ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

58 Commercial St is a 2-story, 3-bay sidehall dwelling with a front-gable roof and wood shingle cladding. The wood box cornice has partial returns; corner boards frame the facades. The recessed primary entry door is 2 vertical panels with 5-light sidelights; the wood door surround has an entablature and pilasters. Fenestration is primarily 6/6 wood DHS replacement windows with inoperable louvered shutters, though some operable shutters do exist on the building (side façades). There is a 4/4 DHS window in gable end. The eastern façade is 5 bays with a panel central entry door, 4-light transom, entablature and pilasters. The 1-story rear addition has a multi-light entry door with glass storm and small entablature. Exterior steps with turned balustrade lead to a roof deck. There is a secondary entrance with multi-light door and sidelights. A brick chimney is located at the end of this ell.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

BIBLIOGRAPHY and/or REFERENCES
