Personal property** includes bank deposits, securities, cash surrender value of life insurance, cash on hand or similar assets readily convertible into cash.)

2. An applicant may own **real property** used as a home or from which he is absent because of physical or mental illness. Ownership of vacant land from which no income is derived affects eligibility. However, an applicant may become eligible by agreeing to take immediate action to dispose of it.

3. Monthly **net income exemption** is \$180 for an individual and \$56 for each additional family member. Any excess income is applied to the family's medical needs.

4. A person with income who is a patient in a nursing home, chronic hospital or medical institution such as the Cape End Manor is allowed a **personal needs exemption** of \$23.60 a month. If his/her spouse is living outside an institution the spouse may retain up to \$225 a month for maintenance.

5. **Relatives' responsibility** is limited to the responsibility of husband for wife and parents for children under twenty-one or children who are blind or otherwise disabled.

6. There is no restriction on the amount of **life insurance** a person may have. However, the cash surrender value of life insurance must be included when figuring the personal property exemption.

The number of applications for Medical Assistance has already increased substantially since the program was expanded to include persons under sixty-five. At the request of the State Department of Public Welfare we are distributing informational pamphlets in such a way that we hope one will reach every low income individual or family in the community. Thus publicized, our MA caseload will increase infinitely, with an inevitable increase in expenditures. However, the Federal Government reimburses the Town fifty percent of the costs in this category and the State pays two-thirds of the remainder. Also on the credit side of the ledger, we have been saving money on medical bills for our clients over sixty-five, almost all of whom are now enrolled in Medicare. We had hoped to quote amounts showing the percentage of decrease, but bills are coming through so slowly from the Massachusetts Medical Service—Medicare "carrier" in our State—that we have no conclusive figures to use.

We have been talking about the drastic changes in the Welfare Department in 1966. There were a great many lesser developments in policy and procedure. All these changes come to the local offices in official letters from the Massachusetts Department of Public Welfare. There have been thirty-five such letters this year. Most of them involved more than one change; some of them incorporated many changes. To expedite the more important changes our workers have attended several regional

meetings with District Office personnel. Mr. Rogers attended the Massachusetts Public Welfare Association's three-day Conference in Amherst last June; this Director went to Boston in November for two days of lectures and institutes under the auspices of the Massachusetts Conference on Social Work. She also took and passed a Civil Service examination given in August for promotion to Director. In December Mrs. Phelps took her Social Worker's examination, results of which are not yet published. Mr. Travers spent two days in New Bedford in August attending an orientation course. Early in 1967 Mrs. Phelps must go to Boston for a two-week course which will be continued later in the year.

We mention these meetings, conferences and educational activities not only to explain our administrative travel expense but also to show that we are conscientiously working to improve the quality of our services to the community. "Services" is the watchword of Public Welfare today, a word which indicates the radical change which has taken place in the attitudes of our lawmakers and administrators since the old days when "Relief" was our theme. Certainly we are still concerned with the relief of financial need, but we go far beyond that basic need in our current program. We provide, for example, services designed to improve physical and mental health; to strengthen family life; to enable adults to realize their maximum capacities for support of themselves and their families; to assure children an opportunity for maximum development of their individual capabilities; to improve social functioning of clients; to protect them from neglect or exploitation; to enable them to remain in or return to their own homes or community.

To provide these services it is necessary for us to work with other persons or agencies: schools, churches, funeral directors, physicians, hospitals, clinics, nurses, pharmacies, nursing homes, Cape End Manor, Homemaker Service, lawyers, court officers, police departments, charitable organizations, Social Security Administration, Massachusetts Division of Employment Security, banks, insurance agencies, other Town departments, clients' relatives, friends or landlords. These individuals and groups have been gratifyingly helpful and we appreciate their cooperation. It lightens our load and shortens the time necessary to achieve a desired result.

Nevertheless, the problems keep multiplying. Like the Hydra's heads, when one is cut off two grow in its place. We can close the year's financial accounts every December 31st, but we cannot write finis to the casework "Services". These go on, one leading to another in a neverending chain. This is what makes our jobs interesting and what keeps us busy in the Welfare Department.

AMY B. MCKAIN

Welfare Director

## REPORT OF THE CAPE END MANOR

The past year has been a full and ever-changing one for us at the Manor. Our present census is at capacity, 26 patients, with no vacancies. We have a patient day count of 9,307 for 1966, which shows that we lost the equivalent of 183 patient days because of vacancies, most of which occurred during the summer months. We have had a total of 14 admissions and 14 discharges; we cared for a total of 40 patients for the year, and the total amount of receipts collected for 1966 is \$99,173.17. The amount of money appropriated for operating expenses was \$25,575.00. The actual amount expended was \$23,843.94, leaving a balance of \$1,731.06 which was turned back to the Town. The appropriation for personal services was \$67,216.25. We actually used \$66,946.84 and turned back a balance of \$269.41. The per diem rate, as established by the State Bureau of Hospital Costs and Finances, was \$10.68 for the year 1966. We have not as yet received the per diem rate for 1967.

We have had 12 requests for a bed during the past year that we were not able to take advantage of because we had no vacancy at the moment. By the time a vacancy occurred, other arrangements had been made and the people were no longer interested. Several of these requests were made by people who would like to be admitted to the Manor if ever the need arises. In other words, they are not ready to go live at the Manor at the time of their call but they want to be assured of an available bed in case of sudden illness. It doesn't always work out that way; no one can reserve a bed for some indefinite date in the future. That is what happened last summer. We had quite a sizeable waiting list and yet when we suddenly had several vacancies and started calling people we found they had either been placed elsewhere and their families did not wish to disturb them further or that those people who were living by themselves were feeling all right and were expecting the grandchildren or other members of their family to arrive on vacation and were not ready to be admitted "at this time; but, please, keep my name first on the waiting list". As it turns out, our waiting list is a list of people who would like to come at some later date. At the present time, we have 17 names on our list but only two prospective patients are actually waiting for an opening. One thing is obvious, 26 beds are not enough to accommodate the requests from the public and the requests made by our Doctors in emergencies. If we had the beds at the time of the requests, we would have the patients. The greater majority of our patients, by far, are long term cases. In fact, all of our people at present are permanent placements.

The Social Security Health Insurance, Medicare, as it concerns Nursing Homes, became effective January 1, 1967. In order to participate in the program, a Nursing Home must be approved and certified as an Extended Care Facility by the Massachusetts Department of Public Health. The conditions of participation as set forth by the U. S. Department of Health, Education and Welfare, are rigid and standards are very high. Needless to say, the Cape End Manor doesn't come anywhere near meeting these conditions. We are stopped right at the door. Condition XV is Physical Environment. The Extended Care Facility must be of fire-resistant construction. You cannot have blind, non-ambulatory or physi-

cally handicapped patients housed above the street level floor. All of our patients are handicapped by virtue of their advanced age. If you have patients' bedrooms above the street floor, you must have an elevator large enough to accommodate a stretcher. You must have a special room for examinations, treatments and other therapeutic procedures. You must have a fully equipped, sound proofed room with separate bathing and toilet facilities for isolation of infectious patients, for those who develop an acute illness or those who are in the terminal phases of illness. Our Nurses' Stations and Utility Rooms are wholly inadequate, both in the lack of proper equipment and the minimum square footage of area. The doors to patient rooms are not wide enough to accommodate beds or stretchers and we do not have enough bathing and toilet facilities in proportion to the number of our patients. If we went to the expense of rectifying these conditions by alteration and/or addition, we would necessarily lose a substantial part of our patient rooms and still end up against the same stone-wall, a building that is not of fire-resistive construction, a made-over, make-shift building of indeterminate age.

The costs of Medicare will eventually be repaid, the Town will be reimbursed by the Federal Government through the fiscal intermediary, which in our case would be the Blue Cross & Blue Shield Association. Most of our patients are Medical Aid recipients. If the Welfare Department expects to be reimbursed by Medicare in the care of their people, the recipients eligible for Medicare will have to be placed in a certified Extended Care Facility. We could still function for the time being as a custodial care facility but we would gradually lose our patients. The only thing needed to make our "over 65" patients eligible for Medicare is a three day stay in the hospital; this is followed by a period of complete payment by Medicare for 20 days and partial payment, all but \$5.00 per day, for an additional 80 days.

In the process of evaluating Nursing Homes for Medicare, it was discovered what a disappointingly small number can qualify, less than 10% as of this date. As a result of this survey, rules and regulations will be much more stringent in an effort to bring up the standards of all Nursing Homes. This is a case where excellent nursing care is required and expected but it is not sufficient. The Cape End Manor applied for its license renewal in July 1966. We had 3 State Nurse Inspections in 1966, the last one was December 20, 1966. At that time she was here with the Architect's Plans for the proposed new Manor. She told me that we would receive our license to operate in 1967 only on the basis that those plans had been submitted to Dr. Rubenstein's office and showed that we were trying to improve on our existing Facility in Provincetown.

I will take this opportunity to thank our many friends and supporters for thinking of us during the Holidays as well as the entire past year. Our special thanks to the members of various organizations of Provincetown, North Truro, Truro, Wellfleet and Orleans who have worked so faithfully to keep us supplied with bed-pads. Yours is a gift that, literally, cannot be bought and therefore so much more valuable.

ALICE L. REIS, R.N.  
Administrator and Head Nurse

## REPORT OF THE LABORATORY TECHNICIAN

Private Out Patients	
House calls	28
Office calls	198
Number of tests	391
Lab. fees	\$732.60
Public Assistance Patients	
Number of tests	117
Lab. fees	\$171.30
Cape End Manor Patients	
Number of tests	180

This is the ninth year since the Provincetown Laboratory was established and each year the growing number of tests shows its true value to the town.

In the past years the Laboratory has been limited to twelve tests but with the new Coleman Electric Colorimeter Machine the Laboratory has acquired there will be more tests available.

Submitted by,

LOUISE PERRY  
Laboratory Technician

## REPORT OF THE TOWN NURSE

Chest clinics are held on every third Thursday of the month by the Barnstable County Hospital. Appointments are made by your local physicians or by calling the Health Office.

This year June 23, 1966 the Health Office was inspected and certified for Health Insurance under Social Security by Miss Mildred Foster of the Commonwealth of Massachusetts Department of Health.

Because of Medicare, a cost study was done and it was found that it cost the Town of Provincetown \$4.27 to provide nursing services for one person. The Advisory Board then set the rate for Home Visits at \$4.25 per visit and any time spent in the home after 1st hour an additional \$2.25 or any fraction thereof. The rates for any office visit was set for \$2.00.

The rate for the emergency category, that is ambulance and delivery or maternity cases, was set at the same figure as the rate for house visits, while the rate for nights, Saturdays, Sundays, and holidays was set at one-half times the house visit figure.

Attorney Frederick W. Long of Provincetown was elected chairman of the Medicare Committee, which includes Thomas Perry, M.D., Madalene

Winslow, D.O., Robert Hancock, Town Manager, Joseph Lewis, Director of Public Health, Kay Perry, Elsie Witherstine, Doris Enos, and Anna Moon, registered nurses.

Respectfully submitted,

DORIS M. ENOS, R.N.

## REPORT OF THE CHAMBER OF COMMERCE

Mr. Robert A. Hancock  
Town Manager  
Provincetown, Massachusetts

Dear Sir:

At this time I wish to submit the Annual Report for the year 1966 of the Advertising in newspapers and magazines. Under the Acts of 1953, Chapter 206, the Town appropriated at the Annual Town Meeting held in March 1966, the sum of \$3,000.00. All of this money is put into advertisements in newspapers and magazines during the months of April, May and June.

These advertisements are in Sunday and vacation special issues in all the leading newspapers and vacation sheets throughout the country and Canada. Some examples are Boston, New York, Philadelphia, Cleveland, Chicago, Montreal, Toronto and a number of small papers in New York State, Connecticut and New Jersey to name a few.

Returns from this advertising bring more inquiries each year.

Every merchant in Provincetown is benefited by this advertising, hotels, restaurants, gift shops, motels, guest houses, cottages, grocery stores, etc.

We are requesting for the year 1967 that the amount of \$3,000.00 be raised and appropriated for advertising under the Acts of 1953, Chapter 206.

Respectfully,

FRANK H. BARNETT  
Executive Secretary

## REPORT OF THE HARBORMASTER AND WHARFINGER

Mr. Robert Hancock  
Town Manager

I wish to submit my Wharf report for the year 1966.

### MacMillan Wharf Income 1966

Sea Food Packers	\$10,400.00
Boston Provincetown Line	3,000.00
Coast Guard	1,500.00
Cee Jay	150.00
Barbara Lee	150.00
Speed Boats	150.00
Robert Cabral	150.00
Flora K	150.00
Charles Mayo	75.00
Robert Wood	75.00
Jerry Costa	150.00
Justin Avellar	75.00
Albert Avellar	75.00
Telephone	244.10

September 1 to 4	259	259
	8,982	8,859

Total trips made—54

Respectfully submitted,

**STANLEY CARTER**  
Harbormaster and Wharfinger

## REPORT OF THE CONSERVATION COMMISSION

To: The Honorable Board of Selectmen, Provincetown, Mass.

Our Commission has been able to function more satisfactorily this past year because of the reduction of its membership to a five-man body made up of conscientious and dedicated members who not only attended meetings, but took a serious interest in all matters affecting conservation in the Town.

We have kept other Town Boards and officials informed concerning conservation bills and have particularly made a point of sending them literature concerning the Hatch Bill and the Jones Bill, pertaining to the filling of marshlands.

Our Chairman attended a meeting of all Conservation Commissions of Cape Cod where our mutual problems were discussed.

We have supported by letter to our State Representatives all Conservation measures being considered by the State Legislature.

Your Commission and the Truro Conservation Commission sponsored and made the arrangements for a lecture given by Col. Eugene S. Clark in the High School auditorium. The lecture, entitled, "Plants and Flowers of the Upper Wetlands," was much appreciated by those who were able to attend. We are grateful to the School Committees of both towns for giving their endorsement and support of this lecture.

The Commission met with the Cape Cod National Seashore Advisory Commission when Mr. Malicoat, acting as spokesman, made a strong plea to have the Province Lands left, in so far as possible, in their natural state.

The Commission was represented by the Chairman and the Secretary at the hearing in Chatham on January 11 and spoke in favor of having Monomoy designated as a Wilderness area.

We have met with the Chairman of the Shellfish Committee and have given him our assurance that we will support this committee's efforts to improve the shellfish situation in Provincetown.

Respectfully submitted,

PHILIP W. ALEXANDER, Chairman  
 JOSIAH H. CHILD, Secretary  
 ANTHONY LEONARD  
 ROBERT MARTIN  
 CONRAD MALICOAT  
 Provincetown Conservation Commission

### REPORT OF THE TOWN COLLECTOR AND TREASURER

Cash received 1966—\$2,180,699.04.

Warrants paid out—\$1,900,192.58.

Cash as per Treasurer's Cash Book as of December 1966—\$280,506.46.

The Town borrowed \$150,000.00 in anticipation of revenue and this amount was paid on due date.

All notes due and payable in 1966 were paid on due dates.

Trust Funds held by the Town:

Cemetery Trust Bequests	\$99,681.55
Cemetery Trust Income	12,029.45
Cemetery Bonds at Par	12,000.00
Benjamin Small Fund	7,159.40
Post War Fund	28.74
Abbey Putnam Fund	181.74
Anna Dolan Fund	2,362.02
Phipps Fund	313.32
Nancy W. P. Smith Fund	776.01

Total \$134,533.23

Public Library Bequests	\$10,200.00
Cape End Manor Bequests	6,300.00

FRANK S. BENT,  
 Town Collector-Treasurer

## REPORT OF THE AIRPORT COMMISSION

Operations at the Provincetown Municipal Airport, despite a prolonged strike of the major airlines serving Boston's Logan Airport, have again shown an appreciable increase. This is reflected in the increased operations of the Provincetown-Boston Airline, Inc., base-operator, and transient aircraft.

The "radio-homing beacon", which was installed during the late summer of 1965, has finally had all of the kinks ironed out and is now functioning in an excellent manner. The monotor for the beacon was removed from the original location at the Provincetown police station and re-installed at the Race Point Coast Guard Station. This beacon is an invaluable aid during adverse weather conditions, and has been a contributing factor to the schedule operations of the Provincetown-Boston Airline, Inc., during the winter months.

A new "Operating Agreement" has been entered into between the Airport Commission and the Provincetown-Boston Airline, Inc., for a period of three (3) years, to expire December 31, 1969. The agreement calls for a twenty-five percent increase in the annual operating fee.

In the case of M. F. Roach Co. vs the Town of Provincetown, initiated May 26, 1963 is, at the present time, unresolved.

It is anticipated that, come spring, the plane loading ramp will be increased in size to facilitate the handling of passenger traffic.

Respectfully submitted,

WM. W. McKELLAR, Chairman  
ARTHUR MALCHMAN, Member  
MANUEL PHILLIPS, Member

## REPORT OF THE AIRPORT MANAGER

This is the nineteenth Annual Report of the Airport Manager to the Provincetown Airport Commission and to the Town of Provincetown.

This past year once again saw an increase in aircraft traffic at the airport. During the summer months, weekends in particular, traffic has almost reached a saturation point.

The airport now has an approved instrument landing system in conjunction with the radio beacon. At times when the airport is operating under instrument weather conditions, traffic in and out of the airport is controlled by the radar at Otis Air Force Base. With this instrument system, aircraft were enabled to land at the airport under weather conditions that would have prevented them from doing so in past years. The direct "Hot Line" between the airport and the Flight Service Station at

Nantucket is used to file and cancel flight plans and this airport now has excellent facilities for transient aircraft.

The only exception to the above is in the nature of parking and tie-down facilities. In the not too distant future, more parking space must be developed. With more and more transient aircraft using the field every year, it is evident that something must be done soon. At times, aircraft are parked on the grass adjacent to the new taxiway and when there are so many that they have to park on both sides of the taxiway, it then becomes impossible for larger aircraft to use the taxiway at all, defeating the purpose of the taxiway in the first place.

Provincetown-Boston Airline, Inc., carried 14,512 passengers on its scheduled flights to and from Boston. The airline was hurt by the fact that most of the major trunk airlines were on strike for better than an eight week period right in the midst of the usual peak of airline traffic. During this strike period, the airline ran direct flights to and from New York City on the weekends.

It has been an honor and a pleasure to have been appointed to this position. I have enjoyed working with the Provincetown Airport Commission and the Town of Provincetown.

Respectfully submitted,

GEORGE P. FELTON,  
Assistant Airport Manager

## REPORT OF THE DEPARTMENT OF VETERANS' SERVICES

I am happy to report that the year 1966 has been a relatively quiet one for those veterans and their dependents who come under the provisions of Chapter 115, G.L. of the Commonwealth. No serious illness or prolonged hospitalization incurred.

As a result of the recently passed "sales tax law", and the availability of increased funds, the Department of Veterans' Services, Commonwealth of Massachusetts, has made reimbursement to the Town up to and including the month of June, 1966.

Excellent relationship is maintained with all Federal and State offices having jurisdiction of veterans' affairs.

Respectfully submitted,

WM. W. McKELLAR,  
Veterans' Agent  
Director of Veterans' Services

## REPORT OF THE PLANNING BOARD

The past year 1966 has been a particularly active year for the Provincetown Planning Board. Its activities were divided among three categories. We commenced the year with an amplified program in regards to our normal type of business. A great deal of time was spent during the winter preparing various articles and holding the legally required hearings prior to the Annual Town Meeting.

The program was very successful in that all major articles proposed and advocated by the Board were accepted by the Annual Town Meeting. Among the principle articles was the Building Code as redrawn by the board and the proposal to purchase the Railroad property from Conwell Street to Howland Street.

The parking situation, now a major problem to the town, was alleviated somewhat by the construction of the new parking lot on Shank Painter Road. The Town Meeting also voted to set up and finance a Parking Study Committee.

Zoning changes and modifications devised by the Board were all accepted by the town. These articles included the establishments of a new Commercial Zone "P" in the Shank Painter Road area, modification and extension of Class "R" commercial zone, and class "O" was omitted from the code.

After many years of controversy, the Clifton Nelson subdivision was accepted and approved. Several other subdivision plans were also approved after the proper legal hearings were granted.

Action was taken under the new Building Code (Art. XL, Section 8b) on the request of the Building Inspector regarding the East End Cold Storage Building recently damaged by fire. A committee was approved by the Board and reported in due time to the Town Manager.

