FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

This is a 1 1/2-story, 6-bay building with entry offset to the right. The building faces south toward Commercial Street. The side gable roof is clad in wood shingles and has a gable dormer on each slope; skylights are also present. A simple frieze and corner boards frame the facades, denoting Greek Revival style influence. The main entry consists of a pane and panel door flanked by fluted pilasters and capped by a pedimented crown. The pediment is more characteristic of later Colonial Revival style. Windows are replacement 1/1 DHS wood with storms and operable panel shutters. A 1-story addition extends southward from the end of the primary facade. It has a shed roof and concrete chimney. 1st and 2nd-story decks are located on the east facade.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.
