FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

48 Bradford Street is a 1-story, 5-bay center entry full cottage. The Halifax roof type (a variation on the saltbox) gives the building a long, medium pitched roof slope in the front and a short low-pitched slope in the back to accommodate a half or full story at the rear. The door is a panel door with 4 transom lights incorporated into the door. The door surround contains scalloped molding across the top. A storm door is installed. Windows are 6/6 DHS wood with storm windows and wood trim. The chimney is concrete block. The property is bordered by a white picket fence.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

BIBLIOGRAPHY and/or REFERENCES