In addition we were as a body appointed as part of the Parking Study Committee. This was a very active group, and we were well pleased with its accomplishments. Our plans were enthusiastically received by the Selectmen and Town Manager, and we have high hopes that the Town will agree on the various aspects of our thinking.

The third aspect of our endeavors was work on the Master Plan which was finally approved by State and Federal Agencies shortly after the Town Meeting of 1966, and the study is well under way.

The Planning Board and its consultants have been meeting regularly to examine Provincetown's future development. The study so far has considered the town's population and economy, its physiographic structure and land use, its transportation, water and fire fighting systems, and other municipal facilities. Reports on these factors, as well as others as yet unstudied, will be made public from time to time.

Among the economic factors, studies have been made of Provincetown's relation to the ocean. These include the fishing industry and the

future growth of oceanography. Under guidance of the Planning Board applications have been made to the Federal government for consideration of Provincetown as a site for the new experimental programs in both these fields. The Planning Board and its consultants held several hearings relative to the setting up in the near future of a fishing co-operative. The endeavor has started again and prospects of the culmination of this project are hopeful.

Perhaps the most striking result of the study to date is the possible magnitude of the number of future summer visitors. If the National Seashore's estimate for seashore visitation are sound this could mean some 60,000 visitors per day in Provincetown, if facilities are available for them. What to do about this possibility will probably be a major public policy question for Provincetown in the next two decades.

The Master Plan will include analysis of the probable impact of this growth and alternative programs that the town could adopt to meet it.

ROBERT G. GUTZLER, Chairman  
PHILIP MALICOAT  
NICHOLAS WELLS  
MATTHEW COSTA  
ROBERT A. SHARTLE

## REPORT OF THE RECREATION DEPARTMENT

The Staff of the Recreation Department is comprised of a five member Recreation Commission, Robert Collinson, Joseph Collinson, William Allison, Mrs. Irma Aho, and Mrs. Billie DaRoza; Recreation Director, Arthur D. Roderick; Building Custodian, Natalie DeLotto; Summer Assistant Director, Stephen C. Goveia; Playground Supervisors, Mrs. Fran Collinson (East End) and Mrs. Rachel White (West End).

The activities of the year 1966, as Little League Baseball, Swimming Instruction, Basketball, Summer activities, dances, were continued generally the same as the previous years.

Special activities for the year 1966 were as follows:

1. Ice Capades for both Cub Scouts and Camp Fire Girls, transportation was provided.
2. Boston Garden Saturday afternoon Little Guy Basketball participants were invited to see a Boston Celtic Game.
3. Trip to Fenway Park. Little League Players saw the Boston Red Sox.

The building custodian in addition to his regular duties performed the following:

1. Installed Rest Room facilities at Motta Field Field House.

2. Placed the Motta Field Field House on its foundation of cement blocks with the assistance of the Highway Department.
3. Maintained the Water Pump and kept the main lines clean in the Motta Field Water System.
4. Repaired the leaks in the roof of the Community Center.

The town needs a central clearing house for events where organizations may call in to check on activity dates so that the children as well as the adults could have the activities spread over the winter season rather than to have several events in the same week.

ARTHUR D. RODERICK

Recreation Director

## REPORT OF CIVIL DEFENSE

To the Honorable Board of Selectmen and Town Manager:

I wish to submit my report for the year 1966 as Civil Defense Director.

### Radio:

This department, under the supervision of Walter Harding, has drills every Monday night, and has improved a great deal this year. A number of young high school men have taken up Radio so that now we have a great group as Radio operators.

### First Aid:

This unit has given a great deal of their time to Civil Defense, under the supervision of Martha Henrique who has replaced Florence Menangas who has been very sick and under the doctor's care. These girls have attended all classes which will be of great help during any disaster. Mrs. Henrique and Mrs. Carol Days and Frances Carlos have passed their examination as full instructors in First Aid by the American Red Cross.

Classes have been conducted at C.D. Headquarters in First Aid and will continue during the next three months.

### Radiation:

This department is under the supervision of Donald Morris, a graduate from Bridgewater Radiation School, held at the Civil Defense Headquarters there. Mr. Morris has given instruction in Radiation at different times during the year.

### Canteen:

Our canteen has been ready and used during snow storms. It also has been ready to serve coffee and doughnuts to the firemen during any large fire. More equipment is needed and plans are being made to have a first-class canteen.

### Surplus:

This part of Civil Defense has been of great value to Provincetown by getting equipment and material for the different departments at very little cost and saving the Town hundreds of dollars.

I wish to thank the Selectmen and the Town Manager for their cooperation while I have been Civil Defense Director of Provincetown.

FRANK FLORES

## REPORT OF THE TREE WARDEN

I hereby submit my annual report as Tree Warden of the Town of Provincetown for the year 1966.

All complaints of blind corners at side streets were taken care of. Shrubbery, hedges and limbs of trees overhanging the streets and sidewalks were trimmed and cut back. The evergreens were planted back in the island at Lopes Square.

The Elm trees throughout the Town were sprayed for Elm beetle which is the carrier of the Dutch Elm disease. The firm of Bartlet Tree Experts was awarded the bid for spraying at a cost of \$1,169.45. The Bartlet men made three trips here before the trees were all sprayed, due to the increase of windy days. Two thousand gallons of Methoxaclor and Kalthane mixture were used in spraying. The men did a good job.

There were two places sprayed for poison ivy which was growing on Town property. A Colorado blue spruce tree, which was given to the Town, was transplanted in the Town Hall yard, and now the Town has a living Christmas Tree to decorate at Christmas time. A Norway spruce was also given to the Town, and transplanted in the Library yard. Four maple trees given to the Tree Warden were planted throughout the Town. A small leaf linden given to the Town was transplanted in the Town Cemetery.

About twenty shade and ornamental trees were planted for individuals in Town.

We lost a beautiful maple tree on Commercial Street in the middle of the Town. It is sad to me when people do this, especially while others in all parts of the country are trying to beautify their communities. People do not realize how much value they take from their property when they remove trees. "Only God can make a tree."

I admire the older generation that planted those trees so that we can enjoy them today. We must do so again for the future generation to enjoy. Let's plant more trees!

Respectfully submitted,

PHILIP ALEXANDER  
Tree Warden

## REPORT OF THE CEMETERY DEPARTMENT

To the Honorable Board of Selectmen and Town Manager:

As Superintendent of the Town Cemeteries I wish to submit my report for the year 1966. I do so with a deep sense of concern for the various obligations I must continually meet to maintain and improve the graves that mark the resting places of loved ones committed to our care. We have over 3,700 graves to take care of. Due to our Town's financial situation we are unable to do more, as we would like, and yet provide our department with the necessary equipment needed and the men to do the job and do it to the best that can be done.

I would like to take this opportunity to express my gratitude and sincere thanks to the former commissioners, Rev. Lane, Neil Nickerson and John Craves, also to our Town Manager, Mr. Robert Hancock, and the Board of Selectmen. I also wish to express my thanks to the men who worked at the Cemeteries for their great interest in their work. We have four different Cemeteries to care for and this requires men to do the job. These men have shown loyalty to their jobs.

The four Cemeteries that we have to care for are the Gifford and Hamilton, the Town Cemetery, the Old Catholic Cemetery and the old Cemetery on Winthrop Street. A great deal of improvement has been done in the Old Catholic Cemetery so that many of the lots there are now under perpetual care.

Of course water has been a problem but as time goes on more work is being done to improve our water situation so that the graves may be kept green during the hot summer months.

I wish to thank the Finance Committee for listening to me and also for cooperating with me in times when they have been needed. With their cooperation I have been able to accomplish a great deal. Also our Town Manager who has given me his valuable time when problems have arose.

The sand bank at the Old Cemetery on both Winthrop and Court Street is being taken care of and a wall is being erected to save the graves which are on the edge of the banking.

During this coming year I expect to make a great change in our home-made sprinkler system so that it will save water as well as time.

Again I wish to thank all the citizens who have tried to help me while I have been superintendent of the cemeteries.

FRANK FLORES, Superintendent

## REPORT OF THE BOARD OF HEALTH

Mr. Robert A. Hancock  
Town Manager

I hereby submit my 1966 annual report as Health Agent:

Burial Permits	38	
Sanitary Licenses	3	\$60.00
Swimming Pools	5	100.00
Food Service Permits	67	134.00
Cesspool Permits	46	92.00
Funeral Directing	4	
Premature Births	3	
Lakeville Hospital	0	
Child Care Permit	1	15.00

Our beaches were taken care of as well as could be done on a small appropriation. Our citizens could help a lot by using the disposal cans and not leaving debris on the beaches.

All lodging houses, camps and cabins applying for licenses were inspected.

The Plumbing Code is now in effect and will be strictly enforced this year. Those people who are doing plumbing work at present and have not obtained a license from the Plumbing Inspector will be prohibited from continuing this work.

The Laboratory at the Cape End Manor is operating efficiently, and is being used more and becoming a busy laboratory in care of Mrs. Louise Perry.

Miss Doris Enos is to be complimented on her cooperation with everyone. There are clinics for the children and chest X-rays each month for anyone wishing to make appointments. Polio and measles vaccines are available at the Clinic for any adult or child who may desire them.

The men on the rubbish truck and at the Town Dump are doing excellent work. We have a new bulldozer which will be operating soon.

The Dental Clinic at the school under Dr. Lucien Bouchard and school nurse Mrs. Anna Moon has been very successful in serving our children at a nominal fee. More parents should take advantage of this service.

Respectfully submitted,

JOSEPH A. LEWIS, Agent  
Provincetown Health Department

## REPORT OF THE FISH AND GAME COMMITTEE

The Fish and Game Committee submits the annual report for the year 1966.

We purchased fifty pheasants and released them in the woods of Provincetown. The Committee purchased grain and with the cooperation of the Highland Fish and Game Club and its bird feeding program, gave feed to the citizens requesting it. Again 1966 was a year of little or no insect problem due to the number of birds in the area. Throughout the country more interest has been given to our conservation and our natural resources.

We hope the Town will continue its help in preserving our natural heritage.

Respectfully submitted,

MATTHEW J. COSTA, Chairman  
JUSTIN AVELLAR, Member  
IRVING RODERICK, Member

## REPORT OF THE PLUMBING INSPECTOR

Since Provincetown has just recently come under the jurisdiction of State Plumbing Regulations, this is the first annual report of the Plumbing Inspector, for the year 1966.

Owing to this fact and the fact that under these regulations all plumbers must be licensed by the State has made this task not an easy one. There are several long established plumbing concerns who have not been able to obtain licenses as yet and also it has been common practice here for many people to do their own plumbing. This situation I hope to remedy in the future.

Considering the over-all situation, I feel that most everyone has been quite cooperative.

No. of Permits issued 1966	23
Permit fees collected 1966	\$397.00
No. of Inspections 1966	41

ROBERT COLLINSON

Plumbing Inspector

## REPORT OF THE SHELLFISH COMMITTEE

Honorable Board of Selectmen, Town Manager and Citizens of Provincetown:

The Shellfish Committee has been on a program in bringing our clam flats back to the old days of plenty shellfish.

We have planted as a pilot program 110 bushels of quahogs in four different areas.

State Biologist, Arnold Carr, has been a great help and will continue helping us as long as the Town shows interest in our flats and clams, as it is now doing. Mr. Carr has suggested many areas to seed with clams and quahogs as pilot programs.

We have contacted the State to see what can be done with our flats designated as polluted and are in hopes of utilizing this area. As it has been, no shellfish can be taken in this area.

We have planted 35 bushels of sea clams in the harbor. These sea clams should seed and give families who care to dig them plenty of seafood. Last year we only had \$500 and used it on the 110 bushels of quahogs, and we raked for sea clams which we transplanted.

This year we are asking for \$1,000 in order to do more seeding. We ask all people to cooperate and not dig areas seeded and closed. This program needs the help of every citizen as well as the Shellfish Committee.

We wish to thank Capt. Joe Oliver and his crew for the use of his trap boat and dory; Stanley Carter and his assistant; and all those who offered their help, but wasn't needed.

Special thanks to State Biologist Arnold Carr, as without his help we wouldn't be progressing as well as we are doing now.

Sincerely,

WILBUR COOK, Chairman  
FRANK BENT, Secretary  
FRANK VOLTON  
WILLIAM SOLONINKA  
FRANK RAYMOND  
Shellfish Committee

## REPORT OF THE BUILDING INSPECTOR

I hereby submit my annual report for 1966:

Month	No.	Type of Permit	Total
January	5	Additions	\$19,300.00
	2	Dwellings	29,200.00
February	2	Additions	400.00
	1	Parish School	150,000.00
March	7	Additions	3,750.00
	3	Dwellings	32,000.00
April	10	Additions	6,500.00
	3	Cottages	14,500.00
	3	Dwellings	41,867.00
May	11	Additions	3,950.00
	2	Dwellings	11,500.00
June	3	Additions	2,300.00
July	7	Additions	6,300.00
	2	Dwellings	54,000.00
August	14	Additions	8,650.00
	1	Studio	3,200.00
September	6	Additions	5,800.00
	1	Garage	2,000.00
October	2	Motels	55,000.00
	7	Additions	11,400.00
	1	Dwelling	11,000.00
November	2	Garages	2,500.00
	7	Additions	16,000.00
December	1	Cottage	4,500.00
	5	Additions	9,050.00
	1	Theatre	30,000.00
			<hr/> \$534,667.00

In conclusion, I would like to inform the taxpayers that since the town now has in effect an authorized and accepted Building Code, the State has made it my responsibility for enforcing all safety regulations, on both private and public buildings. This requires an annual inspection of all property and the compliance, by the owner, of existing laws.

Respectfully submitted,

FERNANDO GONSALVES

## REPORT OF THE TOWN COUNSEL

Honorable Robert A. Hancock  
Town Manager  
Provincetown, Massachusetts

Dear Mr. Hancock:

Since I was honored with appointment as Town Counsel as of July 1, 1966, my report covers matters handled by me since that date.

I am pleased to report that there have been no judgments or decrees adverse to the Town of Provincetown entered by any Court or administrative board during my tenure of office; however, successful action was taken on behalf of the Building Inspector in the following cases:

Building Inspector vs. Abe James—Barnstable Superior Court No. 28768—Defendant permanently enjoined from violation of zoning by-law;

Building Inspector vs. Abe Saada—Barnstable Superior Court No. 28769—Defendant permanently enjoined from violation of zoning by-law;

Commonwealth vs. Paul Noll—Second District Court No. 28680—Defendant fined \$20.00 for violation of zoning by-law, and offending structure removed.

I have attended such regular and special meetings of the Board of Selectmen and other Town boards or committees as I have been requested to attend, and furnished both oral and written opinions and advice as requested in accordance with established procedures.

It has been my philosophy that the Town Counsel should serve as inconspicuously as possible and not interfere with the processes of local government except to advise those who require legal advice or to represent them when such representation is necessary.

I wish to express my appreciation to the Town Manager and Board of Selectmen as well as other Town officials and employees with whom I have been privileged to serve, and to thank them for the splendid cooperation, understanding and assistance given me in the interests of the Town.

Respectfully submitted,

JOHN C. SNOW,  
Town Counsel

## REPORT OF R. A. SHARTLE—CAPE COD PLANNING AND ECONOMIC DEVELOPMENT COMMISSION

As your Member representative I attended all regular meetings of the Commission during 1966 which are held at its headquarters in room 28 on the third floor of the Cape Cod Community College Faculty Building in the Town of Barnstable. In attendance were one member and one alternate from each of the fifteen towns in Barnstable County, plus, each of the three County Commissioners.

Boston University Area Development Center, a division of Boston University, represented by Professor Joseph Courtney, continue to serve as Consultants to the Commission, in the filing of Technical Assistance Grant Applications, the Application for Urban Planning Assistance, and such matters as pertain to Government Agencies involved in the Economic Development and Planning of Barnstable County.

On December 1, 1966 the Commission retained Mr. E. Fletcher Davis as Executive Director, who with Mrs. Campbell, the Commission Secretary, completes the full time organization. This additional help will allow our Chairman, George Cross, to devote more time to constructive work.

During the past year your Commission with the assistance of Professor Courtney appeared before Local, State and National agencies in the furtherance of many local problems. The following will illustrate the scope of the Commission's activity:

The purchase by the Towns or County of the abandoned railroad property, the Jai Alai Bill before the legislature, Conservation of wetlands and shore property on both fresh and salt water, Application for State and Federal Grants by towns for Water Projects, Sewer Disposal Projects, the Monomoy Island Wilderness Act, the Proposed Mid-Cape Canal connecting Cape Cod Bay with Nantucket Sound, and Comprehensive Planning Divisions. The assistance currently extended to our Provincetown Academy of the Living Arts is an example of Commission's importance. Currently your representative is collecting information which is intended to aid the Fishermen in their endeavor to form a Cooperative Organization.

R. A. SHARTLE, Member

## ANNUAL TOWN MEETING

March 14, 1966

The Moderator opened the meeting at 7:30 P. M. Rev. Gilman Lane gave the invocation.

ARTICLE 1. To hear the reports of Town Officers and Committees and to act thereon.

Moved by Irving S. Rogers that the Town vote to hear the reports of Town Officers and committees.

Motion carried.

### Report of the Provincetown Harbor of Refuge Committee

Fellow Citizens:

A few weeks after our last annual report to you at the 1965 Town Meeting, several of us on this Committee went to Waltham and had a three-hour session with the Army Engineers at their office. As a result of this meeting we then appealed to Congress in Washington, through our Congressmen and Senators, to appropriate \$20,000 to permit the Army Engineers to make a further study of Plan No. 1, the breakwater plan authorized by Congress in 1948, this time concentrating on the area within 2,500 feet of the end of the Town Pier.

Our appeal was successful, and during the course of it, we were encouraged at the enthusiasm shown by both of our Senators for our cause. By September, Congress had passed the necessary appropriation, and during December the Army Engineers were here making soundings of harbor depth in the area under consideration.

A crucial point in the negotiations has been to keep everything within the scope of the original Plan No. 1 of 1948, to prevent us from having to start this 20-year effort all over again. Much of our attention and effort in the past year has gone into this point, which has required constant watchfulness on the part of the Committee.

We have had several meetings with the Army Engineers during the year and with other officials, State and Federal, who have been interested from time to time. Our principal contacts have been with Mr. Frank Fogarty and Mr. Robert McKinnon of the Army Engineers. In January, 1966, at their request, members of our Committee drew up a sketch indicating our concept of where the breakwater should be and submitted it to them. In February, Mr. McKinnon came and met with us and showed us several sketches indicating his concept. You may have noticed in our local newspapers last week the reproductions of our plan and the one he favored. These are, of course, strictly tentative, far from final, but they are a pretty fair picturing of where we stand at the moment. I have requested another interview with Mr. Fogarty at his earliest convenience, to continue our negotiations.

While our Committee has not met since February 21, 1966, when we

talked with Mr. McKinnon, I believe it is the concensus of opinion that we should continue to press for a plan as near as possible to the most recently published one, which calls for a 3,000 foot breakwater, rather than 2,500 feet, 400 to 600 feet from the end of the Town Pier, and extending approximately 2,000 feet to westward of the Pier on its longer wing, and 1,000 feet roughly northeasterly, toward the beach, on its shorter wing.

We realize, however, that there will have to be some give-and-take in the negotiations before we can hope to get results.

We shall also need "malice toward none and charity for all" every time somebody gets the impression that the location of the breakwater will favor one group over another, or one individual over others. Incidentally, let me point out, in this regard, that after listening to the experts and pestering them with questions for over two years now, I have found that the most educated opinion has never failed to warn us that **no shore property** in Town—absolutely **none**—can be expected to get any protection whatever from any breakwater that may be built in our harbor, no matter where it is located. We can hope for shoreline protection if we want to, but if anyone gets it, it will be pure luck, and not to be counted on.

I cannot emphasize too strongly that while we have made progress that could be called "getting to first base", we must continually remember that after first base there are three more—and these, if I remember my baseball, are harder to reach than first. I bespeak the continued support of the Town and especially your patience as we try to untangle the inevitable complications that come.

I can hardly overexpress my appreciation, and that of our Committee, to you for the warm and powerful support, material and moral, that you have already given us.

Respectfully submitted

Rev. Ernest D. Vanderburgh, Chairman  
Harbor of Refuge Committee

To the Moderator, Board of Selectmen, Town Manager, and the voters of the Town of Provincetown:

The Planning Board herewith presents its 1966 report. In accordance with the requirements of the Zoning and Enabling Act, Chapter 40A, Section 6, of the Laws of the Commonwealth of Massachusetts, it contains its recommendations on proposed amendments to the Zoning By-laws, the Building Code, and other articles which have come under the Board's jurisdiction.

