FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

This is a 2 1/2-story, 3-bay sidehall house. The primary entry has a flat-roofed hood supported by square posts with applied decorative elements. Windows are 1/1 replacement DHS and have wood trim. The paired entry doors have storms installed. They are reached by wood steps and a deck. A bay extends from the western façade, encompasses windows and a secondary entry. This entry has a flat hood with elaborate knee braces.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

102 Bradford Street is first noted on the 1836 map of Provincetown. By 1858, it is indicated that the owner is N.P. Freeman. 102A shown as a smaller structure in the 1880 atlas, does not have a name ascribed to it until 1907 when Mrs. James B. Cobb is listed as the resident.

Although different stylistically, these two houses serve as an excellent example of how building lots were crowded with second and sometimes third structures throughout the 19th century.
