FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

15 Commercial St building was built in several different stages and has an irregular roof plan covered in asphalt shingles. The largest section is 2-stories with a hipped roof, an interior brick chimney, and six-over-six double hung wood sash windows. Another early part of the building, which intersects with the 2-story portion is a 1-story cottage with a side-gable roof, interior gable-end brick chimney and a brick foundation. The windows contain nine-over-six and six-over-six double hung wood sash and a shed dormer has paired 8-pane wood awnings. The main entrance is accessed in the cottage by a glass enclosed vestibule. Attached to the front corner of the cottage is another 1-story, gable-roof building that sits at the street edge and contains a brick foundation and eight-over-eight double hung wood sash windows that protrude from the wall. A modern 1-story, flat roof addition with modern 10-pane casements is also a part of the Inn. A small, gable-roof shed is attached to the building and touches Commercial Street.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