At the end of Town Meeting last year the Board had high hopes that the Master Plan, as outlined by the Consultants, would be approved by the Federal Government and work would get under way within weeks. However, we were notified later in the spring that this work was sus-

pending until new funds were voted by Congress. Everything then of course came to a standstill until last week. As I am sure most of you know, Senator Kennedy's office issued a news release that the study plan for Provincetown has been approved by the Government. The Planning Board is much heartened by this turn of events, for now it is possible that this long-delayed plan will finally get moving.

The Board has maintained a schedule of weekly meetings this past year, except during the summer months, and has been kept very busy. Since it was impossible to know when the Master Plan would receive its federal approval the Board felt it to be imperative to propose some needed zoning changes that could be in effect this coming summer. Among other things a comprehensive study of the parking situation was made and a report given to the Board of Selectmen. One of the Board's recommendations has been incorporated in Article 16: To fill and surface the Town owned property on Shankpainter for a public parking lot. Another recommendation, Article 43: To acquire the rail road bed from Conwell Street to Howland Street, would supply a much needed new road in Town and open up undeveloped land for building and would provide a great improvement in traffic circulation. The Planning Board recommends the passage of these two articles.

There are many facets to the urgent and complicated parking problem. The Board endorses the Town Manager's concept in Article 17, of the Warrant but we recommend the mechanics of organizing such a parking committee as suggested by the Finance Committee. There will be a traffic and parking survey made by the Planning Consultants, but the Board feels that a committee formed to work with them would be of inestimable value in widening public appreciation and understanding of this problem.

During the past winter, the Planning Board has advertised and held four public hearings: three on proposed zoning amendments and one on the Building Code.

The first hearing was held on January 6, 1966, with a generous turnout. The proposed zoning amendment was to create a new classification, "Class P Commercial", which would require on-premise parking, larger lot sizes, and greater set-backs, and to convert all of the present 'Class "O" Commercial' areas in Town to this new classification.

Out of this hearing, Article 51 was drawn up which designates Shank Painter Road and part of Court Street to be in 'Class "P" Commercial'. The Board urges its acceptance.

Also under consideration at that hearing was the extension of 'Class "R" Commercial' westward on Commercial Street to Franklin Street and eastward to Bangs Street. Of those who attended the meeting, many spoke in favor of extending Class "R" west to Franklin Street, but there were several who did not wish to see it extended to the east as far as Bangs Street. The majority of the Board feels that it is necessary to open up more of Commercial Street to businesses which are not now per-

mitted in 'Class "W" Residential'. Article 50 incorporates these ideas but end 'Class "R" Commercial' to the east at Dyer Street.

The first six of the twelve definitions in Article 49 were also discussed at that meeting.

The second public hearing was held on January 20th, 1966, on the Building Code. The meeting was well attended and approval of the new Code was voiced by several citizens. The Board has given a great deal of serious study to revising this code this past winter and we urge that this simplified and, we think, greatly improved building code be accepted. This is Article 47.

The third public hearing was held on February 17th, 1966, on the last six of the twelve definitions incorporated in Article 49. The Board feels that these twelve new definitions should be added to Section VI A, "Definitions" in the Zoning By-laws to help simplify the work of the Building Inspector and assist those who intend to build or open a shop. The Board urges the acceptance of Article 49.

On February 20th, 1966, the Planning Board held its fourth hearing. This was on Article 48 of the Warrant as requested by the Board of Selectmen. In effect, this is to permit parking lots in all zoned districts of Provincetown. The Board feels that to do this without strong controls would lay the Town open to a severe down-grading of property values in residential districts. It is the unanimous opinion of the Board to be against this Article. Due to the physical make-up of our Town there are no simple solutions to our traffic and parking problems. The Board feels, however, that with the help of the Planning Consultants and professional traffic engineers, a well thought-out solution will be forthcoming to provide the necessary traffic flow in all major streets and to supply the Town with adequate parking space without jeopardizing our residential districts. It is with this in mind that we urge the rejection of Article 48.

The Planning Board did not hold a public hearing on Articles 52 and 53, Shankpainter Road and Court Street 'Class "O" Commercial', because it felt that this would only repeat the January 6th, 1966, public hearing on those same streets. The Board does not recommend these two articles because it feels that the district will be better served by accepting Article 51, 'Class "P" Commercial', which provides for offstreet parking.

Article 40, the layout of Point Street, and Article 41, the layout of Creek Road are both approved by the Board. This will in the first case open up new land for development and do away with a dead end and in both cases create a better traffic flow. This has been urged by affected citizens for a period of years.

In conclusion, the Planning Board wishes to thank the citizens of the Town, the many business people, and the Town officials, who have given the Board their valued support and encouragement throughout the past year. We are looking forward with great interest to the coming year and its work with the Planning Consultants on the Master Plan. As this

work proceeds, progress reports will be given to the citizens.

Respectfully submitted,

Provincetown Planning Board  
Philip Malicoat, Chairman  
Nicholas Wells  
Matthew Costa  
Robert Gutzler  
Robert A. Shartle, Secretary

Moved by Richard Christopher to accept the report of the Planning Board as such without ratification of any acts or recommendations proposed therein.

The Moderator ruled this motion out of order because there was a motion before the meeting to hear the reports.

The Town Manager requested that he be allowed to speak before any money articles were voted on. On question by the Moderator if this would be a report, the Manager said no, therefore the Moderator did not allow the request.

ARTICLE 2. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1966, and to issue a note or notes therefor, payable within one year, in accordance with Section 17, Chapter 44 of the General Laws.

Moved by Charles DeRiggs that the Town vote Article 2 as printed.

Motion carried.

ARTICLE 3. To see what sum of money the Town will vote to raise and appropriate or transfer from available funds in the treasury for the expenses of the Town and salaries of Town Officers and departments for the year ending December 31, 1966. 1. General Government; 2. Protection of Persons and Property; 3. Health; 4. Public Works; 5. Charities; 6. Veterans Services; 7. Library; 8. Recreation; 9. Pensions; 10. Unclassified; 11. Debt Service; 12. Schools.

Moved by Robert Hancock that action on Article 3 be postponed and that we take up Articles 24 and 30 at this time.

Mr. Hancock explained that action on Articles 24 and 30 may reduce the amount to be asked for under Article 3, the budget article.

Motion carried.

ARTICLE 24. To see if the Town will vote to raise and appropriate the sum of \$14,000 for the purchase of a 4-wheel drive, rubber-tired loader for use of the public works department, with a trade in of a caterpillar type loader now being used, or take any action in relation thereto. (As requested by the Town Manager) Recommended

Moved by Mr. Hancock that the Town vote Article 24 as printed.

On question Mr. Hancock explained that this would be primarily for the use of the street department but available to all departments.

Motion carried.

ARTICLE 30. To see if the Town will vote to raise and appropriate the sum of \$7,000.00 for the purchase of a new 66-passenger bus for use by the School Department, and to see if the Town will also vote to authorize the School Committee to purchase the aforesaid bus and to trade-in toward this purchase the bus presently being used, or do anything in relation thereto. (As requested by the School Committee) Recommended with the expectation that the School Department plans to continue its policy of sharing with the Recreation Department by mutual agreement.

Moved by Herman DeSilva that the Town vote Article 30 as printed.

On question by Mr. Gonsalves, Mr. DeSilva explained that the Town of Provincetown owns the school bus and that the School Committee is only responsible for it and has control of it. Also on question by Mr. Gonsalves, Francis Marshall explained that when PAL was dissolved the bus was turned over to the school with the permission of the Board of Selectmen but also that it was to be used by any youth group. Mr. DeSilva explained on question that the regulations governing the bus provide that other youth groups may use the bus when there is no conflict with the school use. Mr. Marshall stated that he would recommend that the new bus be purchased after listening to Mr. DeSilva.

Motion carried.

Moved by Irving Rogers that the sum of \$1,275,887.85 be raised and appropriated for the total Operating Budget.

Mr. Hancock said he felt it appropriate that he should make a brief summary of the financial matters in general. He stated that it appears now that on the basis of information available that we can possibly have a \$60.00 tax rate this year even in view of the fact that the budgets are up, provided that the recommendations of the Finance Committee and Town Manager are substantially followed. The amount of free cash available this year is a larger sum than was the case last year, the Articles which will have an effect on the tax rate are substantially less than those effecting last year's tax rate, the Assessors have up dated their records increasing the valuation of the Town which will bring in added revenue, and there is anticipated that the Town will receive some \$75,000 from the sales tax. All of these factors will have an impact on our tax rate thereby arriving at a tax rate of \$60.00. He further explained that even though there is a decrease to \$60.00 the average taxpayer will have about the same size tax bill as last year.

Moderator read each item in the general budget to give the voters an opportunity to ask questions on each. General Government, Protection of Persons and Property, Health Department, Public Works, Charities, Veterans Services, Library, Recreation, Pensions, Unclassified, Debt Service and Education.

John Bell asked why the difference in the figure and Mr. Hancock explained that the voting to authorize the purchase of the front-end loader and the school bus makes it possible to reduce the amount requested.

Motion carried.

The Moderator, at this time, thanked the Veterans of Foreign Wars for donating the use of the mikes and assisting in their use at this meeting.

ARTICLE 4. To see if the Town will vote to transfer from available funds the sum of \$100,000.00, or any other sum, for use by the Board of Assessors towards reduction of the 1966 tax rate, or do anything in relation thereto. (On request of the Town Manager) Recommendations will be made when this article is taken up.

Moved by Mr. Benatti that this article be laid on the table until all money articles are taken up.

Motion carried.

ARTICLE 5. To see if the Town will vote to amend the Classification and Compensation Plan adopted under Article 47 of the 1960 Annual Town Meeting, together with any and all amendments thereto, by granting an across the board increase of 7½% for step rates for grades I through XIII under Section IV (Salary and Wage Schedule) and for step rates I through IV under Section IV (Police Salary and Wage Schedule) the said increase to become effective April 1, 1966, and to further amend the aforesaid step rates by granting an across the board increase of 2½% for the calendar year of 1967, or take any action in relation thereto. (As requested by the Town Manager) The Finance Committee recommends that the Pay Plan be amended by granting an across-the-board increase of five per cent (5%) in the salaries of full-time town employees covered by the plan, not including School, Welfare or Police departments, said increase to become effective April 1, 1966, and to further amend the Pay Plan by providing an annual Cost of Living increase equal to any rise in the Cost of Living Index, said increase to become effective January 1, 1967; and that the Town Manager, the Board of Selectmen and the Finance Committee be directed to prepare a revised Classification and Compensation Plan to be presented in Town Meeting not later than March, 1967.

Richard Christopher asked the Moderator concerning his motion on the Planning Board report and the Moderator stated that he thought that it should be brought up at the time of the zoning changes.

Moved by John Bell that the Town vote to amend the Pay Plan by granting an across-the-board increase of five per cent (5%) in the salaries of full-time Town employees covered by the Plan, not including School, Welfare or Police departments, said increase to become effective April 1, 1966, and to further amend the Pay Plan by providing an annual Cost of Living increase equal to any rise in the State Cost of Living Index,

said increase to become effective January 1, 1967, and the said Cost of Living increase updated annually to continue until the Town adopts a revised Pay Plan; and that the Town Manager, the Board of Selectmen and the Finance Committee be directed to prepare a revised Classification and Compensation Plan to be presented not later than the next Annual Town Meeting in 1967.

Mr. Hancock explained that a great deal of time has been spent on this already and that the motion contains some small corrections until adoption of new pay plan. Such a plan has to be brought in next March and if they do not accept that plan then the cost of living increase will continue until the adoption of such a plan. On question by the Moderator, Mr. Hancock stated that this includes only full-time employees.

Motion carried unanimously.

ARTICLE 6. To see if the Town will vote to raise and appropriate the sum of \$14,965, to provide for in 1966 the salary and wage increases voted under the previous article, number 5, including similar percentage increase for the Salary of the Town Manager, or do anything in relation thereto. (As requested by the Town Manager) The Finance Committee recommends that the Town vote to raise and appropriate the sum of \$8,197 to provide in 1966 for the salary and wage increases voted under the previous article, number 5. This sum includes a similar increase for the salary of the Town Manager subject to vote of the Board of Selectmen.

Moved by John Bell that the Town vote to raise and appropriate the sum of \$8,197 to provide in 1966 for the salary and wage increases voted under the previous article, number 5. This sum includes a similar increase for the salary of the Town Manager subject to vote of the Board of Selectmen.

On question by Mr. Reis, Mr. Bell explained that the difference in the amount read in the article and the amount read in the motion was calculated upon the effect of Article 5 as voted and that the amount needed this year is \$8,197.00 because it is not going into effect until April 1, 1966. He also stated that the full effect of 5 per cent raise in salary will not be felt until 1967 when it will be in effect for the entire year.

Motion carried unanimously.

ARTICLE 7. To see if the Town will vote to amend the Classification and Compensation Plan adopted under Article 47 of the 1960 Annual Town Meeting, together with any and all amendments thereto, to provide for a plumbing inspector under Section IV (Miscellaneous Salary and Fee Schedule) at an annual salary of \$1,000, and to see if the Town will vote to raise and appropriate the sum of \$1,000 therefor, or do anything in relation thereto. (As requested by the Board of Health) Recommended

Moved by Mr. Hancock on behalf of the Board of Health that the Town vote Article 7 as printed.

Mr. Hancock explained that this has nothing to do with the Health Agent. This provides salary for a Plumbing Inspector. On question by

Mr. Bell, Mr. Hancock explained that both these jobs could not be combined because of the State requirements pertaining to a Plumbing Inspector having a license. He also stated that the State has approved the present plumbing inspector on a temporary basis. On question by Mr. DeSilva, Mr. Hancock said they did have a plan to charge fees to off set this appropriation.

Motion carried 212 yes, 1 no.

ARTICLE 8. To see if the Town will vote to amend the Classification and Compensation Plan adopted under Article 47 of the Warrant for the 1960 Annual Town Meeting, together with and especially any and all amendments thereto, and especially that part of Section 4 of said Plan known as "Police Salary and Wage Schedule," in order that the present amounts appearing therein shall be deleted and there will appear therefor the following amounts; the same to become effective April 1, 1966:

Police Salary and Wage Schedule					
Grade	Minimum	2nd step	3rd step	4th step	Maximum
I Patrolman	4620	4820	5010	5210	5440
II Sergeant	5065	5270	5485	5720	5940
III Chief	5850	6090	6340	6585	6950
IV Clerk and Dispatcher	3725	3915	4020	4435	4750

(As petitioned for by Francis H. Marshall and others) Recommended if effective date is January 1, 1967.

Moved by Marion Perry as read except effective date, amend to read January 1, 1967 in place of April 1, 1966.

On question, the Moderator explained that this was not an amendment but an original motion.

Moved by Robert Roman that we have aye and nay vote.

On question, the Moderator explained that such a ballot was not required by this article and that it was a secret ballot. Chief Marshall spoke against the motion of secret ballot. Mr. Bell spoke favoring a secret ballot if this would insure democratic process and eliminate the element of fear of letting anyone's choice be known.

Motion not passed.

Mr. Christopher spoke in favor of the article going into effect as of April 1, 1966, and amended the motion of the Finance Committee by changing the the date to April 1, 1966.

Mr. Bell spoke on the amendment and explained the Finance Committee stand on this as that the Police Department Schedule as it stood before this meeting provided all the men an automatic increase according to their step increase which has been approved. This article will give them another boost in their pay and since we did not give other Town employees an increase in Article 5 we felt we shouldn't give the Police one. Chief Marshall stated that after conferring with the Finance Committee, Selectmen and Manager it would be selfish for the Police to ask for this and that is why he felt that if the Town employees went along with their increase then the Police Department would go along with a similar plan. Mr. Christopher spoke in favor of the amendment saying that the Police do get paid for the overtime they put in and if this does not become effective on April 1 the situation will continue until January 1, 1967. Marion Perry spoke against the amendment and stated that he felt the pay plan already approved was a fair plan.

Amendment not carried.

Original motion passed 198 yes, no 3.

ARTICLE 9. To see if the Town will vote to raise and appropriate or transfer from available funds in the Treasury, the sum of \$1,559.25 to put the Police Salary and Wage Schedule into effect as of April 1, 1966. (As petitioned for by Francis H. Marshall and others) Recommend indefinite postponement.

Moved by Francis Marshall to indefinitely postpone this Article.

Motion passed.

ARTICLE 10. To see if the Town will vote to raise and appropriate or transfer from available funds, the sum of twenty-five hundred (\$2,500) dollars for the purchase of Instalerts and radio equipment for the Fire Department. (On request of the Board of Fire Engineers) Recommended

Moved by James Roderick that the Town vote to raise and appropriate the sum of \$2,500 for the purchase of Instalerts and radio equipment for the Fire Department.

Motion carried.

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of \$1,000, or any other sum, for the purpose of providing a Juvenile and Woman's Detention Cell in compliance with the Massachusetts State Public Health Regulations and the Youth Service Board. (As requested by the Police Department) Recommended

Moved by Francis Marshall that the Town vote Article 11 as printed.

Motion passed.

ARTICLE 12. To see if the Town will vote to raise and appropriate or transfer from available funds in the Treasury, the sum of \$2,000, or any other sum, to purchase a 1966 Cruiser with a trade in of the 1964 Chevrolet Station Wagon, or to take any other action in relation thereto. (As petitioned by Francis H. Marshall and others) Recommended

Moved by Francis Marshall that the Town vote to raise and appropriate the sum of \$2,000.00 to purchase a 1966 Cruiser with a trade in of the 1964 Chevrolet Station Wagon.

The Chief explained that this is in keeping with our policy of trading in every other year.

Motion carried.

ARTICLE 13. To see if the Town will vote to raise and appropriate or transfer from available funds in the Treasury, the sum of \$1,000, or any other sum, for the purpose of purchasing two portable alternators to be used by Civil Defense during any emergency. w 3,000 Watts, weight 180 lbs., 115 to 230 Volts, 26.2 Amps to 13.1 Amps. (As petitioned for by Civil Defense) Not recommended. The committee feels that the Town has enough generators of this size.

Moved by Frank Flores that the Town vote to raise and appropriate the sum of \$1,000.00 for the purpose of purchasing two portable alternators to be used by Civil Defense during any emergency, 3,500 each Watts, Weight 180 lbs., 115, 250 Volts 30.2 Amps to 13.1 Amps.

Mr. Gracie of the Finance Committee explained that since the Committee had made its original recommendation it had received additional information and is now recommending Article 13. On question, he explained that the Committee in the beginning understood that there were 3 generators at each station but have since learned that there are only 3 generators and the Committee was also unaware of the qualifications of the generators.

Motion passed.

ARTICLE 14. To see if the Town will vote to have a committee of three appointed to investigate the possibility of the Town of Provincetown having its own ambulance, and report at the next Annual or Special Town Meeting. This committee be appointed by the Board of Selectmen. (As petitioned for by Frank Flores and others) Recommended that a committee be appointed to study the advisability of Provincetown having its own ambulance and report at the next Town Meeting.

Moved by Frank Flores that Article 14 be indefinitely postponed.

On question, Mr. Flores explained that he was asking for indefinite postponement of this article because the difficulties the Lower Cape Ambulance Association had been experiencing have been taken care of and such a study was felt by him to be no longer needed.

Mr. Roderick stated that he felt that we should go along with the recommendation of the Finance Committee. Chief Marshall stated that he felt that things should be left as they are. Wilbur Cook spoke in favor of the motion.

Motion defeated.

Moved by John Bell that the Town vote to have a committee of three

appointed to investigate the advisability of the Town of Provincetown having its own ambulance, and report at the next Annual Town Meeting. This committee be appointed by the Board of Selectmen.

Motion passed.

ARTICLE 15. To see if the Town will vote to raise and appropriate the sum of \$200,000 for the purpose of erecting, equipping and furnishing a two-story addition to the Cape End Manor (Public Medical Institution) located on the northwest side of the existing structure and to meet the appropriation therefor the sum of \$6,000.00 be raised by taxation or transferred from available funds in the Treasury, and that the Selectmen be authorized to instruct the Treasurer to issue twenty-year bonds or notes of the Town in the amount of \$194,000 in accordance with Section 7 of Chapter 44 of the General Laws, as amended, to act fully thereon or take any action in relation thereto. (As requested by Manor Addition Committee) Not recommended in view of the following article (15-A).

