FORM B - BUILDING

--	--	--	--

ARCHITECTURAL DESCRIPTION

see continuation sheet

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings in the community.

650 Commercial Street is a 2-story, 3-bay dwelling. Hipped-roof wall dormers are located on each facade. These dormers contain paired 1/1 DHS windows. The roof has exposed rafter ends. The 2nd story overhangs the 1st, providing a protected porch across the primary facade. Large piers with small knee braces support the 2nd story over the porch. Wood steps access a wood deck. The entrance contains a historic door with storm. The left side facade contains two single 1/1 DHS in the dormer. Paired DHS are near the rear facade. Single-light casement windows exist near the front facade. The right side facade contains paired 1/1 DHS in dormer. A hipped roof, canted bay is located near rear with 2/1 DHS.

HISTORICAL NARRATIVE

see continuation sheet

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

BIBLIOGRAPHY and/or REFERENCES