Moved by Irving S. Rogers that this article be indefinitely postponed in view of a motion to be proposed under Article 15-A.

Motion passed.

ARTICLE 15A. To see if the Town will vote to raise and appropriate the sum of \$300,000.00, to be used together with a Federal Grant (Hill-Burton Act) of \$200,000.00, for the purpose of erecting, equipping and furnishing a new two-story building for the Cape End Manor (Public Medical Institution) located on the northwest side of the existing structure and to meet the appropriation therefor the sum of \$9,000.00 be raised by taxation or transferred from available funds and that the Selectmen be authorized to instruct the Treasurer to issue twenty-year bonds or notes of the Town in accordance with Section 7 of Chapter 44 of the General Laws, as amended, and to see if the Town will vote to authorize and instruct the Board of Selectmen and Town Manager to acquire by purchase or eminent domain the Mary F. Lopes property at 30 Alden Street for use in connection with the proposed construction of the new Cape End Manor (Public Medical Institution), to act fully thereon or take any action in relation thereto. (As requested by the Manor Addition Committee) Recommended that the Moderator and the Selectmen appoint four additional members, including the Town Manager, to assist the present Manor Addition Committee in choosing a site and preparing preliminary plans for a new Cape End Manor (Public Medical Institution) which will qualify for a Federal Grant of 40% (Hill-Burton Act), and further to transfer from available funds the sum of \$5,000 to be used for committee expenses, and to present such plans at the next special or annual Town Meeting.

Moved by Irving S. Rogers that the Moderator and Board of Selectmen, acting together, appoint four (4) additional members, including the Town Manager, to assist the present Cape End Manor Addition Committee in choosing a site and preparing preliminary plans for a new Cape End Manor (Public Medical Institution) which will qualify for a Federal Grant (Hill-Burton Act) and that the sum of \$5,000.00 be transferred from the Excess & Deficiency Account for committee expenses, and to present

such plans at the next Annual Town Meeting.

Mr. Hancock announced that in view of the fact that this Article may lead to a substantial expenditure of money in the future perhaps it is in order to have some discussion about the whole concept. One question is whether we shall provide a facility for approximately 50 people and the second thing is if we need the facility how shall we go about it. The original thinking had been that we build an addition on the present facility and later tear down and rebuild the old facility. We find if we can fulfill the requirements under Hill-Burton Act there is a possibility that we might be the recipient of a supplementary grant under E.D.A.

Therefore, we come to the decision should we build an addition and tear down the existing structure and rebuild it at cost of \$250,000 to \$300,000. An obvious reaction to this plan is that we will not have as efficient a building as we would have at once and another bond issue would be running concurrently. Therefore, if you decide to have a 50-patient facility we will need a committee to look further into details.

Mr. Wells stated that he felt that the motion was a ratification before the information is in and that the only thing the Committee would have to do is present plans at Annual or Special Town Meeting and in advance we would be approving this facility.

Moved by Nicholas Wells that the motion be amended so that the concluding sentence reads "and to present their findings, reports and recommendations to the next annual town meeting for ratification by the citizens or such other action as the citizens at such subsequent town meeting shall decide to take in the matter."

Amendment passed.

On question, the Town Manager explained that since an addition would cost approximately \$200,000 and a new building cost \$300,000 the most recent thinking has been to build completely new facility and tear down the existing facility and use that area except basement for additional parking area.

On question, Mr. Rogers explained that the \$5,000 asked for in this article would be for architects, field surveys etc. Mr. Hancock also explained that the property owner in question would be consulted. Mr. Rogers also explained that the site had not been chosen. He also stated that the present Committee has not submitted a report and under Article 15 it would have but then we found out about the Hill-Burton Act and abandoned our plans.

Motion passed as amended.

ARTICLE 16. To see if the Town will vote to transfer the sum of \$6,500 from the MacMillan Parking Meter Account to build a parking lot on Town-owned property on the easterly side of Shank Painter Road at Bradford Street, or do anything in relation thereto. (As requested by the Board of Selectmen) Recommended

Moved by John Bell that the Town vote Article 16 as printed.

Moved by Herman DeSilva to indefinitely postpone this article.

After considerable discussion the motion to indefinitely postpone was not passed.

Motion passed.

ARTICLE 17. To see if the Town will vote to authorize the Town Manager to appoint a Parking Committee to consist of 15 members (5 from the East End, 5 from the Center, and 5 from the West End of Town) for the purpose of studying and making recommendations at the next Town Meeting, in order to establish additional Town-owned parking facilities, and to see if the Town will vote to transfer \$5,000 from the MacMillan Parking Meter account to enable the Town Manager to provide engineering assistance for this Parking Committee, in order to make available cost and capacity information with respect to sites considered or recommended, or do anything in relation thereto. (As requested by the Town Manager) Recommended that the Town vote to authorize the Moderator and Board of Selectmen to appoint a Parking Committee consisting of the Planning Board and four others, chosen so that there shall be 3 members living east of Center Street, 3 members living west of Court Street, and 3 members living between Center and Court Streets, for the purpose of presenting to the next Town Meeting their study and recommendations, together with cost and capacity information, for additional Town-owned parking facilities, and further to transfer from the MacMillan Parking Meter account \$5,000 for engineering assistance in this study.

Moved by Munro Moore as recommended by the Finance Committee.

Mr. Gonsalves said he was in favor of this motion but found the reading a little complicated. He felt that there should be three members from each part of Town and present their findings to the Planning Board because there are three members of the Planning Board from the east end. Gabriel Fratus stated he felt the same as Mr. Gonsalves. Mr. Roman concurred with them. Mr. Wells stated that it would seem that the Planning Board should have representation on any traffic committee because all of this should be immediately related to the Planning Consultant.

Motion amended by Mr. Roman to have the Town vote to authorize the Town Manager to appoint a parking committee to consist of 15 members (5 from east end, 5 from the Center, and 5 from the west end of Town) for the purpose of studying and making recommendations at the next town meeting, in order to establish Town-owned parking facilities and to see if Town will transfer \$5,000 from the MacMillan Parking Meter account to enable the Town Manager to provide engineering assistance for this Parking Committee, in order to make available cost and capacity information with respect to sites considered or recommended, or do anything.

After some discussion on the point of whether or not the Planning Board should be included in the parking committee, the amendment was put to a vote.

Amendment not carried.

Original motion passed.

ARTICLE 18. To see if the Town will vote to raise and appropriate the sum of \$900 to supplement appropriations made under Articles 17 and 18 of the 1965 Annual Town Meeting for construction of retaining wall and bulkhead, or do anything in relation thereto. (As requested by the Town Manager) Recommended

Moved by Burton Kenney that the Town vote Article 18 as printed.

On question Mr. Bell stated that the money would be used at the Dyer Street and Nickerson Street projects.

Motion passed.

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of \$12,000 for construction under Chapter 90 of Alden Street and Jerome Road, and Cemetery Road. (As requested by the Selectmen) Recommended

Moved by Marion Taves, Jr., that the Town vote Article 19 as printed.

Motion passed.

ARTICLE 20. To see if the Town will vote to transfer the sum of \$9,450 (the said sum being the State's allotment under Chapter 679 for 1965 and 1966) for the purpose of street construction on Bradford Street (Franklin to Nickerson), Commercial Street (Gosnold to Seamen's Savings Bank), Cemetery Road, Ryder Street and any other street requested by the Selectmen and approved by the Massachusetts Department of Public Works, or do anything in relation thereto. (As requested by the Selectmen) Recommended.

Moved by Ernest Irmer that the Town vote Article 20 as printed.

Motion passed.

ARTICLE 21. To see if the Town will vote to raise and appropriate the sum of \$3,000 for improvements and maintenance of Manuel V. Motta Memorial Athletic Field, or take any action in relation thereto. (As requested by the Motta Field Commission) Recommendations to be made at Town Meeting.

Moved by William Tasha that the Town vote Article 21 as printed.

Finance Committee recommends this \$3,000 sum because usually this request is for \$5,000.

Motion passed.

ARTICLE 22. To see if the Town will vote to transfer the sum of \$10,000 from the balance remaining from Article 10 of the 1964 Annual Town Meeting for the following purposes: (a) Install 6" water main in Pleasant Street Extension and Franklin Street Extension, including fittings and hydrant—\$4,000. (b) Install 6" water main in Freeman Street (Bradford to Commercial) including fittings—\$2,500. (c) Install 6" water main in Webster Place, including fittings and hydrant—\$2,000. (d) Install

equipment for prevention of rusty water—\$1,500, or do anything in relation thereto. (As requested by the Water Department) Recommended

Moved by Robert Hancock that the Town vote Article 22 as printed.

Motion passed.

ARTICLE 23. To see if the Town will vote to transfer the balance of \$9,014.57 remaining from Article 4 of the 1953 Annual Town Meeting and Article 54 of 1957 Annual Town Meeting for the purpose of exploration and testing to determine possibilities and locations for additional water supply for the Town, or do anything in relation thereto. As requested by the Town Manager) Recommended

Moved by Charles DeRiggs that the Town vote Article 23 as printed.

Mr. Hancock explained that although we are not in dire need for additional supply of water, this article is proposed on long-term basis and we are most certainly going to need more water some day and if supply is found in the National Seashore then we can make arrangements with them and this is the basic purpose of this article.

Motion passed.

ARTICLE 25. To see if the Town will vote to raise and appropriate or transfer from available funds, the sum of \$4,000 for the construction of a retaining wall and fence and stabilization of the southeast embankment of the Winthrop Street Cemetery, said wall to be erected on the property of Christopher Salvador, or do anything in relation thereto. (As requested by the Cemetery Commission) Recommendation to be made at Town Meeting.

Moved by Mr. Hancock that the Town vote to raise and appropriate the sum of \$3,100, and transfer from the Sale of Cemetery Lots the sum of \$900, for the construction of a retaining wall and fence and stabilization of the southeast embankment of the Winthrop Street Cemetery, said wall to be erected on the property of Christopher Salvador, provided that Mr. Salvador gives the Town a permanent easement for the aforesaid purpose.

Finance Committee cannot recommend this article because they think it is a bad precedent to set building on someone's property on behalf of Cemetery Commission.

Mr. Salvador spoke in favor of the motion saying that this has become quite a serious thing and on question said that he did plan to give the Town the easement required.

Motion passed.

ARTICLE 26. To see if the Town will vote to raise and appropriate the sum of \$10,000 for construction and improvements to Town sidewalks, or do anything in relation thereto. (As requested by the Town Manager) Recommended

Moved by Charles DeRiggs that the Town vote to raise and appropri-

ate the sum of \$10,000 for construction and improvements of Town sidewalks.

Motion amended by Bernard Days that any new construction of sidewalks that the extremities be tapered to the pavement.

Amendment carried. Motion as amended carried.

ARTICLE 27. To see if the Town will vote to raise and appropriate the sum of \$500.00 for the purchase of a paint machine for use by the Public Works Department, with a trade-in of the present old paint machine, or do anything in relation thereto. (As requested by the Town Manager) Recommended

Moved by Mr. Hancock that the Town vote Article 27 as printed.

Motion passed.

ARTICLE 28. To see if the Town will vote to raise and appropriate or transfer from available funds, the sum of \$2,500.00 for the purchase of a compressor for use by the Water Department, with a trade-in of the old compressor now being used, or to take any action in relation thereto. (As requested by Town Manager) Recommended

Moved by Arthur Medeiros that the Town vote to transfer from the E. and D. account the sum of \$2,500 for the purchase of a compressor for use by the Water Department, with a trade-in of the old compressor now being used, and recover the aforesaid amount from Water Department revenue.

Motion passed.

ARTICLE 29. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 for the preparation of preliminary plans for the construction of a new Public Works Building, or do anything in relation thereto. (As requested by Town Manager) Recommended

Moved by Eugene Watson that the Town vote Article 29 as printed.

Motion passed.

ARTICLE 31. To see if the Town will vote to raise and appropriate the sum of \$1,800.00 for the construction or building of a Veterans Honor Roll in front of the Town Hall, or to do anything in relation thereto. (As requested by the Veterans of Foreign Wars) The Finance Committee recommends that the Moderator appoint a committee of veterans to organize a project of public subscription toward a new Veterans' Memorial Fund.

On behalf of Veterans moved by Mr. Hancock that the Town vote Article 31 as printed.

Motion amended by Mr. Benatti that the Moderator appoint a committee of veterans to organize this project.

Mr. DeSilva offered another amendment "by striking out the sum of \$1,800 and that a committee of 3 be appointed by the Moderator to bring

back a report to the next Annual Town Meeting concerning construction of veterans honor roll in front of Town Hall."

Mr. Benatti withdrew his motion.

Motion that Moderator appoint a committee of three to investigate the plans for a veterans roll and a location and report at the next Annual Meeting passed.

ARTICLE 32. To see if the Town will vote to raise and appropriate or transfer from available funds in the treasury the sum of \$1,200.00 for the purpose of publishing 1,200 copies of the Assessors' Valuation Book for the year 1966, said book required by law to be published every five years, or do anything in relation thereto. (On request of the Selectmen) Recommended, with the suggestion that the printer's type be held in galley so that if more copies are needed they can be printed at small extra cost.

Moved by Mr. Hancock that the Town vote to raise and appropriate the sum of \$1,200 for the purpose of publishing 1,200 copies of the Assessors' Valuation Book for the year 1966, said book required by law to be published every five years.

Motion carried.

Moved by Francis Marshall that Article 44 be taken up at this time.

Motion not carried.

ARTICLE 33. To see if the Town will vote to raise and appropriate the sum of \$500.00 for the purpose of beautifying Town property, or do anything in relation thereto. (As petitioned for by members of the Nautilus Club and others) Recommended

Moved by Mr. Hancock that the Town vote Article 33 as printed.

Motion passed.

Moved by Wilbur Cook that this meeting be adjourned until tomorrow evening at 7:30 P. M. Motion carried. Meeting adjourned at 11 P. M.

#### MARCH 15, 1966

March 15, 1966, Moderator reconvened meeting at 7:40 P. M. A quorum was established. Chair asked that those assembled stand in silence for 30 seconds in honor of Sivert Benson who passed away earlier in the day.

The Moderator announced that the Chair had made a mistake under Article 1 in that the motion received was to hear the reports and Chair ruled inadvertently to accept the reports, therefore Chair has motion made by Mr. Christopher to accept just one report. Mr. Christopher moved to accept the report of the Planning Board as such without ratification of any acts or recommendations proposed therein.

Moved by Irving Rogers that all other reports of Committees be accepted.

Motion carried.

While Mr. Christopher was being located the Moderator suggested that the meeting continue and then go back to the motion when Mr. Christopher arrives.

ARTICLE 34. To see if the Town will vote to install and maintain street lights on Pole No. 55A at the inner end of the Town Parking Lot off Ryder Street, and on Pole No. 85 in the vicinity of Bryant's Market, 467 Commercial Street, or do anything in relation thereto. (As requested by the Selectmen) Recommended that the Town vote to install and maintain a street light on Pole No. 55A at the inner end of the Town Parking Lot behind the former Seamen's Bank.

Moved by Leo Gracie that the Town vote to install and maintain a street light on Pole No. 55A at the inner end of the Town Parking Lot off Ryder Street.

Mr. Bell explained that the Finance Committee had viewed both sites and found that Ryder Street needed the light but that there were 2 lights near Bryant's Market. The Finance Committee felt that the area near Bryant's Market is well lighted, partly by street lights and partly by Mr. Bryant's own lights so therefore did not recommend this pole location.

Motion passed.

Mr. Christopher arrived at the meeting and his motion was read once again.

A point of order by Mr. Wells was made. He said that he felt that the motion was highly improper and should be ruled out of order because filing of a report by Planning Board is under State statute and because in the text of the report reference is made to specific subject matter which is treated in separate articles and therefore I submit that this motion is out of order.

Mr. Christopher explained that this motion was made strictly for the purpose that the report be a report and that the articles in order to be acted upon should be placed in the warrant. The only thing requested in motion is that the report of the Planning Board be accepted as a report and only a report.

Mr. Wells moved that the motion be amended to read that the report of the Planning Board be received as required by law.

Amendment passed. Motion as amended carried.

ARTICLE 35. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the Old Home Week Program, or do anything in relation thereto. (As requested by Kenneth Macara and others) The Finance Committee declines to make any recommendation on this article.

Moved by Kenneth Macara that the Town vote to raise and appropriate the sum of \$1,500 for the Old Home Week Program.

Motion passed.

ARTICLE 36. To see if the Town will vote to raise and appropriate or transfer from available funds in the Town treasury, the sum of \$500.00, or any other sum, for the purpose of reseeding the Town's shellfish areas, and that a committee of three be appointed by the Board of Selectmen for supervising the same. (As petitioned for by Frank Flores and others) Recommended that the Town raise and appropriate the sum of \$500.00 for reseeding the town's shellfish areas, and that the Board of Selectmen appoint a committee of three to work with the present Shellfish Committee in this project.

Moved by Frank Flores that the Town raise and appropriate the sum of \$500.00 for the purpose of reseeding the Town's Shellfish areas, and that \$450.00 be used to purchase seed and that \$50.00 to be used for the hiring of a boat to do the seeding with and that a committee of three be appointed by the Selectmen to supervise said project.

Motion amended by Leo Gracie that the committee of three work with the present Shellfish committee in this project.

Mr. Flores spoke in opposition to the amendment and Mr. Gracie in favor of it.

Amendment carried. Motion as amended passed.

ARTICLE 37. To see if the Town will vote to raise and appropriate or transfer from available funds in the treasury, the sum of \$350.00 for the feeding of birds and the improvement of conditions for wildlife. (As petitioned by Matthew J. Costa and others) Recommended

Moved by Matthew J. Costa that the Town vote to raise and appropriate the sum of \$350.00 for the feeding of birds and the improvement of conditions for wildlife.

Motion passed.

ARTICLE 38. To see if the Town will vote to appropriate the sum of \$100,000, or any sum, to purchase and install water meters in the Provincetown water system, including the service within the area of the Town of Truro, and determine whether the money shall be provided by taxation, by appropriation from available funds in the treasury, and/or by borrowing under authority of Chapter 44 of the General Laws, or take any action in relation thereto. (As petitioned for by Barbara Malicoat and others) Not recommended. The Finance Committee agrees that metering is the fairest way to assess water charges, but feels it is economically unfeasible in this town. See Report.

Moved by Barbara Malicoat that the Town vote to appropriate the sum of \$100,000 to purchase and install water meters in the Provincetown Water System, including the service within the area of the Town of Truro by borrowing under authority of Chapter 44 of the General Laws.

On question by Marion Perry as to the legality of the motion, Mr. Hancock proposed a new motion.

Moved by Mr. Hancock that the Town vote to appropriate the sum of \$100,000.00 to purchase and install water meters in the Provincetown Water System including the services within the area of the Town of Truro and the Board of Selectmen be directed to authorize the Treasurer to borrow the money through the issuance of bonds under the authority of Chapter 44 of the General Laws for a period of ten years.

Standing vote 40 yes—122 no. Motion not passed.

ARTICLE 39. To see if the Town will vote to approve the appointment of a committee of three, named by the Moderator, to work with the Town Manager to carry out the intent and purpose of the meter article, to sign all necessary contracts, agreements, etc.; and that the sum of \$1,000.00 be raised and appropriated to be used for any expenses and/or any engineering or consultant fees incurred by said committee, or take any action in relation thereto. (Sponsored by the Provincetown Taxpayers Association and petitioned by Barbara Malicoat and others) Not recommended

Moved by Barbara Malicoat that the Town approve the appointment of a committee of five, named by the Moderator, to investigate thoroughly the feasibility of installing water meters in Provincetown, and that the sum of \$1,000 be raised and appropriated to be used for any expenses and/or engineering or consulting fees incurred by said Committee, and to present their findings at the next special or annual town meeting.

Motion defeated by standing vote 70 yes—87 no.

ARTICLE 40. To see if the Town will vote to accept the layout of Point Street from its present terminus to Bradford Street Extension, all as shown on a plan of the same dated February 1966 and drawn by Francis J. Alves, C.E., Provincetown, Mass.; to authorize the Board of Selectmen to take by eminent domain certain lands shown thereon and to appropriate the sum of \$100.00 for the same, or to take any other action in relation thereto. (As requested by the Selectmen) Recommended

Moved by Marion Taves that the Town vote to accept the layout of Point Street from its present terminus to Bradford Street Extension, all as shown on a plan of the same dated February 1966 and drawn by Francis J. Alves, C.E., Provincetown, Mass.; to authorize the Board of Selectmen to take by eminent domain certain lands shown thereon and to appropriate the sum of \$100 for the same.

On question it was explained that the Town of Provincetown already owns a great part of this land and those that abut will give the land to make this road a little wider.

Motion carried by standing vote 146 yes—4 no.

ARTICLE 41. To see if the Town will vote to accept the layout and relocation of Creek Road from Franklin Street to Nickerson Street, all as

shown on a plan of the same dated February 1966 and drawn by Francis J. Alves, C.E., Provincetown, Mass.; to authorize the Board of Selectmen to take by eminent domain certain lands shown thereon and to appropriate the sum of \$100.00 for the same, or to take any other action in relation thereto. (As requested by the Selectmen) Recommended

Moved by Burton Kenney as read.

Moved by Amelia Carlos that Article No. 41 in the Warrant for Annual Town Meeting for 1966 be indefinitely postponed.

Mrs. Carlos stated that she opposed this article because there are only 3 houses that front on Creek Road and could see nothing accomplished by making it a 2-car road.

Mr. Bell requested that the following Petition be entered into the minutes of the meeting: We, the undersigned, petition the Finance Committee, not to recommend the layout and relocation of Creek Road, as planned in Article No. 41 of Town Warrant for 1966. /s/ Amelia Carlos, 29 Mechanic St.; /s/ Frank Carlos, 29 Mechanic St.; /s/ Margaret M. Fields, 25 Mechanic St.; /s/ Bill Fields, 25 Mechanic St.; /s/ Joan M. Pereira, 22 Mechanic St.; J. P. Senecal, 96 Bradford St.; Julie Senecal, 96 Bradford St.; Antone D. Pereira, 22 Mechanic St.; Helen Car Chan, 33 Nickerson St.; Frances Carlos, 6 School St.; Flora Souza, Franklin St.; /s/ Nancy P. Meads, Cottage St.; /s/ Pauline Fields, 12 Franklin St.; /s/ Cecelia E. Perry, 38 Court St.; /s/ Dorothy M. Pickard, 38 Court St.; /s/ Ronald S. Pickard /by Attorney, 38 Court St.; /s/ Jean A. Malchman, 242 Commercial St.; J. Arthur Lopes, 120 Bradford St.; /s/ Wayne L. Costa, 27 Mechanic St.; /s/ Pauline Costa, 27 Mechanic St.

Motion to indefinitely postpone passed.

ARTICLE 42. To see if the Town will vote to raise and appropriate the sum of \$100.00 and authorize the Board of Selectmen and Town Manager to acquire by purchase or eminent domain the following described parcel of land.

Commencing at a Land Court bound located at the corner of Standish Street and Cemetery Road, thence running N 36°-43'-05" E by said Cemetery Road 18.32 feet; thence turning and running in a southerly direction in a curved line to the left, the radius of which is 25.00 feet, 31.63 feet to Standish Street aforesaid; thence turning and running N 35°-45'-40" W by said Standish Street 18.32 feet to the Land Court bound at the point of beginning.

Containing an area of 55.00 square feet, more or less, or do anything in relation thereto. (As requested by the Selectmen and Town Manager) No majority for or against, 6 members voting, 1 abstaining.

Moved by Mr. Hancock as read.

Motion not passed, 53 no—1 yes.

ARTICLE 43. To see if the Town will vote to authorize the Board of Selectmen and Town Manager to purchase the Railroad right of way

in its entirety, including all land which the Railroad holds through either ownership or fee, from the westerly layout line of Conwell Street to the easterly layout line of Howland Street, an area of six acres, more or less, and raise and appropriate the sum of \$8,000.00 for the aforesaid purpose, or do anything in relation thereto. (As requested by the Selectmen) Recommended. See Finance Committee Report.

Moved by Ernest Irmer that the Town vote Article 43 as printed.

Motion passed.

Moved by Mr. Hancock that Article 4 be taken up at this time.

Motion carried.

ARTICLE 4. To see if the Town will vote to transfer from available funds the sum of \$100,000.00, or any other sum, for use by the Board of Assessors towards reduction of the 1966 tax rate, or do anything in relation thereto. (On request of the Town Manager) Recommendation will be made when this article is taken up.

Moved by Armand Benatti that the Town vote to transfer from available funds the sum of \$60,000.00 for use by the Board of Assessors toward reduction of the 1966 tax rate.

Moved by Mr. Hancock that the sum of \$70,000.00 be transferred.

Mr. Hancock explained that based on the best information that we have if you want to realize a \$60.00 tax rate, \$70,000.00 is needed to make the reduction and this will leave \$37,000.00 in available funds. The \$60,000.00 figure would leave \$47,000.00 in available funds. Mr. Benatti spoke on the amendment saying that the Finance Committee felt that with a transfer of \$60,000.00 the Town would still get a pretty good reduction on the tax rate.

Amendment not carried. Motion passed.

ARTICLE 44. To see if the Town will vote to amend the by-laws by adding the following as Section 24 of Article IV: It shall be unlawful for any person or persons occupying or having charge of any building or premises or any part thereof in the Town, other than that section of any establishment licensed under Chapter 138 of the General Laws, to cause or suffer or allow any unnecessary loud, excessive or unusual noises in the operation of any radio, phonograph or other mechanical soundmaking device or instrument, or reproducing device or instrument, or in the playing of any band, orchestra, musician or groups of musicians, or in the use of any device to amplify the aforesaid, or the making of loud outcries, exclamations or other loud or boisterous noises or loud and boisterous singing by any person or group of persons or in the use of any device to amplify the aforesaid noise, where the noise is plainly audible at a distance of one hundred and fifty feet from the building, structure, vehicle or premises in which or from which it is produced. The fact that the noise is plainly audible at a distance of one hundred and fifty feet from the vehicle or premises from which it originates shall constitute Prima Facie evidence of a violation of this by-law. Any person violating this by-law

shall be punished by a fine of not more than fifty dollars for each offense. Recommended.

Moved by Eugene Watson as read.

Chief Marshall explained that the Police Department has been using the breach of the peace and under the statute the Courts have thrown the cases out because we couldn't say exactly who it was that made the noise. Mr. Marshall also explained that if a complaint is not made there would be no liability.

Motion passed 120 yes—20 no.

ARTICLE 45. To see if the Town will vote to amend the by-laws by adding the following as Section 25 of Article IV: It shall be unlawful for any person or persons being present in or about any building, dwelling, premises, shelter, boat or conveyance or any part thereof, other than that section of any establishment licensed under Chapter 138 of the General Laws, who shall cause or suffer or countenance any loud, unnecessary, excessive or unusual noises, including any loud, unnecessary, excessive or unusual noises in the operation of a radio, phonograph or other mechanical sound making device or instrument, or reproducing device or instrument, or in the playing of any band, orchestra, musician or group of musicians, or the making of loud outcries, exclamations or other loud or boisterous noises or loud and boisterous singing by any person or group of persons, or in the use of any device to amplify the aforesaid noise, where the aforesaid noise is plainly audible at a distance of one hundred and fifty feet from the building, dwelling, premises, shelter, boat or conveyance in which it is produced. The fact that the noise is plainly audible at a distance of one hundred and fifty feet from the premises from which it originates shall constitute Prima Facie evidence of a violation of this by-law. Any person shall be deemed in violation of this by-law, who shall make, or aid, or cause, or suffer, or countenance, or assist in the making of aforesaid and described improper noises, disturbance, breach of the peace, and the presence of any person or persons in or about the building, dwelling, premises, shelter, boat or conveyance or any part thereof during a violation of this by-law shall constitute Prima Facie evidence that they are a countenancer to such violation. Any person violating this by-law shall be punished by a fine of not more than fifty dollars for each offense. (As requested by the Board of Selectmen) Recommended

Moved by Charles DeRiggs as read.

Chief Marshall explained that the previous by-law covered the person in charge and this one is for the people who are present.

Standing vote, motion passed 112 yes—26 no.

ARTICLE 46. To see if the Town will vote to amend Sections One (1) and Two (2) of Article II of the By-Laws of the Town of Provincetown by deleting the word "March" wherever it appears in said Sections One and Two and inserting in place thereof the word "April", or do anything in relation thereto. (As petitioned for by the Good Fellowship Club) Not recommended

Moved by Irving Rogers that Article 46 be indefinitely postponed.

Motion carried.

ARTICLE 47. To see if the Town will vote to amend its By-Laws and adopt the following as its Building Code, or take any action in relation thereto as printed on pages 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31 and 32 of the Report of Finance Committee and Warrant for Annual Town Meeting, Monday, March 14, 1966. (As requested by the Planning Board) Recommended

Moved by Philip Malicoat that Article 47 be adopted as printed in the Town Warrant.

Fernando Gonsalves, Building Inspector, spoke in favor of this article and also Frank Bent. On question, it was stated that the salary of the Building Inspector is \$1,000.00. Tom Rutherford spoke in opposition to the motion saying that it was too restrictive and totally unnecessary in Provincetown because you are limited to size. Mr. Malicoat explained that 3,500 cubic foot regulation is a State law. Mr. Rose also spoke in opposition to the motion. Warren Alexander spoke in favor of the motion as did Matthew Costa who stated that this Code was the most lenient on Cape Cod and is the beginning of good sound construction. Standing vote 90 yes—29 no.

Motion passed.

ARTICLE 48. To see if the Town will vote to amend the Zoning By-Laws to permit the establishment of parking lots in all Districts of the Town and to accomplish the foregoing, that the Town vote to add under Section II Residential District Uses Class B Residential District the following permitted uses: 5. Municipally owned or operated parking lot. 6. Privately owned and operated parking lot, or do anything in relation thereto. (As requested by the Board of Selectmen) Recommended

Moved by Josephine Del Deo that Article 48 be indefinitely postponed.

Motion passed.

ARTICLE 49. To see if the Town will vote to amend that part of the Zoning By-laws under Section VII-A, Definitions, by adding the following definitions, or take any other action related thereto: Apartment: Is a room or a suite of rooms which are occupied or which is intended or designed to be occupied by one family for living and sleeping purposes. Apartment House: Is any building, or portion thereof, which is designed, built, rented, leased, let, or hired out to be occupied or which is occupied as the home or residence of three or more families living independently of each other and doing their own cooking in said building, and shall include flats and apartments. Dwelling: For the purpose of these ordinances dwellings are divided into the following classes: Private dwelling, two family dwelling, multiple dwelling. A private dwelling is a dwelling occupied by no more than one family. A two family dwelling is a dwelling occupied by no more than two families. A multiple dwelling is a dwelling occupied by three or more families. This classification shall include ten-

ement houses, apartment hotels, boarding houses, lodging houses, club houses, dormitories, convents, private hospitals, private asylums and all other dwellings similarly occupied. Family: An individual or two or more persons related by blood or marriage, or a group of not more than five persons (excluding servants) who need not be related by blood or marriage, living together in a dwelling unit. Apartment Houses, Apartment Hotels, Hotels and Motels: Shall be governed as to setbacks, heights and so forth, the same as set forth in Motel and Motel Standards of the Zoning By-laws, Section 6A, 6B, 6C. Egress: Is a free and unobstructed way by door(s), corridor(s), Foyer(s), and stairway(s) leading as directly as possible to and discharging into a street, or into an exit, court or passageway leading into a street or into an approved open space with access to the street. Business Service: A business in where services are furnished for the maintenance of the home or other businesses. Commercial Garden: A truck farm or garden engaged in the selling of vegetables and/or flowers grown on the premises. Museum of Art: Shall be a place indoors for the purpose of exhibiting paintings, drawings, prints, sculptures, antiques and other rare objects of art, and open to the public for viewing. Objects may or may not be for sale. Tea Room: A tea room shall be deemed to be synonymous with a restaurant, but such definition shall not be construed so as to confer the right to establish a restaurant in any district other than those now specifically permitting restaurants, and referred to therein by the term "restaurant". Art Galleries: Shall consist of a place located indoors for the exhibiting of paintings, drawings, prints and sculptures and may be for sale to the public. Arts and Crafts Shops: Shops holding an "Arts and Crafts" license may have for sale or barter only such objects which were handcrafted within the environs of Provincetown, and not items which were mass produced by manufacture, as gifts and novelties of the type commonly sold in a gift or souvenir shop. Recommended

Moved by Philip Malicoat that Article 49 be adopted as printed or read from the Town Warrant, with the correction in paragraph (1), that VI-A, replace VII-A.

Philip Tarvers spoke in opposition to the motion.

Motion amended by Mr. Tarvers to read instead of three or more, six or more on Page 33 under apartment houses.

Heaton Vorse spoke in opposition to the amendment. Mr. Malicoat stated that this would apply to new buildings not old buildings.

Amendment not carried.

Arnold Dwyer spoke in opposition to the motion.

Standing vote, motion not carried 56 yes—64 no.

ARTICLE 50. To see if the Town will vote to amend that part of the Zoning By-law under Sections 3 and 6 "Commercial District Uses" Class R Commercial District, so that the provisions will read as follows; and the amended Class R Area be set down on the Town's Zoning Map, or to take any other action relating thereto, as printed on pages 35 and

36 of the Warrant for the Annual Town Meeting. (As requested by the Planning Board) Recommended

Moved by Philip Malicoat that Article 50 be adopted as printed or read from the Town Warrant.

Motion amended by Mr. Malicoat that Section 6 "Area regulations", Sub-section 5 (a) to read as follows: Beginning at the present terminus of Class R at the easterly side of Court Street where it intersects the northerly side of Commercial Street and proceeding along Commercial Street to the westerly side of Franklin Street where it intersects the northerly side of Commercial Street, and then preceding in a generally northwesterly direction along the westerly side of Franklin Street to the rear property line of the property now established on the corner thereof; then proceeding in a general easterly direction however irregular, following the rear lines of all presently established parcels of property located on the northerly side of Commercial Street, until an intersection is made with the easterly side line of Court Street, then proceeding southerly to the point of beginning.

And also, beginning at the easterly side of Court Street projected toward the shore where it intersects with the southerly side of Commercial Street, and proceeding along Commercial Street to the westerly side of Franklin Street projected toward the shore. Then running along the westerly property lines of the properties abutting Franklin Street, to the most southerly line of the property along or most proximate to that projected line of Franklin Street, thence running in a general easterly direction, however irregular along the southerly line of all properties to the easterly side of Court Street projected as aforesaid, and then in a general northerly direction to the place of beginning.

Mr. Malicoat explained that this would rezone section from Court Street to westerly side of Franklin Street as Class R Commercial. On question by Mr. Tarvers, Mr. Malicoat explained that in old zoning by-law Class R Commercial read club with entertainment, now it will read with or without entertainment.

Standing vote, motion carried as amended unanimously.

Petition for reconsideration of Article 49 was presented to Moderator.

Article 49 not reconsidered by vote 53 yes—56 no.

ARTICLE 51. To see if the Town will vote to amend Sections 3 and 6 of the Town's Zoning By-law by the enactment of the following additional provision and incorporate the amendments on the Town's Zoning Map, or to take any other action with relation thereto: as printed on pages 37, 38, 39 of the Warrant for the Annual Town Meeting. (As requested by the Planning Board) Recommended

Moved by Mr. Wells that Article 51 be adopted as printed in the Town Warrant.

Mr. Wells explained the reason for Class P to provide widening of Commercial districts in Town on arterial Streets and to provide off street

parking in this district. He also stated that there is provision making specification for measuring parking spaces to be provided.

Standing vote, motion carried unanimously.

ARTICLE 52. To see if the Town will vote to amend that part of the Zoning By-laws under Section 1, Establishment of Districts, Paragraph 1, Classes of Districts, in order that the Zoning Map may be amended to change the following described land from Class W Residential and B Residential, to O Commercial;

Shank Painter Road, both sides from Route 6 to Bradford Street and to depth of each individual property line, owned by the following as of January 1, 1965, as shown on Blocks No. 34 and No. 40 on the Provincetown Assessors' maps: West Side. Michael Needle, Parcels 608, 609, 597; Cape & Vineyard Electric Co. Inc., north of Parcel 610; Eugene J. Perry, Parcel No. 610, No. 465; Philip N. Baiona et al, Parcel No. 611; Ruth S. Watson, Parcel No. 612; Manuel Brown et ux, Parcel No. 285; Trustees of Provincetown Methodist Church, Parcel No. 439; Florence L. W. Baumgartner, Parcel No. 439; Mary E. Perry, Parcel No. 466, 467.

East Side: Antone Joseph et ux, Provincetown Golf Range, Inc., Parcels 658, 656; Darwin H. Melis; Ruth S. Watson, Parcels No. 613, 614, 615, 616; Town of Provincetown, Parcel No. 474; Eugene J. Perry, Parcel No. 475; Clayton E. Enos, north of Parcel 468; Clayton E. Enos, Parcel No. 468.

(Sponsored by Good Fellowship Club and others, as petitioned) Recommendation to be made at Town Meeting.

Moved by Fernando Gonsalves that Article 52 be indefinitely postponed.

Mr. Bell explained that the Finance Committee held back recommendation to find out what happened on Article 51 because this deals with the same subject.

Motion carried.

ARTICLE 53. To see if the Town will vote to amend that part of the Zoning By-laws under Section 1, Establishment of Districts, Paragraph 1, Classes of Districts, in order that the Zoning Map may be amended to change the following described land from Class W Residential to O Commercial; A certain section of Court Street, including only the following, to the depth of each individual property line, as shown on Blocks No. 34 and No. 40 on the Provincetown Assessors' maps. Court Street: Provincetown Auto Body, Inc., Parcel No. 655; Monument Fish Company, Inc., Parcel 654; Jacqueline Gleason, Parcel No. 65; Estate of Clayton Hunton, Parcel No. 653; Priscilla S. Salvador, Parcel No. 651; John R. Patrick, Parcel No. 638. (Sponsored by Good Fellowship Club and others, as petitioned) Recommendations to be made at Town Meeting.

Moved by Mr. Gonsalves that Article 53 be indefinitely postponed.

Moved by Irving S. Rogers that this meeting be adjourned until eleven o'clock in the forenoon of Monday, March 21, 1966, and reconvened in Caucus Hall for the purpose of acting on this article and items on the ballot with the polls to open at eleven o'clock A. M. and closed at seven o'clock P. M., with the results of the votes to be read by the Moderator at which time this meeting shall be dissolved.

Motion carried. Meeting adjourned at 11:05 P. M.

## TOWN ELECTIONS, 1966

### March 21, 1966

The Moderator reconvened the 1966 meeting in Caucus Hall at 11:00 o'clock A. M., at which time the polls were declared to be open.

Election Officers: Burton Kenney, Josephine Mitchell, Josephine Cook, Grace Thompson, Mabel Stillings, William J. McCaffrey, Thomas Francis, Flora Souza, Joseph Lewis, Anthony Souza, Clifton Crawley and John C. Corea.

The tellers were supplied with lists of the registered voters of the Town, the ballot box was shown to be empty, and the key was delivered to the Chief of Police.

At 7:00 P. M. the polls were closed, 535 ballots having been cast, three being absent voters.

The votes were counted and recorded, after which the result was read by the Moderator, as follows:

Moderator, one year	Vote for One
Francis J. Steele	494
Selectman, three years	Vote for Two
Ernest Irmer	428
Eugene C. Watson	272
Augustus Reis	105
Manuel A. White	220
School Committee, three years	Vote for One
Raymond W. Souza	456

#### Question

"Shall the town extend contributory group hospital, surgical and medical insurance to elderly persons retired from the service of the town and to their dependents with fifty per cent of the premium cost, a portion of the administrative expense and payment of a surcharge or subsidiary rate to be paid by the town?"

Yes 275  
No 211

The meeting was automatically dissolved after this reading.

# FINANCIAL REPORT

For the Year Ending December 31, 1966

## Appropriation:

Public Schools	\$410,675.00
Total Expenditures	403,522.10

Unexpended Balance, December 31, 1966

\$7,152.90

## Reimbursements and Receipts

Chapter 70—General	\$25,337.96
Tuition—Truro	42,656.30
Boys' Day Vocational	164.36
Dental Clinic	495.00
P. H. S. Athletic Association	1,647.45
Vocational School	12,397.42
Industrial Arts	143.30
Junior Practical Arts	4,226.38
P. L. 874	7,155.00
P. L. 864	998.16
Library fines	13.10
Lost library book	2.65
Damaged textbooks	45.88
Tuition for elementary children—Truro	280.00
School Machine	27.65
Miscellaneous	12.30
Title I	9,895.00
	\$105,497.91

## COST OF SCHOOLS

Total Expenditures	\$403,522.10
Total Reimbursements	105,497.91
	\$298,024.19

## SUMMARY OF ALL SCHOOL EXPENSES

### School Committee

School Committee, Other Expenses	\$103.91
	\$ 103.91

### Superintendent's Office

Superintendent's Office—Salary	\$7,875.00
Superintendent's Office—Salary, Clerical	4,800.00
Superintendent's Office—Supplies and Material	496.52
Superintendent's Office—Other Expenses	300.00
	\$ 13,471.52

### Supervision

Supervisors' Salary, Art	\$4,500.00
Supervisors' Salary, Vocal and Instrumental	4,550.00
Supervisors' Salary, Physical Education	5,666.64
	\$ 14,716.64

### Principal's Office

Principal's Office—Salary, Elem.	\$7,699.92
----------------------------------	------------

Principal's Office—Salary, Clerical, Elem.	1,404.00
Principal's Office—Other Expenses, Elem.	103.98
Principal's Office—Salary, High, Head	8,200.00
Principal's Office—Salary, High, Assistant	7,700.00
Principal's Office—Salary, Clerical, High	2,121.00
Principal's Office—Supplies and Material, High	289.15
Principal's Office—Other Expenses, Grad. High	444.40
Principal's Office—Other Expenses, Dues, Travel	435.22
	\$ 28,397.67

## Teaching

Teaching Salaries, Elementary Regular	\$85,886.28
Teaching Salaries, Elementary Substitutes	2,364.00
Teaching Salaries, Elementary Contingencies	640.00
Teaching Contracted Services, Elementary Writing	420.00
Teaching Supplies and Material, Elementary General	1,721.74
Teaching Supplies and Material, Elementary Art	400.00
Teaching Supplies and Material, Elementary Music, Vocal	124.41
Teaching Supplies and Material, Elementary Music, Instrumental	150.00
Teaching Supplies and Material, Elementary Physical Education	91.87
Teaching Salaries, Special Class, Elementary	4,549.26
Teaching Supplies and Material, Special Class, Elementary	244.24
Teaching Salaries, Summer School, Elementary	578.43
Teaching Salaries, High, Regular	99,760.00
Teaching Salaries, High, Substitutes	1,044.00
Teaching Salaries, High, Contingencies	1,350.41
Teaching Salaries, High, Special Class	5,166.64
Teaching Supplies and Material, High Special Class	328.44
Teaching Supplies and Material, High, General	2,199.61
Teaching Supplies and Material, High, Art	168.21
Teaching Supplies and Material, High, Music, Vocal	129.88
Teaching Supplies and Material, High, Music, Instrumental	152.57
Teaching Supplies and Material, High, Driver Education	595.79
Teaching Supplies and Material, High, Science	918.68
Teaching Supplies and Material, High, Industrial Arts	1,819.19
Teaching Salaries, Vocational, V.H.A. Teacher	6,266.64
Teaching Salaries, Boys' Day Vocational	15,299.09
Teaching Supplies and Material, V.H.A.	469.76
Teaching Supplies and Material, Boys' Day Vocational	1,873.93
Teaching Salaries, EPA	508.50
Teaching Salaries, Adult Education	753.00
Teaching Salaries, Handicapped Children, Elem.	896.00

		35,434.29
		<hr/>
Balance on hand December 31, 1966		\$5,062.32
The following checks will be received after 1966.		
November	\$912.19	
December	779.12	
		<hr/>
	\$1,691.31	

## PROVINCETOWN PUBLIC SCHOOLS

### SCHOOL CALENDAR FOR 1966-1967

Open September 7, 1966		
Close December 23, 1966 (noon)	16 weeks	73 days
Open January 3, 1967		
Close February 17, 1967	7 weeks	34 days
(Vacation one week)		
Open February 27, 1967		
Close April 14, 1967	7 weeks	34 days
(Vacation one week)		
Open April 24, 1967		
Close June 16, 1967	8 weeks	39 days
	38 weeks	180 days

### HOLIDAYS

Barnstable County Teachers Convention, Friday, October 7, 1966  
 Columbus Day, Wednesday, October 12, 1966  
 Veterans Day, Friday, November 11, 1966  
 Thanksgiving Recess, Noon, November 23rd to November 28th, 1966  
 Good Friday, March 24, 1967  
 Memorial Day, Tuesday, May 30, 1967

### HOLIDAYS DURING VACATION

Christmas Day, Sunday, December 25, 1966  
 New Year's Day, Sunday, January 1, 1967  
 Washington's Birthday, Wednesday, February 22, 1967  
 Patriot's Day, Wednesday, April 19, 1967

## ENROLLMENT, PUBLIC SCHOOLS

## SCHOOL CENSUS, OCTOBER 1966

Ages	Boys	Girls	Total	No. not in School
5-7	31	31	62	
7-14	161	174	335	2
14-16	54	57	111	2
Over 16	42	45	87	6
	288	307	595	10

### STATISTICS FOR THE SCHOOL YEAR, 1965-1966

Total Enrollment	710
Average Membership	665
Average Attendance	606
Percent of Attendance	91
Number Enrolled between 5 and 7	62
Number Enrolled between 7 and 16	446

### AGE OF ADMISSION TO SCHOOL

Any child who becomes six years of age on or before January 1 of the year following the fall term when he wishes to enter school, may be admitted into the first grade. Pupils under seven years of age, who have not previously attended school, shall not be permitted to enter later than thirty days after the opening of school in September.

## SUPERINTENDENT OF SCHOOLS

ARTHUR P. MALCHMAN

An historical segment of the activities of the Commonwealth's Board of Education was the passage of Chapter 572 of the Acts of 1965. This act marked the beginning of what will constitute a distinct period in our history of education. The change of command took place on January 25, 1966 which saw the outgoing members replaced by eleven new members.

The Board of Education has never been underwritten adequately nor has had enough staff to perform properly. The so-called Willis Commission report included the following statement:

"It is supremely important for every local school to make its own decisions on the substance of curriculum changes. It is supremely important for every local school to make such decisions freely and with full information. Since the State Department is desperately short of resources it needs to bring full information about curriculum innovations to local schools, far too many local schools are limited in deciding what to teach and how. Many teachers and administrators are far too busy to keep up with educational developments; even those who find time to read about them may not have a chance to see them in action. In fact many local people depend on textbook salesmen for much information about the wider world of educational change. While such sources of information are clearly preferred to none at all their commercial bases are inescapable and their fullness questionable. An orderly disinterested, comprehensive

and permanent flow of educational information to schools is essential. It should come from the State Department of Education."

### LEGISLATION

It is not practical to list each and every Act and Resolve pertaining to education because of the large volume. A few will be outlined.

Chapter 763: This is the law granting teachers collective bargaining rights which was passed in February 1966. Although collective bargaining has long been associated with the nation's major industries, this legislation now includes school committees and school personnel. However, Provincetown's teachers and School Committee, after several meetings, adopted all the final recommendations of the Teacher's Committee with some minor exceptions. Personally, collective bargaining does not strike me as a right method for a group that claims to be professional. But until school systems change it seems to be necessary.

Chapter 14 of the Acts of 1966: This is the so-called sales tax. Previously, school monies came directly from the State's income tax, with local communities relying on property taxes for the main support of schools. Presently we have the 3% State Sales Tax which will make this year's entitlement an estimate of \$50,000.00 for 1966 as against \$33,000.00 for 1965.

Chapter 572: Under the provisions of Section 1G the board established a mandatory school day. Elementary schools shall operate not less than 5 hours daily exclusive of lunch or other recess. Secondary schools shall operate not less than 5½ hours daily exclusive of lunch or other recess. The school year remains at 180 days exclusive of vacations in each school year.

Chapter 413, Acts of 1956: This is the act to alleviate increased burden placed on committees as a result of federal activities, commonly referred to as Public Law 874. To be eligible for this Public Law 3% of the school enrollment must have parents that are federally employed; exclusive of Post Office. The amount of federal reimbursement we receive per child is based on two things—the amount we as a school spend per child per year (figures which are from our yearly State Report) and whether or not the child and his family live on or off federally-owned property. If a family resides on federally-owned property, the town therefore receives total reimbursement. Last year this figure was \$397.52 for each child of that family enrolled in our school. If the family does not reside on federally-owned property and does, therefore, pay taxes, the school receives one-half of the total reimbursement figure per child.

All funds made available to the school under this law are placed in a "revolving fund" and can be used for any purpose directly involving the school and its needs. However, due to the Harvey vs Sudbury case of this year, any balance on December 31 of any given year must be applied to the budget. This year the figure is \$4,684.73 which reduces the school appropriation.

Public Law 864: This is known as the National Defense Education

Act in which the funds are managed in the same manner as Public Law 874 funds. The amount of this account applied to the budget this year is \$2,788.67 which again reduces the school budget.

For Title I and Title II grants I refer you to the report of the Principal of the Veterans Memorial School, Miss Rosemary Bowler.

To get a full picture of the entire program please read the reports of Principals, Supervisors, School Nurse and other personnel which follow this report.

It has been a distinct pleasure to work with the School Committee and all the school personnel of both schools.

### HIGH SCHOOL PRINCIPAL

GEORGE F. LEYDEN

I herewith submit my thirtieth annual report as Principal of the Provincetown High School.

### ENROLLMENT

High school enrollment by classes as of October 1, 1966, is as follows: (these figures include the Vocational Automotive School).

	Boys	Girls	Total
SENIOR	25	31	56
JUNIOR	28	30	58
SOPHOMORE	28	30	58
FRESHMAN	31	30	61
			<b>TOTAL: 233</b>

Junior high enrollment by grades is as follows:

SR. PRACTICAL ARTS	3	5	8
GRADE EIGHT	30	33	63
GRADE SEVEN	25	29	54
			<b>TOTAL: 125</b>
			<b>GRAND TOTAL: 358</b>

### PUPILS ATTENDING SCHOOLS OF HIGHER EDUCATION

#### Class of 1966

Margaret L. Atwood	University of Rhode Island
Francis A. Baker	Stenotype Institute
Paul V. Benatti	Amherst College
Edward G. Boxer	Fairleigh Dickinson University
Carol A. Days	University of Massachusetts
Joseph M. Days	Boston College
Kathryn E. DeRiggs	Modern School of Fashion Design
Liliana DeSousa	Mansfield Academy

 Worcester Polytechnical Institute  
 Bridgewater State College

**ACCREDITATION**

Provincetown High School is a member of the New England Association of Colleges and Secondary Schools. This organization is the accepted accrediting body in the northeastern states. Membership in the Association constitutes regional accreditation. Qualitative standards for membership in this organization shall apply to all schools. The purposes of the school shall be appropriate for an institution of this type. The program, faculty, staff facilities, and resources must be adequate to carry out its purposes in terms of the type of students it serves.

**NOTICE TO PARENTS**

It is important that all parents and students understand that the following are the basic requirements for graduation, without which, no diploma will be presented:

English, public speaking, and library instruction	20 points
Two years of Social Studies, one of which must be United States History	10 points
Mathematics, two years	10 points
Science, two years	10 points
The remaining 30 points for graduation must be made up by a combination of electives and special subjects to total	30 points

Eighty points and satisfactory accomplishment in these prescribed subjects meet the requirements for a diploma.

There are too many parents in Provincetown who assume a lackadaisical attitude towards the regular attendance of their children at school.

The student's attendance, as well as scholarship and citizenship, is a permanent record in our files. We are asked frequently to give information about our students—sometimes many years after graduation. **A good high school record is a badge of merit.**

#### SCIENCE DEPARTMENT

The seventh and eighth grade science curriculum is based on the Holt Rinehart Modern Science I and II approach.

In grade 7, the basic units are (1) the universe, (2) the atmosphere, (3) living things, and (4) the earth. We feel that these four basic units will prepare our students to enter into our ninth grade curriculum in Earth Science and our tenth grade curriculum in BSCS Biology (the Green Version). We also feel that this curriculum lays down a solid base upon which the student can better understand his every day experiences in relation to our technological society.

The four basic units in grade 8 science are (1) man investigates matter, (2) man investigates energy, (3) man investigates machines, and (4) man investigates his body. It is our hope that this curriculum will prepare the students to better understand the subsequent senior high school courses in chemistry and physics, since most of science from junior high school on is based, at least in part, upon the chemical and physical world.

Earth Science has replaced General Science at the ninth grade level. The main thought of this course is to give the student a proper perspective from which he may develop a conception of the earth's place within the universe as well as a basic awareness of time and change.

In grade 10, our biology classes are divided into two groups—college and non-college. The college group uses for its text a BSCS Green Version in which we place the emphasis on ecology (the relation of animal, plant, and man to his environment) and upon evolution (the changing of structure and function over a period of time). The main emphasis in the non-college group is the study of the human body and the interrelationship of the ten main organ systems and the possible diseases which may affect them. The last part of this course is devoted to the systematic study of the plant and animal kingdom in order to make the student more aware of his environment.

Chemistry, grade 11, college: The present curriculum in chemistry is based along the lines of the traditional classical approach. The main emphasis is placed on atoms, molecules, compound formations, and the reaction and interrelationships of matter in the chemical system.

Physics, grade 12: The present physics curriculum is the typical classical approach to the discipline, and is based on the Holt, Rinehart Modern Physics curriculum. The curriculum is divided into three main sections (1) mechanics, (2) energy, and (3) atomic physics; the correlating thread that runs through these three units is the mathematical expression of the physical world.

Marine Biology, grade 12, college: The curriculum in Marine Biology is broken up into three basic units; namely, (1) invertebrate and verte-

brate zoology, (2) oceanography, and (3) marine ecology (the relationship of the organism with its biotic and abiotic environment). Our main purpose in this curriculum is to enhance the students' knowledge of the environment in which he is living. This course is particularly appropriate today because of man's ever-increasing reliance upon the sea as a source of raw materials to supplement our ever-increasing population and the demands of our technological society.

#### ATHLETIC DEPARTMENT

Our Athletic Department has expanded over the past ten years, and I hope it continues to expand so that at some time in the near future we will have the opportunity of offering to each boy and girl the privilege of participating in some athletic activity, whether it be on the varsity level or intramural level.

A more detailed account of our athletic endeavors and program will be included in the reports of Mr. David J. Murphy, Mr. Stephen Goveia, and Miss Elizabeth DeRiggs.

I would like to thank Mr. Arthur Roderick of the Recreation Commission for his continued and valuable interest in our athletic program, and also the Recreation Program which he conducts.

I would like to thank the citizens of the town for their splendid interest down through the years and the members of our teaching staff, who have given of their free time in supervising and in other capacities at our home games.

#### CAFETERIA LUNCHROOM PROGRAM

The cafeteria lunch program is one of the most popular highlights of the school day's activities. The long lunch lines at lunchtime are a tribute to the culinary arts of Mrs. Ruth Wilson and her co-workers, Mrs. Etelvina Motta, Mrs. Amelia Medeiros, and Mrs. Leah Henrique. The whole lunchroom program is under the direction of our household arts supervisor, Mrs. Mary Rowe.

#### ART DEPARTMENT

A report of the accomplishments of the art department will be submitted by Mr. Frederick W. Shaw, our art supervisor.

#### INDUSTRIAL ARTS AND TECHNICAL DRAWING DEPARTMENTS

A detailed account of the accomplishments of these departments will be given by Mr. Ernest L. Carreiro.

#### SCHOOL LIBRARY

Our high school library, under our part-time librarian, Mrs. Virginia Andrews, has been functioning in a most satisfactory manner. I wish, however, that Mrs. Andrews, instead of being only a part-time librarian, could function for the whole of the school day. At the present time, the library opens at 12:00 noon, and remains open until 3:30 P. M.

Mrs. Andrews has brought order out of chaos by the proper catalog-

ing of books in our library. We have added one thousand volumes to our shelves. This number includes fifty books under Title II of the NDEA. We are indebted to the Class of 1966 for the gift of the "Foundations of Science" series. The circulation of books for September was 407, October—601, November—655, and December (up to December 22)—596. Total circulation of books for the year 1966—4,357.

#### BUILDING MAINTENANCE

The Junior-Senior High School building is in excellent condition. This is due to the intelligent expenditures that have been made in keeping the older parts of the building up to date and to the hard work and loyalty of the custodial force.

#### CONCLUSION AND APPRECIATION

I wish to thank the public for their loyal support and understanding patience down through the years. There have been times when we have had to appeal to the many friends of the school to support our various activities. The public, in general, has responded magnificently.

I wish to thank our splendid faculty for their loyalty and cooperation in helping to make our school a good school.

I wish to convey my deepest appreciation to our Superintendent of Schools, Mr. Arthur P. Malchman, and our School Committee for helping to make the task of administration of the school a most pleasant one.

### VETERANS MEMORIAL SCHOOL

ROSEMARY F. BOWLER, Principal

I hereby submit my second report as principal of Veterans Memorial School.

#### Enrollment as of October 1, 1966

Kindergarten		Grade Four	
Mrs. Tasch	24	Mrs. Couper	28
Grade One		Mrs. Alves	25
Mrs. Francis	18	Grade Five	
Miss Dennis	19	Miss Lester	23
Grade Two		Miss Morey	24
Mrs. Dutra	23	Grade Six	
Mrs. Rogers	24	Mrs. Cole	30
Grade Three		Mrs. Perry	30
Mrs. Jenkins	22	Junior Practical Arts	
Miss Kelley	22	Mrs. Dias	6

The calendar year 1966 was one of change in several areas and was marked by a high degree of professional growth. During the year we have added to existing services and provided several new services, all of which are making important contributions to the quality of education:

1. In March 1966, Mrs. Wallace O'Donnell assumed responsibilities as elementary school secretary. Although her work involves many things,

one example may suggest the value of her services. By taking over all the collecting and accounting for the school lunch program, the secretary saves each teacher a minimum of 75 minutes per week. Over the course of a school year, this means an additional week and a half of instruction which each teacher can provide for children.

2. Mrs. Oscar Weisser, who initiated the remedial reading program in September 1965 has been able to expand her services both to children and teachers with the increase in her time from two to three days per week effective September 1966. Her report of this program will be found following this report.

3. Mrs. Frederick Tasch was employed as kindergarten and art teacher. The addition of the kindergarten program is an important step toward our goal of strengthening instruction; and her schedule makes it possible for each class to have a lesson with the art teacher each week.

4. Miss Madeline Morey was employed, effective September 1966 as a fifth-grade teacher and part-time elementary school counsellor. She has approximately three hours of released time per week for individual testing, counselling, and conferring with parents. This service, we hope, will be extended in the spring term under a Title I grant.

During 1966, faculty and administration devoted considerable time to applications for federal grants. The first grant, of just under \$10,000.00, under Title I of the Elementary and Secondary Education Act made possible the purchase of the following materials and equipment as well as paying for services involved in running the 1966 summer school program:

Kindergarten furniture	\$320.00
Kindergarten equipment	260.00
Filing cabinets	120.00
Instructional materials	630.00
Bell & Howell Language Master	300.00
Air-Wall Room Divider and accompanying renovations	2,000.00

Under Title II of ESEA, a grant of \$500 for purchase of library books was received.

Under Title III of the National Defense Education Act, the following were purchased and 50% of the cost reimbursed:

3 Bell & Howell Filmstrip Projectors	\$480.00
1 Overhead projector and accessories	240.00
Filmstrips and records	390.00

By the time this report is printed we anticipate word that our latest Title I application for \$13,275 for School Union No. 14 has been granted.

Most of the equipment and materials purchased under these federal acts were selected for use in strengthening instruction in reading—the major area of faculty study during 1965-66. Through the efforts of Mrs. Weisser and Mrs. Myron Kraft (reading consultant who worked with teachers several times during the year) and the commitment of the faculty, I believe we have made some important steps forward in our own

understanding of the complexities of learning to read and in our effectiveness in the classrooms.

One major outgrowth of teachers' work in this area is the program instituted this fall in grades 4, 5, and 6.

Children in grades 4-6 are assigned to reading lessons by the principal and the reading specialist. The class to which a child is assigned depends on many factors, including: his past performance in reading; the observations of his previous teachers; a comprehensive reading diagnostic test given toward the end of the spring term.

Regardless of age or grade-placement, children are assigned to the class in which we believe they will have the best opportunity to gain skill and confidence in reading. As children show marked progress in one reading class and it appears likely that they can succeed with more demanding work, they are transferred to the next higher level. Occasionally, but less frequently, we discover that we have over-estimated a child's present reading skill and it is necessary to transfer him to a lower level until he has an opportunity to catch up.

The child's grade in reading tells how well he is doing in the reading class to which he is assigned. It is important that parents check the reading level as well as the reading mark to learn about their child's progress in this basic area.

Although it is too early to judge the effectiveness of this program, the indications are that children are performing better in this grouping (similar to the so-called Joplin Plan) than they have done previously. Certainly it represents, on the part of the teachers, a real effort to carry out in practice, well-established theories of child growth and development; in particular, it brings closer to reality the goal of meeting each child at his level of achievement and providing instruction that enables him to move ahead as rapidly as he is able.

In addition to a continuing study of the reading program, faculty members at Veterans School and at Truro Central School initiated work-study committees in social studies and science. The long-range goal of these committees is to draft curriculum guides in these areas. In working toward this goal, teachers are studying trends in teaching as well as new text and other instructional materials; they are working on this with the aid of State Department of Education consultants and the principals of the two schools.

It is our belief that developing the best possible programs in these areas for the elementary pupils in the school union will require extended study and experimentation by the faculty. A hastily-conceived curriculum guide too often fails to meet the needs of the school-community and too often results in wasteful expenditures of public monies. It is our hope to present to the respective school committees recommended curriculum guides which we feel will bring about improvements, be useful to new teachers, and raise the level of understanding of teachers, pupils, and parents.

The work being performed by all members of the staff at Veterans Memorial School is the work of competent and dedicated people. It is my privilege to work with them in one of the most exciting and vital tasks facing our nation—that of education.

## GUIDANCE DIRECTOR

ANITA R. BERMAN

I hereby submit my report for the calendar year 1966 as Guidance Director of the Provincetown Schools.

### INDIVIDUAL COUNSELING

The rewards which one derives as a result of the efforts put forth in the performance of professional duties cannot really be measured; suffice it to say, however, that they are often great. Working largely with students on an individual basis, as a Guidance Counselor does, enables me to define specifically the problems, ambitions, and goals of the individual students and to analyze, subsequently, whether I have helped them in some way in their school and personal adjustment.

At times it appears that tremendous strides are being made, while at other times there is little visible evidence of time, effort, and energy spent in trying to help a student. However, the efforts continue, for while progress with individuals is sometimes slow, the fact that there is progress at all is always encouraging.

During the past year, I have found that I have spent more time working with individual students who manifested evidence of serious problems—both personal and academic—than I had in previous years. I have been able to avail myself of the help of the Adolescent Clinic at the Children's Hospital, The Barnstable County Child Guidance Clinic, and the Paul Dever Evaluation Clinic at Pocasset. These referral agencies, as well as the Provincetown Welfare Department, have been most cooperative in working with me to help individual students.

### GUIDANCE CONFERENCES

However, guidance services exist not only for the troubled student, but for all students. Although it is often the case that students seek the help of their guidance counselor when a problem exists, I have, this year, arranged a system of scheduling individual conferences for all students. With this goal in mind, I hope by the end of the school year, to have accomplished what I am planning. Naturally, in working with members of the senior class, many individual conferences are necessary in order to best advise them concerning their post-high school plans. With students in the eighth grade, too, the selection of their high school course often necessitates several conferences with both the student and with his parents, if necessary.

### TESTING PROGRAM

The program of testing, which is administered by your Guidance Director, provides the administration, teachers, pupils, and parents with

continuous and extensive data relating to pupil progress in the educational program. Teachers are encouraged to make maximum use of the results. The Director of Guidance is available as a consultant to those teachers who wish additional help in relating test results to classroom instruction. Tests which are administered within the scope of the Guidance Director include tests of mental ability, given to students in the second, fourth, sixth, eighth, and eleventh grades. Achievement Tests published by Science Research Associates, are given to students in grades seven and eight. Students in grades nine through twelve are given the Iowa Tests of Educational Development. Individual tests of intelligence are given to students who are referred by the Principal of either school. Various programs of national testing are also administered by your Guidance Director. These include the Preliminary Scholastic Aptitude Test given to juniors and seniors, the National Educational Development Test to freshmen and sophomores, and the National Merit Scholarship Qualifying Test to juniors. The "Kuder Vocational Preference Record" is given to students in the junior class, and this has been a valuable aid in helping to determine possible occupational goals toward which a student's interests may lead.

Of maximum importance in any testing program is the interpretative follow-up which is done both with school personnel and with parents. Many faculty meetings are held for the purpose of discussing and analyzing test results as they pertain to the high school curriculum. Individual conferences are scheduled with parents in order to explain a student's test performance on the schoolwide achievement tests.

#### **CAREER DAY**

On March 29, 1966, the second Career Day program was held at the high school. Present were thirty guests who represented various schools, colleges, trades, and professions. A panel discussion was held in the auditorium involving seven visitors, and attended by all students in grades nine through twelve. This was followed by a luncheon for the guests, served and prepared by Mrs. Mary Rowe and the students of the Vocational Household Arts course. Following lunch, students attended sessions of their choice conducted by the guest speakers on various career opportunities. Faculty members were moderators and discussion leaders in each classroom.

Visitors traveled from great distances to attend this Career Day program, and were most enthusiastic in their support of this project. I was ably assisted in the clerical details involved in this program by Miss Kathleen Medeiros and the typing classes.

#### **FUTURE TEACHERS OF AMERICA**

In April of 1966, as the result of requests by several students, a Future Teachers of America chapter was organized once again, and your Guidance Director was asked to be faculty advisor to the group. This fall, all members have been active in observing and helping at the Veterans Memorial School and at the High School. Meetings are held twice monthly, with films being shown and reports being given. The group plans to attend the State FTA conference in April.

#### **SUBJECT AND COURSE SELECTION**

Each spring students are asked to select the course and subjects which they will include in their program for the following school year. Every student's course selection is studied carefully by your Guidance Director, and conferences are held with students regarding their choice of subjects. Since a student's vocational and educational goal is of utmost importance in the selection of subjects, this stimulates use of the many materials available to students in The Browsing Room of the guidance office. School catalogs, tape recordings concerning occupations, literature on careers and professions is in constant use throughout the year, but especially during the spring, when decisions must be reached.

#### **PROFESSIONAL IMPROVEMENT**

I have always felt that it is of utmost importance for any professional person to keep abreast of the latest developments and trends in his field of work. In an attempt to keep well informed in the area of guidance, I have maintained memberships in the Cape Cod Guidance Association which sponsors the "All Cape College Day," the Massachusetts School Counselors Association, the American Personnel and Guidance Association, and the National Education Association. All of these groups hold meetings and publish data which is pertinent to my work in the Provincetown schools.

I have, during the past year, attended several conferences which were approved by the School Committee, including the Admissions Conference on State Colleges at Boston State College in November; a conference on "New Trends in Community Mental Health" held in March at the Sheraton Plaza in Boston; and the annual meeting of the Massachusetts School Counselors Association held at Brandeis University in May.

#### **CONCLUSION**

In conclusion, I would like to express my appreciation to the administration and faculty of the Provincetown School Department and to the Provincetown School Committee for their cooperation with and support of my work throughout the year.

#### **PROVINCETOWN VOCATIONAL HIGH SCHOOL**

KENDALL M. KNOWLTON

I hereby submit my annual report for the Provincetown Vocational School.

Vocational Education is the preparation of our youth for their place in industry. The importance of this type of education is pointed out by the fact this is the only type of education that is financed by Local, State and Federal funds.

The modern automobile is a complex machine that uses almost every conceivable mechanical and physical principle known to man. The manufacturer each year makes his product more complex by adding more automatic equipment to improve his product. This means the school and

its equipment and its teachers must keep abreast with each change, and the student in this field of education be the type of person that can profit by this training. He must have the ability and mature attitude to master this complex education.

In today's world each pupil must be educated to the fullest degree. This means if a pupil's aims and desires are toward a trade, they must be prepared in school to meet the demands of industry.

The small school cannot offer all trades in their program, but must choose the one that offers the greatest number of the skills used in all trades. The trade that is usually chosen is the Automotive trade as it includes electrical, machinery, electrical welding, gas welding, hand tools, testing equipment, precision measuring, diesels and many other skills used in other trades.

The world would be at a standstill without the tradesman today, and many more will be required in the future to keep this country strong.

The shop program this year has completed many fine shop jobs. This shows great pupil interest. The school bus is serviced and repaired by the students in the Vocational School. The boys keep it rolling.

The Vocational School staff is as follows:

Mr. Clifford Silva—Related Studies

Mr. Kendall M. Knowlton—Shop Practice

I wish to thank our Director, School Committee and all others who made our progress possible this year and have given us aid in the past.

## COMMERCIAL DEPARTMENT

KATHLEEN J. MEDEIROS

I herewith submit my annual report of the Commercial Department of the Provincetown High School.

The Stenography I and II classes are receiving intensive drilling on the basic principles and fundamentals of the Gregg Diamond Jubilee Series. In the transcription classes, special emphasis is placed on spelling and punctuation. Tests covering the shorthand principles together with spelling, definitions, and punctuation are issued weekly. Speed Dictation Records are used with both classes and speed with accuracy is urged in all classes.

The Junior Typewriting classes prepared all the stencils for the school publication *Ecriture* and assembled this periodical for distribution. This group also assisted the school secretary in the preparation of the Teacher's Handbook and worked with the Guidance Department in handling the necessary correspondence and duplication for our annual Career Day. At the present time, the Senior typewriting class is preparing the copy for our 1967 annual, *The Long Pointer*. These added activities enable the pupils to acquire the qualities of reliability, self-reliance, and cooperation.

Enrollment in the Bookkeeping class has increased, and The Monroe Accounts Receivable machine is used in the course in the preparation of their sets. An average of C from a mathematics course is the requisite for all students taking the course, and I feel that this standard should be continued in order to eliminate any unqualified students. It has been most encouraging to see many of our students continue their business education, which is a most competitive field, and to learn of their progress in the business school of their choice.

At the present time an Olivetti calculator has been added to our department. This machine will also be available to the Mathematics and Science Departments. It is hoped that a few more of these machines will be forthcoming for uninterrupted use in these classrooms.

In closing I wish to express my sincere appreciation for the assistance and cooperation I have received.

## SUPERVISOR OF ART

FREDERICK W. SHAW, JR.

I herewith submit my annual report as Supervisor of Art.

During the past eight years I have noticed many changes in our schools, students' interests, and the type of work now popular in the art field. It is my aim to keep our students up to date in methods and the materials that they use. With the great number of students in our system with above average interest and ability in the art field, it is most important that we have the best equipment and supplies at their disposal.

I feel that this year one of the biggest obstacles in the Junior High program has been removed. Namely, the size of the classes. This year all the Junior High classes have been split so that I have the girls for one period and the boys another. There are several advantages to this scheduling and I hope this system will remain. First, it eliminates the overcrowding in the art room and secondly, I can now gear a program that is of particular interest to each group.

An equal balance between drawing, painting, and the crafts seems to be successful at this level. Such projects as papier mache and Christmas decorations are popular and also present an opportunity for group work. Emphasis is placed on techniques and the use of a variety of materials.

In the Senior High School, I have a full schedule of classes this year four days a week. Increased emphasis on Art History, crafts, and painting are now possible. Much more work in the three-dimensional areas, sculpture, modeling, and designing are being offered to advanced students.

During the year many projects, both group and individual, are undertaken in relation to school activities. Decorations for school dances, class play, seasonal bulletin boards, and other activities give the students experience in the practical application of art.

Due to the fact that an increasing number of students are considering art as a career, I find it necessary to emphasize the technical and

mechanical aspects of the subject even more at the high school level than in the lower grades.

I feel that our art program has now become a stable, functional department which is being used in conjunction with the other subjects as a learning experience.

The art program, which in many places is considered a "frill", does not fit that category in the Provincetown schools. Thanks to the help, aid, and encouragement of the Administration, I feel our art department is second to none.

In conclusion, I would like to take this opportunity to thank all those persons who in any way helped to make our program the success it has been this past year.

## HOUSEHOLD ARTS DEPARTMENT

MARY D. ROWE

I herewith submit my annual report for the Household Arts Department for the Provincetown Junior-Senior High School.

Because all girls should be familiar with the practical subject of homemaking, this subject is essential to all educational systems. It is important that every girl be given the opportunity in school to learn the rudiments of good cooking and to master the essentials of sewing and homemaking.

The seventh grade girls have learned the basic stitches of sewing, plus the efficient operation of the sewing machine. Each student is now finishing an apron which will be used for protection during the Foods classes. Before starting the cooking classes, the girls begin work on a simple cotton skirt and will learn how to put in a zipper.

The eighth grade students have been studying nutrition and with the principles they have learned are planning menus and orders. They have completed a breakfast unit, a simple luncheon unit, and have made cookies and candy for the holiday season. Soon they will start clothing classes, learning the use of the commercial patterns and will make skirts, blouses, and shifts.

The high school girls in the State-Aided Vocational Household Arts Program have two periods of classes each day. They have completed several sewing projects including making skirts, dresses, and children's clothing. In Foods they have studied a luncheon unit along with jelly, Christmas cookies, candy, desserts, etc. They have studied food nutrients, menu planning, and budgeting the family income. The girls have made booklets on Home Management, Personal Appearance, and Child Care. They will start a Textile Unit, studying both the old and the new fabrics which are on the market today, and will also study a dinner unit. Each girl in the course is required to complete one hundred and ninety hours of home projects which correlate their classroom study to the home situation.

## GIRLS' PHYSICAL EDUCATION

ELIZABETH DeRIGGS

I herewith submit my annual report as Physical Education Instructor for girls of the Provincetown Junior-Senior High School.

The President's Council on Physical Fitness is doing a tremendous service in stressing the importance of Physical Education and with this in mind the school program is directed toward helping all students attain a high degree of fitness. We strive to teach students the things we think are important but we realize we can not make a student learn—she has to want to learn what we teach, for only in this can she make the knowledge offered a part of herself.

The Physical Education program consists of:

1. conditioning exercises
2. tumbling
3. relays and organized games
4. self testing exercises
5. apparatus work
6. individual sports
7. team sports

Physical Fitness is a basic objective of Physical Education but all students should learn to attain and appreciate a high level of physical development so that they can engage in sports and other activities with pleasure and confidence and to develop habits that will maintain good health and health habits, and desirable attitudes to be a dependable citizen of the community.

## PHYSICAL EDUCATION

STEPHEN C. GOVEIA

As instructor of Physical Education in the Provincetown Elementary, Junior and Senior High School, I respectfully submit my annual report.

As a physical educator, my major responsibility to you the parent, and to the student, is keeping the development of the physical aspect of life as well emphasized as the intellectual and social phase of our society.

We are fortunate in the fact that the majority of our students are in good shape physically. However, there is an increasing minority who have become lazy and inactive in their physical well-being and these are the students we are trying to reach. In order to succeed in reaching these individuals, we need the help of the parent and all concerned with his or her physical well-being.

Our elementary program has been strengthened through the efforts of Miss Rosemary Bowler, principal, and through the cooperation of the teaching staff in presenting the children with physical education classes every school day. The attitude of the student body toward physical edu-

cation has been very rewarding and should better their future activity in years to come.

The Junior-Senior High School physical education program has been enhanced with the addition of its own separate operating budget and the return to a grading system, strengthening the program and rewarding those with physical initiative. It also encourages those with less initiative.

### COURSE CONTENT

The following areas covered in Physical Education classes are:

1. Physical Fitness Tests.
2. Skills Tests.
3. Written Tests on Skills.
4. Gymnastic and Apparatus Work.
5. Rhythms.
6. Combative Sports.
7. Team Sports.
8. Individual Sports.
9. Games—Specific and Informal.
10. Corrective Program.

### HIGH SCHOOL ATHLETIC DIRECTOR

DAVID J. MURPHY

I herewith submit my annual report as Athletic Director of the senior and junior high school.

### PROGRAM

We continue to offer the same sports program for girls and boys that we offered last year. The two girls' sports, namely, Field Hockey and Softball, which we placed on a varsity status last year, have been functioning well. Because of your cooperation and understanding, we now have the opportunity to offer each boy and girl the privilege to participate in a sport at the varsity level for the entire school year.

The sports program offered at the various levels and the number participating in each are listed as follows:

Varsity Sports		Intramural	
1. Football	32	1. Basketball (boys)	
2. Basketball		a. High School	20
a. Boys	15	b. Junior High	35
b. Girls	15	<b>Interclass Basketball</b>	
3. Field Hockey		1. Boys and Girls,	
a. Girls	26	all classes	50
4. Baseball	25	<b>Junior High</b>	
5. Softball		1. Basketball	17
a. Girls	22	2. Baseball	20
6. Track	24	<b>Cheerleaders</b>	
<b>Junior Varsity</b>		1. High School	8
1. Basketball		2. Junior High	8
a. Boys	15		
b. Girls	15		

Scheduled games in the above listed sports, except at the intramural and interclass level, are arranged with all schools on the Cape.

In the case of football, necessity compels us to seek games with off-Cape schools in order to compete against schools of our size.

We are pleased to report for the first time, if the research of this department is correct, that we held our first home track meet. More of these meets will be held during the coming year.

If I may repeat, the two additional varsity sports for girls and the possibility of scheduling home track meets were made possible only through the continued improvement of the Motta Memorial Athletic Field.

I am sure the entire coaching staff and student body are deeply appreciative to the citizens of the town and the members of the local Lions Club for this improvement.

### RECOMMENDATIONS

We have been fortunate during the past few years in that we have been able to play all our home football games at Evans Field. However, during the past season we were confronted with a situation that could be repeated many times. If we should have a reoccurrence of a heavy rainfall during the football season, Evans Field would be unsuitable to play our games. It is recommended that serious thought be given to playing our home football games at Motta Athletic Field, and that Evans Field be used only for a practice field.

It is recommended that consideration be given to the installation of glass backboards in our gymnasium.

### CONCLUSION

May I again express my appreciation to the following:

The coaching personnel for the continued interest they have taken in fulfilling the athletic needs of the students of our school.

The teaching staff, who have given up some of their free time in supervising at all our home games.

Mr. Arthur Roderick of the Recreation Commission for his valuable assistance in preparing facilities for our outdoor athletic program.

The citizens of the town for their continued support and approval of our athletic program.

The school administration and school committee for their understanding, cooperation, and for making available the materials to successfully operate our athletic program.

## INDUSTRIAL ARTS DEPARTMENT

ERNEST L. CARREIRO, JR.

As instructor of Industrial Arts at Provincetown High School I respectfully submit my fourth annual report.

John Amos Comenius, once called the father of modern pedagogy, thought that "children should learn the most important principles of the mechanic arts, both that they might not be too ignorant of what goes on in the world around them, and that any special inclination toward things of this kind may assert itself with greater ease later on."

Jean Jacques Rosseau reveals his thoughts on the value of practical work in the schools by stating as follows:

"If instead of making a child stick to his books I employ him in a workshop, his hands labor to the profit of his mind, he becomes a philosopher but fancies he is only a workman." The great secret of education is to make the exercises of the body and the mind serve a relaxation to each other.

John Dewey, in his writings echoed the thoughts of Plato when he emphasized the fact that people learn by doing.

Industrial Arts is offered to students in grades seven through twelve. This year it was especially rewarding to see a large number of senior high students elect this program. Use of hand tools and machine tools in the area of woodworking and bench metalworking offers the student an opportunity through the selection of a project to experience planning, construction, and finishing of materials.

Two courses in Technical Drawing compliment the program, with instruction in basic use of instruments and drawing principles as an introductory course and advanced drawing including pictorial and architectural composing the second course.

I look forward to the new year with enthusiasm and hope that some of the plans we are now contemplating for an expanded program will formulate.

## SENIOR PRACTICAL ARTS

MICHAEL A. PAPPAS

As instructor of the Senior Practical Arts Class, I hereby respectfully submit my first annual report.

"Although children may be the victims of Fate, they will not be the victims of our neglect."

John F. Kennedy

The basic needs of children consist of opportunities to participate in worthwhile activities, to feel that they are valuable, contributing members of a group, to be accepted for what they are, and to have success in the performance of these worthwhile activities. A school environment that

does not provide satisfactory, worthwhile educational experiences upon which the child can achieve and have success contributes to the lack of emotional adjustment and consequent deviate behavior. Our general objectives therefore, are a grouping of the handicapped children with their peers for the purpose of providing educational experiences and instruction at their developmental level and level of understanding. More specifically, we are concerned with (1) personal and emotional adjustment, (2) social adjustment, and (3) economic adjustment.

## JUNIOR HIGH SCHOOL

- (1) The junior high school period is a time for consolidation of social and academic skills learned at the primary and elementary levels.
- (2) Due to the physical organization of the school, it provides opportunities for greater and more varied application of academic skills, the learning of a greater variety of prevocational skills and an expanded opportunity for wider and more varied social experiences.
- (3) Readiness for learning about jobs and job requirements are established during this period.

All of the members of the present class are in the age limits of the Junior High School Practical Arts Class. Their ages range from 13 years to 16 years of age. All academic instruction is with the classroom teacher, each on his or her level except for two who have been successfully integrated into a regular 7th grade mathematics class. It is hoped that we can eventually integrate more of these students into our regular classrooms as they are able to successfully meet the standards of their peers. In the other areas of music, art, physical education, and industrial arts, all students of the class are taking instruction with their peers with the regular instructors of these areas. A cooking class and practical crafts are taught by myself for a total of fifteen periods per week with the aim of promoting actual working situations for teaching manual dexterity, responsibility, conservation of materials, pride of workmanship, co-worker dependability and following directions. We have worked with liquid plastic, candlemaking, copper craft, and ceramic mosaics up to now and will proceed to leathercraft and raffia in the coming months.

## SENIOR PRACTICAL ARTS

The senior program which we hope to implement in the coming year will continue from the Junior program until the ages of 18 or 19 years old. We visualize this to be the period where the student can explore at depth the vocational areas in which he is not only capable of performing successfully but also in which he has an interest. After the first year in which he shall acquaint himself with requirements of various occupations and the areas of taxes, insurance, social security, application forms and the various social and community agencies available to help him he will proceed to the second year of a half work, half school day where he will have the opportunity to actually put to work the principles of his instruc-

tion. The academic day will round out the areas in which he is deficient at his job. Lastly, in the third year, he will have narrowed his field to an actual choice of one or two occupations which he will follow upon his advent into society as a responsible and self-sufficient member.

Four of our seven students of this class will be eligible to enter this program in the coming year and we are now providing them with a limited workshop situation to prepare them for this program.

## JUNIOR PRACTICAL ARTS

ANNE DIAS

This year there are five students in the Junior Practical Arts Class. The class is set up for those children who have difficulty adjusting to the 'regular' classroom situation, intellectually and/or emotionally and socially.

Because of the small class enrollment, I am able to give each child the constant individual attention that he must have in order to develop fully. These children need this constant attention not only for intellectual growth; they are also emotionally benefited.

In a classroom of twenty-five other children besides himself, the handicapped child would feel neglected, inadequate, and continually frustrated. Thus, he would rapidly lose confidence in himself; he would begin to feel inferior, personally as well as intellectually, to his peers.

The smallness of the Junior Practical Arts class gives each child the opportunity to work at his individual level and pace, without fear of 'falling behind' the rest of the class. Lastly, the Junior Practical Arts Class enables these children to receive what they most need in order to have confidence in themselves—constant praise and attention from the teacher for each accomplishment, no matter how seemingly insignificant.

## INSTRUMENTAL AND VOCAL MUSIC

ROGER DIAS

This year the instrumental program in the Veterans Memorial School improved considerably over last year. Seven students have begun instrumental lessons. A junior band will now be possible, eventually supplying members for the high school band. If there had been an elementary band in the past there would have been no gap left by the graduating seniors, such as is presently the case.

If Provincetown High School desires to ever have a first-class band, the instrumental budget will have to increase from a minimum to a more realistic figure. All schools with bands are expected to purchase those musical instruments considered too expensive for a student to purchase. The band instruments now owned by the school can be considered antiques and haven't been in playing condition for many years. Two instruments should be added per year until the band has become well balanced.

This year I am pleased to report a more successful program with the

choruses, both elementary and high school, compared with last year. This was demonstrated by the excellent Christmas concert given at the respective schools. The fourth grades also contributed on their simple wind instruments. These "tonettes" will provide a basis for a child's continuance on a musical instrument.

The major problem confronting a successful music program is one of apathy—complete indifference on the part of too many of the students. This attitude I am having a very difficult time defeating.

## ELEMENTARY ART TEACHER

JANE B. TASCH

I herewith submit my first annual report as Elementary Art Teacher for the Veterans Memorial School.

I should like to begin my report by saying that this has been a most successful year for the elementary art program, as it is the first year that the school has had its own art teacher. In former years, the overly-heavy schedule of Art Supervisor, Frederick Shaw, Jr., often necessitated changes in the elementary schedule causing classes to be deleted. The decision to enlarge and improve the elementary program by obtaining another art teacher to lighten Mr. Shaw's load has made it possible to realize the important goals of providing a regular weekly art lesson for all grade children, and also to lengthen the Art periods to allow a broader range of Art Activities, and to ensure a follow-through on activities which take more than one lesson to complete. Despite the fact that I am unable to give my full attention to the art program due to my additional commitment to the new kindergarten program in the mornings, there have still been many advantages to having an art teacher who is always in the school building. I have been able to more efficiently attend to the distribution of art materials to the classrooms, confer with teachers and parents, and be on hand at odd times and for special projects, seasonal decorations, etc. Since I am carrying two job commitments my schedule has been rather tight, but the teaching staff has been most cooperative, and the results have been gratifying in spite of the many problems involved. I hope that eventually a full-time art teacher may be utilized in the elementary school, and that an Art room may be added, both of which would greatly streamline the curriculum, providing both more time and more space for an ever greater variety of Art Activities.

In view of the fact that the position of art teacher was new to me this year, I have found it necessary to gradually assess the abilities and needs of the children, and to make the best possible use of available time, space and materials in organizing the art program. Toward this end, I have tried to give all the grades the widest variety of art experiences possible, giving special attention to the importance of a good motivation for each lesson. I have also tried to develop in the children good working habits, the ability to listen and follow directions, and responsibility in the proper handling and care of art materials. It is my belief that originality and creativity are present, though in varying degrees, in all children, and

## KINDERGARTEN TEACHER

JANE B. TASCH

I herewith submit my first annual report as Kindergarten Teacher.

A Kindergarten was finally established in Provincetown this year, using one of the former first grade rooms as a classroom. An unexpectedly high enrollment took us a little by surprise, causing some problems. Since a double session was not possible this year due to the Kindergarten teacher's afternoon commitment to the Elementary Art Program, Mrs. Juanita Macara was hired as a Teacher's Aid, and the arrangement has made our first year a gratifying one. The unexpectedly large number of children also caused some seating difficulties. However, the addition of work tables and some regular school desks have temporarily alleviated the problem, though some loss of working space has resulted.

Since the program is brand new this year, the curriculum is naturally in the experimental stage. However, there are certain basic aims and goals which relate directly to the special needs and characteristics of the five-year-old child, entering school for the first time. Our prime concern is to provide the children with a pleasant introduction to the school situation, and to promote a healthy adjustment to the necessary regulations, routines, and expected behavior patterns of school living. Within the classroom itself, our attention focuses on helping each child to learn how to function harmoniously and effectively within the group, which is quite a new dimension in his life. The program is therefore planned but flexible in order to provide plenty of time for the development of good work and play habits, respect for others' rights and property, the sharing of responsibility in using equipment and caring for the school room, self-control, self-reliance, and self-confidence. The child is encouraged to take increasing responsibility for his own belongings, school equipment, and physical needs, and to develop habits of personal cleanliness and neatness, good health and good manners.

In more specific terms, the Kindergarten offers a variety of different activities all geared to the short attention span of this age group, in order to insure maximum retention and interest. Although careful attention is given to preparing the child for his first grade studies, the Kindergarten must not be viewed as a miniature first grade, since too much formal instruction at this level is more likely to develop undesirable habits of inattention, boredom, and a sense of failure, which may never be outgrown. Reading readiness and number readiness are therefore presented in ways that are meaningful to the child at this point in his experience. For instance, it is felt to be essential that the child should develop a love for books and the written word if he is to be motivated to learn to read himself. Therefore, plenty of time is allowed for free perusal of different kinds of books, and the reading of stories and poems in a regular part of each school day. Good listening habits and good comprehension are encouraged through group discussion and questions about the stories, etc., and the children discover that literature relates directly to their everyday experience, that it is a source of both knowledge and pure amusement and most important, that written words are actually "talk written down".

that proper motivation and stimulation will result in each child's reaching his own individual potential in art activities. This is not to say that every child has the same degree of art talent or interest, but a meaningful art program should benefit each individual child in helping him to express himself artistically, to learn simple techniques, and the effective use of a variety of art materials.

Naturally children in grades 1-3 need more instruction in basic techniques, to learn control of the small muscles in using crayons, paint brushes, scissors, rulers, paste, etc. I have tried to provide many varied opportunities for the learning of these basic skills through crayon and chalk drawing, watercolor, tempera, and finger painting, paper and pasting activities, clay modelling, simple printing activities, etc. In the upper grades, 4-6, I have tried to provide opportunities for group projects so that the children may combine creativity with learning to cooperate in group efforts. Some of these activities have been related to other areas of study such as social studies, and others have revolved around class plays, assembly programs, and seasonal displays. I have concentrated less on the formal aspects of art, and more on the development of originality in creative thinking, since children, as they grow older unfortunately tend to conform more and more to what they feel they are expected to produce (a perfect rendering of a horse, photographic reproduction of detail and color, etc.) I do not discourage the ability to reproduce realistic objects and scenes, but I do try to help each child to trust his own sense of creativity, and to feel free to experiment in his art work and to enjoy the excitement of producing something that is uniquely his own. The children have tried numerous types of printing techniques, including finger paint prints, vegetable prints, string prints, gadget prints (using different small objects dipped in paint), wood fragment prints, stencil prints, etc. Several long-term projects have been enjoyed, including the making of papier mache bowls, painting, decorating, varnishing and wrapping them in the children's own potato-printed paper, as Christmas gifts.

I have tried to use combined media whenever possible (for example, painting over a partially crayoned drawing) in order to show the children that combinations of materials can produce interesting, and unique results.

As an adjunct to the art program, trips to local museums and art galleries are being planned, at least for the upper grades. In addition, a children's art show will be held, at the Provincetown Art Association, during the month of June, 1967. A sample of the art work of each child in the elementary program will be on display, and the children, their parents and friends, and the general public will be invited to attend.

In conclusion, let me offer my sincerest thanks to the School Committee, the principal and staff of Veterans Memorial School for their cooperation, enthusiasm and support of my initial efforts throughout this year. With their continued encouragement, I look forward to an even more successful program next year.

Since good speech and good self-expression are known essentials for success in reading, these are carefully encouraged through group discussion, sharing of individual experiences, etc. Sight and sound recognition of letters are presented through games of various sorts, and some initial sight recognition of words which are meaningful to the children such as color words, traffic signs, and words used on various charts and signs in the classroom are encouraged but not demanded of individual children. They learn when they are ready, and as a natural result of their own curiosity. Various more formal tools of learning are introduced as the program progresses. These include the "We Read Pictures" reading readiness workbook, and some mimeographed work pages which are intended primarily to increase the child's attention span through focusing attention on a single page, to teach him to follow verbal directions, to help him relate the action in the pictures to the printed word, and to train his eyes in the left to right reading pattern. Plenty of opportunity for handling and counting solid objects and seeing their relationships to each other precedes the sight recognition of number symbols and the more abstract number concepts. Counting is utilized in various school routines such as passing napkins for snack time, passing out crayons, and counting various objects in the classroom, etc.

Other areas of the curriculum include activities known to benefit the Kindergarten age child. One of these is social studies where the child can gradually explore his environment with particular emphasis on living things, simple scientific experiments, and the working relationships of various community workers. Whenever possible, trips to seashore areas, parks, and community buildings such as fire stations and museums will augment this part of the program. Still another activity is creative self-expression in the form of dramatizing familiar poems, stories and events, participating in creative musical games, and playing instruments in the rhythm band. Various art media are employed such as easel painting, drawing, finger painting, clay, cutting and pasting activities, etc.

Written reports on each child are sent out twice a year, and conferences with parents are scheduled for January and February, so that mutual efforts by teacher and parent will benefit the child's school experience.

We are most grateful to the School Committee, the school staff, and the parents for their interest in and support of the Kindergarten, and we plan to further expand the program in a number of ways next year. Providing that the enrollment is high, it is hoped that a double session may be instigated in order to better meet the individual needs of each child. We also hope to add much needed outdoor play equipment and some indoor equipment, particularly a piano, in order to provide a more rounded Kindergarten program next year.

## READING TEACHER

MADELYN WEISSER

With the increase in time the reading teacher has been spending at Veterans Memorial School, it has been possible to provide more intensive help for individual children in small groups.

A workshop program under the leadership of Mrs. Dorothy Kraft, an expert reading consultant, provided an opportunity for all teachers to observe her administer diagnostic tests, teach in the classroom, participate in discussions and listen to lectures.

To help develop auditory interpretative language, and visual skills new materials have been added to records, reading games, tests, puzzles and an audio visual language master.

One of the responsibilities of the reading teacher during 1966 was administering a test to all children in grades 3 through 6. The results of the test were used in establishing groups according to the needs of each child. The reading teacher shares the instruction of one group during the first school hour each morning.

By providing a reading program and reading material that fits the need of each child, it permits him to advance according to his own abilities and gain self-confidence.

Working with the children has been a very happy and rewarding experience.

## SCHOOL NURSE

MRS. ANNA M. MOON, R. N.

It has given me much satisfaction and pleasure to return to school nursing here in Provincetown, where I worked from 1933 to 1941.

Due to an oversight, my report was not included in the 1965 Town Book. I would like to include some of it in with this report.

The Pre-school clinics for entering students were held in April 1965 and May 1966, under the direction of Dr. Thomas Perry, School Physician.

	1965	1966
No. examined	29	32
No. D.P.T. boosters	18	24
No. oral polio boosters	21	27
No. Small Pox vaccinations	6	7

As parents were present at this time, Dr. Perry was able to discuss with them any defects found and advised follow-up by their family physicians.

Booster clinics were held in the schools by Dr. Perry in January and February 1966. Grades 1, 5, 10 and 12 were given the opportunity to receive this added protection.

Grade 1—D.P.T. boosters	11
oral polio boosters	8
5—diphtheria-tetanus boosters	48
10—tetanus-diphtheria boosters	39
12—tetanus-diphtheria boosters	47

Small Pox re-vaccination were given to 43 pupils in Grade 10 and 40 in Grade 12, with all but two pupils having positive reactions.

Physical examinations have been made by Dr. Perry in Grades 3, 6 and 10 and all athletes in the junior and senior high school have been checked before starting practice in competitive sports.

The hearing and vision testing has been completed. Notices for referral to specialists in these fields have been sent to parents. Most of these pupils have been seen by the specialist and corrections have been made when indicated. The Pure Tone Audiometer was used for the hearing test. For the vision, the Titmus Vision Tester, which is the method of testing recommended by the Massachusetts Department of Education, was used for the first time in 1965.

Health classes are conducted in Grades 5 and 6, with much interest and enthusiasm by the pupils. In these classes we discuss and study all phases of growing up to be healthy boys and girls.

The Red Cross course in Home Nursing was given in the high school to the Home Economics class. Fourteen girls received their Red Cross certificates.

With the consent of the parents the film "It's Wonderful Being a Girl" was first shown in June 1965 to the girls in Grades 5 through 9. Mothers were invited to view the film at the same time. Each year the film will be shown to Grade 5 girls.

During the summer of 1966, I assisted at the Title I program at the Veterans Memorial School. During this time, I was available for first aid, testing of vision and hearing, weighing and measuring, and home visits when necessary.

The use of the telephone has cut down the necessity of making many home visits. I do try to make a daily check of all pupils absent at the elementary school by calling the parents. Mr. Leyden checks on the absentees in the junior and senior high school. When deemed necessary, home visits are made for personal contact with the parents.

The dental clinic under the direction of the Provincetown Board of Health has been held at the Veterans Memorial School. Dr. Lucien Bouchard of Orleans, has done the dental work for pupils from kindergarten through Grade 8.

	1965	1966
No. of clinics	42	33
No. of pupils with work completed	182	136
No. of extractions: temporary	157	71
permanent	38	20

No. of fillings:	temporary	27	10
	permanent	101	113
No. of treatments:	temporary	3	1
	permanent	26	19
No. of cleanings		63	89
		—	—
Total operations		393	322

Approximately 36% of the pupils in these grades are seen at the school clinics. Many of the other students are seen regularly by their family dentist. We still have some children who never go to a dentist except when it is necessary to have a badly decayed tooth extracted. Much has been done through education, especially through television advertisement, to make parents realize the importance of proper care of both temporary and permanent teeth.

There has been much clerical work to be done. Each student has an individual health card on which is recorded any pertinent facts pertaining to his health during his years of attendance in the schools. These cards must be kept up-to-date if they are to be of any value. When a pupil is transferred to another school system the health record is forwarded with their scholastic records.

In cooperation with the guidance department, family health histories have been taken for those pupils referred to the Barnstable County Child Guidance clinic for evaluation.

In 1965 there were many cases of measles, chicken-pox and German measles in the town. In 1966 we had chicken-pox, mumps, and German measles. We have been fortunate in not having any cases of diphtheria, whooping cough, tetanus or polio in the past few years. Parents realize the value of immunization in preventing the terrible handicaps and deaths from these diseases. The periodic booster doses given by the family physician or at the free clinics held in the town have practically eliminated these diseases. The new measles vaccine is helping to cut down the number of cases of measles.

Plans are being made to conduct a tuberculin testing clinic for Grades 1 and 9 under the direction of the Provincetown Board of Health.

I have attended the in-service meetings conducted by the Massachusetts Department of Health in conjunction with the Barnstable County Health Department. I attended a demonstration and practice session at the Henry T. Wing School in Sandwich in June 1965 in the use of the Titmus Vision Tester. During the Fall of 1966, I completed the Red Cross course for First Aid instructors. At the meetings of the Cape Cod School Nurses Club we have had speakers on subjects of particular interest to us. Here, also, we have been able to exchange ideas and materials with other school nurses on the Cape.

The Cape Cod Community College, when they have their new campus completed and can add additional courses to their curriculum, has agreed

to include some courses of special interest to school nurses.

I would like to express my sincere thanks for the assistance and cooperation that I have received.

## SUPERVISOR OF ATTENDANCE

ARTHUR D. RODERICK

I hereby submit the annual report of Supervisor of Attendance for the year 1966:

Home Visits	220
Truants	10
Absent because of sickness	180
Absent because of other reasons	30
Referred to Probation Officer	5

## GRADUATION PROGRAM

Processional: "Pomp and Circumstance"	P. H. S. Band
Edward Elgar	
Invocation	Reverend Ernest D. Vanderburgh
Class Welcome	Anthony Souza, Class President
Integrity—Of What Value?	Anthony Souza
"He"	P. H. S. Chorus
Mullan and Richards	
The Renewal of Faith	Carol Days
"Try To Remember"	P. H. S. Chorus
Jones and Schmidt	
Band Selection: "Troika"	P. H. S. Band
Serge Prokofieff	
Ambition Through Education	Paul Benatti
"You'll Never Walk Alone"	P. H. S. Chorus
Rodgers and Hammerstein	
Has the Investment Paid Off?	Deborah Wilson
"This Land Is Your Land"	P. H. S. Chorus
W. Guthrie	
Presentation of Diplomas and Pledge of Graduates	Mr. Herman DeSilva Chairman of School Committee
Benediction	Reverend Thomas Mayhew
Recessional: "National Emblem March"	P. H. S. Band
E. E. Bagley	

### CLASS OFFICERS

Anthony Souza	President
Steven Roda	Vice-President
Helen Thomas	Secretary
Margaret Rivard	Treasurer
Mr. Elmer Silva	Class Advisor

### NATIONAL HONOR SOCIETY

Charles Rogers, President	Wayne Perry
Carol Days, Vice-President	Steven Roda
Helen Thomas, Secretary	Warren Roderick
Paul Benatti, Treasurer	Anthony Souza
Joseph Days	E. Judith Vizard
Deborah Wilson	

### CLASS COLORS

Maroon and White

### CLASS MOTTO

"We know what we are, but not what we may be"

### STUDENT COUNCIL

Michael Coelho	Halcyone Hurst	John Edwards
----------------	----------------	--------------
